Notification by the Government of His Highness the Maharaja of Mysore,

Geological.

No. 555 S., dated Bangalore, 2nd March 1904.

In supersession of Government Notifications No. 46-M, dated 13th October 1897 and No. M—99 and No. 100—A, dated 9th December 1897, the following rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the Mysore State are hereby notified.

Rules for the Grant of Exploring and Prospecting Licenses and Mining Leases in the State of Mysore.

I.—EXPLORING LICENSES.

1. A license to explore for minerals within the State of Mysore, hereinafter called an Exploring License, may be obtained on application to the Secretary to Government in the Geological Department, by whom every License granted shall be signed on behalf of the Government.

2. Each application shall be accompanied by a fee of Rs. 10 and shall contain a description of the area to be covered by the License. Government may refuse to grant any License, in which event the fee shall be returned to the applicant, or may at their discretion limit the area to which the license shall apply, or specifically exclude any mineral from the License.

3. Such License shall not authorize the Licensee to mine or quarry, but he may turn up the surface of the land to such depth and subject to such conditions as the Deputy Commissioner may direct.

4. No private or occupied lands and no lands over which exclusive mineral rights have been granted to others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

5. Every License shall be in Form No. 1 hereto appended and shall run for one year. Such License shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an Exploring License.

6. The Licensee shall be at liberty, subject to such restrictions as Government may from time to time impose, to remove any specimens or samples found in or upon the land to which the License applies.

II. PROSPECTING LICENSES.

7. Applications for Licenses to prospect for minerals within the territories of Mysore shall be made to the Secretary to Government in the Geological Department in Form No. 2 hereto appended.

8. Each application shall be in respect of a specified block of land which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

9. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

10. Every prospecting License granted under these Rules will be in form No. 3 appended hereto and will be valid for one year, but the Government may at their discretion renew any license from year to year, on payment in advance, of an annual rent which may be determined upon separately for each period of renewal.

11. The fees ordinarily payable in respect of each license shall be :—

(a) A deposit of not less than Rs. 100 or such larger sum as the Government may determine according to the area and character of the land included in the block licensed. This deposit shall be held as security for the due fulfilment of the terms of the license and subject to any deductions in this respect, will be returned to the licensee on termination of the license.

(b) A rent of Rs. 50 for each square mile, or portion of a square mile, of area included in the block.

12. Each application must be accompanied by :—

(a) A sheet or extract of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.

(b) A schedule giving the names of the villages included (either wholly or partly) in the block together with the Taluk and District in which they are situated and stating the area of the block in square miles.

(c) A deposit of Rs. 100 which must be remitted either as a Government Treasury Receipt or as a crossed cheque on the Bangalore Branch of the Madras Bank to the order of the Secretary to Government in the Geological Department.

13. On receipt of any application, Government will, if they decide to grant a license, inform the applicant of the amount of the fees payable therefor and of any special terms which

they may consider desirable to impose. Within such time as may be fixed by Government in each case the applicant shall pay the amount of the fees specified and signify his willingness to abide by any special terms that may be imposed and shall point out the boundaries of the selected block to an officer deputed for that purpose. On completion of the survey and demarcation of the block, two forms of the license and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a fortnight from the date of receiving such communication, tender the license in duplicate signed by himself for the signature of the Secretary to Government in the Geological Department, paying at the same time the cost of the survey and demarcation.

14. Until the license is signed by the Secretary to Government in the Geological Department, the applicant shall not be entitled to exercise any of the privileges of a licensee.

15. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one square mile in area and not more than one mile from end to end in any direction, within the area specified in his license. When such selection has been made, the licensee shall be entitled, under and subject to the Rules for mining leases contained in paras 18 to 29 of this Notification, to obtain a Mining Lease of the selected block.

16. If the applicant shall neglect to carry out any of the preceding provisions, his application shall be cancelled and he shall not be entitled to a refund of the sum of Rs. 100 deposited with the application.

17. If the license is refused under Rule 9 or if the applicant, within a fortnight of being informed of any special conditions under Rule 9, declines to accept them, the said sum of Rs. 100 will be refunded to him.

III. MINING LEASES.

18. Applications for Mining Leases within the territories of Mysore shall be made to the Secretary to the Government in the Geological Department in Form No. 4 appended hereto.

19. Each application shall be in respect of a specified block of land not exceeding one square mile in area and not more than one mile from end to end in any direction; the block shall be as far as possible in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

20. Every mining lease granted under these Rules, will be for a period not exceeding thirty years and will be in Form No. 5 appended hereto.

21. The applicant for a mining lease must satisfy the Government that he will be able to raise within two years the sum of £10,000 sterling for the purpose of carrying on mining operations in the block of land applied for, and a statement as to the manner in which he proposes to raise this sum must accompany the application.

22. Each application must be accompanied by—

(a) A deposit of Rs. 1,000 as security for the due fulfilment of the terms of the lease which must be remitted as a Government Treasury Receipt or as a crossed cheque on the Bangalore Branch of the Madras Bank to the order of the Secretary to Government in the Geological Department.

(b) A sheet or extract of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.

(c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the Taluk and District in which each is situated.

23. The applicant must point out to an officer deputed for the purpose by the Secretary to Government in the Geological Department the boundaries of the block of land applied for within a fortnight of the date on which he may receive an intimation to that effect, and the officer so deputed shall thereupon survey the block and erect such boundary marks as may be requisite.

24. After the completion of the survey and all necessary enquiries two forms of the lease to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore, the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

25. Failure to comply with the preceding rules will involve cancellation of the application and forfeiture of the sum deposited with it.

26. The applicant's title to the land applied for will not be complete till the lease is actually executed by the Dewan.

27. The lease shall, after execution, be registered under the law for the time being in force for the registration of assurances, and the duplicate copy thereof shall be deposited with the Mysore Government.

28. (i) Every holder of a prospecting license is entitled as of right to a mining lease of one block of land under and subject to the provisions of the preceding rules, and the special terms (if any) imposed by the license.

(ii) In the case of other applications the Government shall be at liberty either—

(a) to grant a lease to the applicant under the preceding rules,

or (b) to impose such special terms as they may in their absolute discretion think desirable, or (c) to reject the application without assigning a reason.

29. The Government reserve to themselves the right to invite tenders for the purchase of mining leases for any land other than a block selected under a prospecting license without binding themselves to accept any or the highest tender.

IV. GENERAL.

30. As an ordinary rule, not more than one application for a prospecting license or mining lease will be entertained from the same person, but in special cases two or more applications from the same applicant may be taken into consideration, if there are no other eligible applicants and no other objection exists, and the Government are satisfied that the application is made for the purpose of *bona-fide* work and not for the purpose of mere speculation in mining land.

31. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease providing for the proper prospecting or mining of the land comprised therein.

By Order,

W. F. SMEETH,

Secretary to Government,
Geological Department.

EXPLORING LICENSE.

Exploring license granted this day of 190 , by the Government of His Highness the Maharaja of Mysore to hereinafter called the licensee.

Whereas the licensee has applied in accordance with the rules published under Notification No. dated for a license to explore for minerals in the area described in the Schedule hereto and has paid the prescribed fee of Rs. 10—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the Licensee subject to the restrictions, conditions and provisos hereinafter contained, exclusive license and liberty to enter upon the lands within the area aforesaid and to explore and search the surface of the same for minerals, stones or rocks for a period of one calendar year from the date hereof and subject to the restrictions hereinafter contained or such other restrictions as the Government may from time to time impose, to remove any specimen or samples thereof found by the licensee upon the said lands during the term of the license.

2. This license does not authorize the licensee to enter upon or commence exploring in any State forest or land under special protection included in the land described in the schedule hereto, nor without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may in his absolute discretion prescribe.

3. This license is subject to any vested interests and to any rights and liberties which have been granted by Government in the said area or in the minerals, stones or rocks therein contained prior to the date of the grant of this license.

4. This license shall not authorize the licensee to mine or quarry within the boundaries of the land specified in the schedule, but the licensee shall be at liberty to turn up the surface to such depth and subject to such conditions as the Deputy Commissioner may authorize.

5. In the course of exploring operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

6. The licensee shall abstain from all interference with the free use of any tanks, water-courses, sacred groves, burial grounds, village sites for houses, or grazing lands which may now exist in the said area, and in no way obstruct any road, path or by-way, of any kind whatsoever, in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages or houses or other private property whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

9. This license shall not be assigned nor any right or interest hereunder transferred without the consent in writing of the Government.

10. The licensee may remove any minerals found by him in or upon the said land in the course of his exploring operations under this license in reasonable quantities for the purpose of sampling or testing but not for the purpose of sale without the sanction of Government.

11. The licensee shall within ten days of the discovery by him, his servants, workmen or agents, of any and all precious stone or stones upon the said lands report the discovery to the Secretary to Government in the Geological Department and shall produce the stones when called upon to do so and shall pay to Government by way of Royalty fifteen per cent of the value of the stones so found.

12. This license shall not confer upon the licensee any exclusive or preferential rights of any kind and if there be any breach by the licensee of the terms of this license, Government may forthwith cancel this license and thereupon all rights conferred thereby or enjoyed thereunder shall absolutely cease and determine.

To allow free access to places where such books, plans, etc., may be kept.

26. AND WILL, at the end or sooner determination of the said term, give up to the lessors the said books, maps, plans and sections in good and perfect condition;

And give up to lessors books and plans at end of term.

27. AND WILL, at his own expense, forthwith erect and at all times maintain and keep in repair such boundary marks and pillars as the lessors may require;

To erect boundary marks.

28. AND WILL well and properly secure and keep open with timber or other durable means all pits and shafts to be sunk or made in the mining block and make and maintain sufficient fences round every such pit or shaft;

To secure pits and shafts.

29. AND WILL NOT, until the license, in writing, of the lessors or their agents be obtained, wilfully close, fill up or choke any mine or shaft:

Not to fill up shafts or mines.

30. AND WILL, throughout the said term, duly enforce in every part of the mining block such sanitary rules for the health and well-being of all persons employed by the lessee or who may be on the mining block or in its neighbourhood, as the lessors may, from time to time, prescribe;

To enforce sanitary rules.

31. AND WILL, at any time or times when required by the lessors so to do, set apart and appropriate for free use by the lessors such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for sites for villages, tanks, wells and other works for water-supply, hospitals, sanitary works, Government offices, Police stations and other buildings or works of public utility which are in the opinion of the lessors required for or in connection with the persons employed by the lessee or in work under or in connection with any contract made by the lessee or who are engaged in supplying the wants of those so employed and the families and dependents of such persons or in connection with the inspection of the mines or the prevention of crime; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee, and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon;

To set apart land for public purposes.

To permit lessors to inspect mines, etc.

32. AND WILL permit the lessors and their agents, servants and workmen, throughout the said term, to enter upon any part of the mining block above or below ground and inspect and examine the state and condition thereof and of the mines and buildings and mining and metallurgical plant therein or thereon and the mode in which operations are carried on and will further, with proper persons employed by the lessee, and acquainted with mining and metallurgical operations and with the engines, machinery and apparatus and other mining and metallurgical plant upon or within the mining block, effectually assist in the conduct of every such inspection and examination, affording all information required therefor;

To conform to mining regulations and report accidents.

33. AND WILL from time to time, and at all times during the said term hereby granted conform to and observe all orders and regulations which the lessors, or their agents, duly authorized in this behalf may, from time to time, see fit to issue and prescribe for the proper carrying on of all mining work and other operations within the mining block or in the interests of the health, well-being and safety of persons employed by the lessee or who may be on the mining block or in its neighbourhood, and also will, without delay send to such officers as may be named for this purpose, by the lessors, a report of any accident which may at any time occur in connection with any mining or metallurgical operations in or on the mining block;

To abstain from entering occupied land and compensate for injury to surface.

34. AND WILL in the exercise of the license and liberties hereby granted, abstain from entering upon the surface of any occupied Government land or of any Inam land comprised within the mining block without previously purchasing the rights or obtaining the consent of the occupant, holder or tenant of such land, by an instrument, in writing, duly registered, and if any damage or injury be caused to the surface of any such land by any operations carried on under this lease, will duly compensate the occupant, holder or tenant thereof, for all such damage or injury;

Not to obstruct roads, etc.

35. AND WILL keep open and in no way obstruct any road, path or by-way of any kind whatsoever now existing or which may hereafter be made on the mining block;

To permit lessors to make roads, tramways, railways, etc.

36. AND WILL permit the lessors or other persons authorized by them in that behalf to enter into and upon the mining block and to make upon, over or through the same such roads, tramways and railways as may in the opinion of the lessors be necessary or expedient for any purposes and to obtain from and out of the lands such stone, earth and other materials as may be necessary or requisite for making, repairing or maintaining such roads, tramways and railways and to pass and to re-pass at all times over and along such roads, tramways and railways for all purposes and as occasion shall require;

To allow free use of tanks, water-courses, etc., to the public and the lessors.

37. AND WILL abstain from all interference with and allow to the public and the lessors the free use of any tanks, water-courses, places of worship, sacred groves, burial grounds or village sites for houses, which may now exist or may hereafter be set apart or appropriated as herein before provided on the mining block;

Not to use the land for other purposes.

38. AND WILL NOT cultivate any of the lands comprised within the mining block or in any way use the said lands save for the purposes of the rights, licenses and liberties hereby granted;

Not to cut trees, etc.

39. AND WILL NOT without the express sanction of the Deputy Commissioner for the time being of the District, cut down or injure any trees or timber on the mining block other than brushwood or undergrowth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted;

40. AND WILL NOT without obtaining the sanction in writing of the District Forest Officer upon such conditions as that officer may in his absolute discretion prescribe enter upon or commence any mining operations in any State Forest or land under special protection comprised in the Mining Block.

Not to interfere with grazing rights.

41. AND WILL NOT, so far as may be consistent with the due exercise of the rights, licenses and liberties granted under this lease, interfere with or hinder the enjoyment of grazing rights lawfully granted by the lessors to village communities or to individuals in any part of the mining block;

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

42. AND WILL from time to time, and at all times hereafter, effectually keep indemnified the lessors from and against all claims, demands and expenses whatsoever, by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising directly or indirectly in carrying on mining or metallurgical operations on the mining block or otherwise in the exercise of the rights, licenses and liberties hereby granted;

To respect water-right and not injure mining property.

43. AND WILL NOT, without the express sanction of the Deputy Commissioner for the time being of the District, and then subject to the provisions for compensation and indemnity herein contained, use, collect or impound water in or on the mining block in such a manner

as to deprive any adjoining land, villages, houses or watering places for cattle of a reasonable quantity of water as heretofore accustomed and will not in any manner foul, impregnate or otherwise deteriorate any springs or streams of water so as to render them unfit to be used as heretofore, and will not in any other way do anything to injure adjoining lands, villages or houses;

To deliver to lessors mines, buildings, etc., on expiration of term.

44. AND WILL at the expiration or sooner determination of the said term, deliver to the lessors in good order, repair and condition and fit for future working and use, and in all respects in such state and condition as shall be consistent with the due performance and observance of the several covenants and agreements by the lessee herein contained, the mining block and all mines and buildings and all pits, shafts, ladders, plats, sollars, timber, ropes, water courses, air-gates, engines, machines, and other mining and metallurgical plant below and above ground which are in the nature of fixtures or necessary or desirable for the proper working of the said mines and the raising of minerals from the mining block or for the obtaining or preparing of intermediate or finished products from such minerals, except any pits, shafts or other works which shall have been abandoned or disused in the ordinary and fair course of working of the said mines and premises, but so that the lessors shall pay to the lessee a fair price for all engines and machinery of any description in or on the mining block, based on the amount the same could be sold for on the mining block if the lessee had power to authorize the purchasers to remove them, unless the lessors shall have given notice in writing to the lessee that they the lessors do not intend to take over any of such buildings, engines and machinery plant and other things in which case the lessee shall be at liberty to remove the same, but without injuring any other property in or on the mining block;

To have an Agent on the mining block.

45. AND WILL, at all times, have at the mining block a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the lessors may be made, the lessors being at liberty, should there at any time be no such agent on the mining block, to treat any other person there as such agent and to serve all notices and other documents upon the said agent or in his absence upon any such other person as aforesaid or in the case of there being no such other person as aforesaid, then by affixing such notices or other documents upon some conspicuous portion of the mining block;

Distraint for liabilities under lease.

46. PROVIDED ALWAYS that, if and whenever any part of the liabilities under this lease shall be in arrear for the space of sixty days after the expiration of the time prescribed by these presents for payment thereof, the lessors shall be at liberty to seize all minerals and intermediate and finished products in or about the mines or pits opened, worked or carried on by the lessee in the mining block, and any engines, machinery or other property found in the mining block, and the lessors may sell or otherwise dispose of and deal with the property thus seized and from the monies produced thereby may deduct and retain all liabilities under this lease and all expenses incurred in or about any such seizure and sale;

Re-entry on non-payment of liabilities under lease or on breach of covenant.

47. PROVIDED ALSO, and these presents are upon this express condition, that if and whenever any part of the liabilities under this lease shall be in arrear for the space of six calendar months next after any of the days whereon the same ought to be paid as herein provided, whether the same have been legally demanded or not, or if the lessee, or the lessee's workmen shall cause any obstruction or annoyance to the officers of the lessors or to the people of the country or if the lessee shall cease to carry on the regular working of the mines or shall refuse to afford information to the lessors, or shall fail to provide within two years of the date of these presents a sum (which shall in no case be less than ten thousand pounds) sufficient for efficiently carrying on mining operations upon the mining block or if there shall be any other breach of any of the covenants and agreements herein contained and on the part of the lessee to be performed and observed, then and in any such case it shall be lawful for the lessors or their agents duly empowered in that behalf, although they may not have taken advantage of some previous default of a like nature, to re-enter upon any part of the mining block or of the mines, buildings or mining or metallurgical plant or other operations or works in or on the mining block in the name of the whole and thereupon the said term of the thirty years shall absolutely determine and the said deposit of Rs. 1,000 hereinbefore referred to shall be retained by the lessors as and for their own property;

Determining the lease at the option of the lessee at the end of any year.

48. PROVIDED ALSO, and it is hereby agreed and declared, that if the lessee shall be desirous of determining the said term of thirty years hereby granted at the expiration of any year of the said term and of such desire shall give to the lessors six calendar months previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of such year, then and in such case upon the expiration of such year the term hereby granted shall absolutely cease and determine;

Renewal of lease.

49. PROVIDED ALSO, and it is hereby agreed and declared, that if the said term of thirty years hereby granted shall not, prior to the termination thereof by lapse of time, have been determined under the

provisions hereinbefore contained, and if the lessee shall be desirous of obtaining a renewed lease of the licenses, rights and liberties hereby granted for a further term of thirty years from the expiration of the term hereby granted and of such desire shall give to the lessors one year's previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of the term hereby granted, then *and in* such case the lessors will, upon the request and at the expense of the lessee, execute and deliver to the lessee a renewed lease of the said premises for a further term of thirty years in such form and subject to such royalty and other payments and such covenants, agreements and conditions, as the lessors may prescribe and the lessee shall at the same time execute and deliver to the lessors a counterpart of such renewed lease.

In witness whereof the Dewan of Mysore, acting for and on behalf of the lessors, and the lessee have hereunto and to a duplicate hereof set their respective hands and seals the day and year first above written.

FINANCIAL DEPARTMENT.

INSPECTION OF TALUK TREASURIES.

To—The Deputy Commissioners, Treasury Department, of all Districts.

No. 2040, *dated 20th—22nd February* 1904.

I. Adverting to para 62 of Government Order No. 1150-1192—18-1901-2, dated 7th February 1903, the Comptroller has the honor to impress upon all Deputy Commissioners the fact that the responsibility for the proper management and efficient working of all the Treasuries in their respective Districts rests entirely with them. Government Order No. 8547-55—R. F. 213-92, dated 11th December 1892, requires that every Sub-Treasury in a District should be inspected by the Deputy Commissioner or by one of his Assistants once at least every six months and the result of each examination reported to this office. One of these half-yearly

inspections at least has, as recently required by Government, to be technical and as such should be conducted by the District Treasury Officer himself and reported to this Office through the Deputy Commissioner.

II. Deputy Commissioners are therefore requested to be so good as to arrange for the requisite systematic inspection of all the Sub-Treasuries in their Districts. In special cases where further examination by an expert is found necessary, a qualified officer from this office will be deputed for the work.

III. Revised printed forms of inspection report will be sent on receipt from the Press. Till then the existing report forms may be used.

1. *Draft Rules for the use of Musafirkhanas in the State.*—Read Draft Rules received with Secretary's docket No. 1130-7—L. F. 59-03, dated 9th September 1903.

Resolved that the Board expresses its opinion that the proposed rules are satisfactory and need no alterations or additions.

2. *An estimate amounting to Rs. 11,162 for metalling the first 7 miles of Sagar-Benhatti-Kolurghat road.*—Read Public Works Secretary's docket No. 1018, dated 11th September 1903, forwarding copy of his No. 1017—5023, dated 11th September 1903, to the Superintending Engineer, sanctioning an estimate amounting to Rs. 11,162 for metalling the first 7 miles of Sagar-Benhatti-Kolurghat road when funds are duly allotted.

Resolved that funds are not available for this and that the matter may be brought before the next meeting of the Board when passing the next year's budget estimates.

3. *An estimate amounting to Rs. 452 for repairing the old travellers' bungalow at Shikarpur.*—Read Executive Engineer's docket No. 6, dated 31st January 1904, forwarding an estimate amounting to Rs. 452 for repairing the old travellers' bungalow at Shikarpur.

Resolved that it is understood that such old buildings are repaired from Provincial Funds, that if so, the cost of repairing the old travellers' bungalow in question may be met from Provincial Funds and that if otherwise this Board will allot the required amount for the purpose.

4. *An estimate amounting to Rs. 558 for sinking a well at Bhandza.*—Read Tirthahalli Amildar's report No. 14, dated 1st January 1904, forwarding an estimate amounting to Rs. 558 for sinking a well at Bhandza, Tirthahalli Taluk.

Resolved that if the people of Bhandza will contribute half the cost, the Board will bear the other half of it, and that the Amildar be asked to inform if the raiyats are willing to bear half the cost.

5. *An estimate amounting to Rs. 314, for sinking a well in the travellers' bungalow at Megarvalli, Tirthahalli Taluk.*—Read Tirthahalli Amildar's report dated 6th February 1904, forwarding an estimate amounting to Rs. 314 for sinking a well in the travellers' bungalow at Megarvalli.

Resolved that the estimate be passed, as the well at this place is considered very necessary.

6. *An estimate amounting to Rs. 4,181 for construction of a 2nd class Musafirkhana at Megarvalli.*—Read Tirthahalli Amildar's report dated 6th February 1904, forwarding an estimate amounting to Rs. 4,181 for the construction of a 2nd class musafirkhana at Megarvalli.

Resolved that for the present funds are not available for this, though a musafirkhana at Megarvalli is believed to be necessary.

7. *Construction of a road near Hosur village on Honnali-Shikarpur road.*—Read correspondence ending with the Executive Engineer's Yadi No. 156, dated 5th November 1903, stating that Rs. 2,800 may be required for the construction of a road near Hosur village on Honnali-Shikarpur road.

Resolved that funds are not available for this.

8. *Navaturhalla Bridge.*—Read Executive Engineer's docket No. 116, dated 4th February 1904, asking the Board to allot Rs. 6,000 for completing the Navaturhalla bridge on which Rs. 12,000 expended, and representing that if the bridge was not completed this year, the same might be damaged by the coming rains and that serious loss might be caused to Government, and pointing out that Rs. 3,000 sanctioned for Sulikere-Kodihalla and Rs. 1,000 out of the Rs. 5,000 sanctioned for metalling Ayanur-Honnali road may be appropriated for this bridge work and the balance met from the closing balance of the Board.

The Board resolve to allot Rs. 2,000 from its closing balance for completing the bridge, the balance required for the purpose being met from appropriations as suggested by the Executive Engineer.

27 „ Oondavadi Narasinga Row.

ABSENT.

28 The Sub-Division Officer of French Rocks (sick).
29 „ Deputy Inspector of Schools, South Circle.
30 Mr. Y. Ramanna.

1. Read the Mysore Division Executive Engineer's letter No. 24 of the 6th January 1904, asking for increased rates for the maintenance of certain roads, costing annually Rs. 3,760 more than the present sum of Rs. 27,145.

Resolved that the present rates be continued and every endeavour be made to keep the roads in order, special estimates being sent for particular portions of roads which require extra work.

2. Considered the proposal of the Executive Engineer of the Mysore Division made in the above letter to—

(a) metal the first 4½ miles of the Hunsur-Begur road at a cost of Rs. 6,448;
(b) metal, tunnel and improve the Kowlandi-Kollegal road at a cost of Rs. 20,000;
(c) metal the T. Narsipur-Chamrajnagar road at a cost of Rs. 14,566; and
(d) construct tunnels on the said road at a cost of Rs. 25,000.

Resolved that the proposal be accepted and that the Executive Engineer be requested to be good enough to commence the improvement of the last mentioned road from T. Narsipur as that portion is very bad.

3. Read letter No. 814 of the 21st August 1903, from the Executive Engineer of the Mysore Division stating that the upper lodge at Yedatore be retained as the Public Works Officers' office and quarters and that the lower lodge be retained as 3rd class travellers bungalow.

Resolved that the lower lodge be continued to be used as travellers' bungalow till a separate bungalow is built.

4. Read the Mysore Division Executive Engineer's docket No. 1036 of the 3rd November 1903, enquiring if the District Board would take the Public Works Department lodges at Hulhalli, Kupparvalli and Rungacharhundi for 3rd class travellers' bungalows.

Resolved that the lodge at Kupparvalli be taken over.

5. Read the Mysore Executive Engineer's letter No. 46 of the 15th January 1904, enquiring if railings have to be put up on any road, as Rs. 9,830 have been spent on such works out of the Rs. 25,243 sanctioned and there is a balance of Rs. 15,413.

Resolved that the estimate be closed, as no more work of that kind is now needed.

6. Read the French Rocks Division Executive Engineer's docket No. 28 of the 12th January 1904, forwarding his budget for 1904-05.

Resolved that the usual annual maintenance amounts for roads be passed but that the extra sum of Rs. 15,000 asked for special repairs to the—

(1) French Rocks-Nelligeri road,
(2) Seringapatam-Chennarayapatna road, and
(3) Bangalore-Mysore road (*via.* Kankanhalli) cannot be afforded, as the maintenance allotments therefor are very reasonable *viz.*, Rs. 125, Rs. 150 and Rs. 60 respectively.

7. *Resolved* that the Government be asked to take back the French Rocks-Nelligere road and the Seringapatam-Channarayapatna road as this Board is not able to maintain them.

8. Read docket No. 27 of the 7th January 1904, from the French Rocks Division Executive Engineer, enquiring if the Public Works inspection lodges at Mandyakoppal, Palhalli, Balagola, Hoskote, Koppa and Maddur would be taken over by the District Board for 3rd class travellers' bungalows.

Resolved that the lodge at Balagola be taken over.

9. Read letter No. 3407 of the 30th June 1903, from the Chief Engineer of Mysore, asking that the sum of Rs. 96-13-4 spent in 1893 by order of the then President in improving the cart track from Malvalli to Marihalli, be charged to the funds of the District Board.

Resolved that it be done.

10. Read docket No. 1844—L. F. 303-96 of the 17th November 1903, from the Secretary to Government in the Revenue and General Departments, requesting that the prayer of the raiyats for a road from Hoskōte (in the Nanjangud Taluk) to the Mysore-T. Narsipur road be laid before the District Board and the work be, if possible, provided for in the budget for 1904-05.

Resolved that as the proposed road may cost nearly Rs. 10,000 and the Board cannot afford that sum, the present cart track from the said Hoskote village to the T. Narsipur-Mysore road *via* Varuna be improved at a cost of Rs. 500 or 700.

11. Read Government Order No. 769-777—L. F. 357-92 of the 13th August 1903, enquiring if the in-patient wards in the District Fund Dispensaries may, as suggested by the Senior Surgeon, be given to Hospital Assistants for residence.

Resolved unanimously that the said wards be reserved for in-patients.

12. Read Government Order No. 1130-7—L. F. 59-03 of the 9th September 1903, calling for opinion on the draft rules for the management of musafirkhanas.

Resolved that the rules be adopted, but a book be maintained in musafirkhanas for entering remarks. Further resolved that the Government be asked to prescribe the mode of levying the amount of damages done to musafirkhanas or the furniture therein.

13. Read Government Order No. 2631—L. F. 79-03 of the 19th January 1904, asking the Board to appoint a Vice-President, as per para 9 of the Rules under the Local Boards Regulation.

Resolved that the Treasury Assistant Commissioner be appointed the Vice-President.

14. Read the correspondence ending with Government Order No. 2825—L. F. 53-97 of the 2nd February 1904, regarding the prayer of the contractor for collecting fees in the Santemarhalli market in 1899-1900 for remission on account of plague.

Resolved that the following replies be submitted to Government:—

(1) that there was plague in that vicinity during the currency of the contract in question *i.e.*, from 24th February 1900 to 16th March 1900;
(2) that there was no order preventing persons or carts from going to or returning from the market in question, but that it is said that in the adjoining British territory the villagers therein were keeping out the persons that returned from the Mysore territory;
(3) that the sante (or market) site was not altered at all;
(4) that it has been said that during plague the attendance was not so much as on other days;
(5) that out of the 26 members present, 9 voted that a moiety of the amount due by the contractor might be remitted on grounds of pity, that being the first year of plague, while the rest, *viz.*, 17 voted that no remission should be granted as it would become an inconvenient precedent for the contractors of the subsequent years and afford them ground for similar prayers for concession.

15. Read docket No. 156 of the 6th November 1903, from the Sub-Division Officer of French Rocks, sending a bill for Rs. 25-8-3 for the medicine etc., purchased at the Melkote jatra in April 1903.

Resolved that the amount be passed.

16. Resolved that the next meeting of the Board be held on the 22nd March 1904 at 2 o'clock P. M. in the District Office at Mysore.

B. K. VENKATAVARADA IYENGAR, *President.*

TUMKUR DISTRICT.

Notification dated 26th February 1904.

It is hereby notified for the information of the public that the undermentioned unoccupied lands in the Tumkur Taluk and Koratagere Sub-Taluk, measuring in all 195 acres and 9 guntas, under the newly constructed Mavattur tank as described in the appended schedule, will be sold by public auction on the 30th March 1904 and the following days. The sale will commence at 11 A. M. on each day and will be conducted at Mavattur by the 1st General Assistant Commissioner or such other officer as may be deputed by the Deputy Commissioner.

2. The lands will be knocked down to the highest bidder subject to confirmation by the 1st General Assistant Commissioner, in case the sale is conducted by an officer subordinate to him.

3. The purchaser will be required to deposit twenty-five per cent of the purchase money as soon as the sale is concluded and to pay the remainder within fifteen days from the date of sale, failing which he will forfeit the amount deposited by him. He will be liable to pay a contribution of Rupees twenty per acre on the extent of land purchased by him after he is put in possession of the land.

4. If the deposit of twenty-five per cent be not paid at the close of the day on which sale is held or the remainder of the purchase money be not paid within fifteen days from the date of sale as above specified, the lands will be re-sold at the risk of the defaulting purchaser.

5. At the time of sale, the bidder will be required to declare whether the bid is made on his own behalf or on behalf of any other person. In the latter case he must produce a certificate authorizing him to do so, otherwise his bid will be rejected.

6. The officer conducting the sale will be at liberty to reject the highest or any bid without assigning reasons therefor.

7. The sale will not become absolute until it is confirmed by the 1st General Assistant Commissioner.

8. The lands will be charged with a temporary water rate of Rs. 4 per acre in addition to the existing dry assessment, whether he converts the land to wet or not, with effect from the year 1904-05; for the year 1903-04 dry assessment alone will be levied.

9. The Mavattur tank is connected by road with the Thondebhavi Railway Station on the Mysore State Railway (Bangalore-Guntakal Section) and is 15 miles distant from Tumkur.

10. The highest bidder shall have no ground for complaint if the sale be not confirmed or if there be delay in the confirmation of the sale.

BOWRING CIVIL HOSPITAL.

No. 58—dated Bangalore, 9th February 1904.

Notice is hereby given that Sealed Tenders will be received up to 11 A. M., on 5th March 1904 by the Residency Surgeon, Bangalore, for the supply by contract of all articles of diet, &c., required for the use of the Bowring Civil Hospital and Dispensary from 1st April 1904 to 31st March 1905.

2. No tenders will be received after the date above mentioned.

3. Tenders are to be superscribed "Tenders for the supply of provisions for the Bowring Civil Hospital and Dispensary."

4. Each tender must be accompanied by a Bank receipt for Rs. 200 placed to the credit of the Residency Surgeon.

5. Tenders will be opened by the Residency Surgeon at his office in the Bowring Civil Hospital on the 5th March 1904 at 11 A.M.

6. All tenders must specify the rate at which the articles can be supplied in pound weights per rupee of good quality.

7. The Residency Surgeon reserves to himself the right of rejecting any tender without assigning any reason for so doing.

8. The deposit of the successful competitor will be retained, and will be forfeited if he fails to execute the contract bond or to furnish security to the amount of Rs. 1,000 in cash or Government bonds within one week from the date of the acceptance of his contract being made known to him.

9. No advance of cash will be made to the contractor. Payments for the articles supplied will be made as soon as possible after the 1st of each month.

10. A store-room will be made over to the contractor in which he can keep all non-perishable articles.

11. The contract must not be sub-let.

12. Twelve cows should be milked on the premises twice daily *i.e.*, at 7 A.M. and 4 P.M. and they should be milked within 35 minutes. No cows are allowed to be brought into the hospital premises which are not to be milked. Neither Swiss nor dairy milk shall be supplied.

13. Meat should be ready at the Hospital at 7 A.M. daily for the inspection of the Medical Officer or any other officer deputed by the Residency Surgeon.

14. The contractor or any other responsible person deputed by him should always be present at the Hospital between the hours of 7 and 12 noon and 4 and 7 P. M. daily.

15. The contractor should always keep a good supply of articles of diet, etc., in the store-room allotted to him except perishable articles which should be daily at the Hospital by 7-30 A. M.

16. A fine not exceeding Rs. 50 will be levied at the discretion of the Residency Surgeon for any infringement of the stipulation of the contract or for the supply of inferior articles, and if frequently violated the contract will be annulled and the security confiscated.

17. The decision of the Residency Surgeon shall be final in all questions or infringement of contract.

18. The contractor should be prepared to supply any other article or articles at market rates in addition to the above as required.

R. F. STANDAGE, CAPTAIN, I. M. S.,
Residency Surgeon.

DRAFT

REGULATION NO. OF 190

A Regulation to consolidate and amend the law relating to Guardian and Ward.

Whereas it is expedient to consolidate and amend the law relating to guardian and ward; His Highness the Maharaja is pleased to enact as follows:—

CHAPTER I.

PRELIMINARY.

Title, extent and commencement.

1. (1) This Regulation may be called the Guardians and Wards Regulation, 190

(2) It extends to the whole of Mysore; and

(3) It shall come into force on the first day of 190

Repeal.

2. (1) On and from that day the enactments mentioned in the schedule shall be repealed to the extent specified in the third column thereof.

(2) But all proceedings had, certificates granted, allowances assigned, obligations imposed, and applications, appointments, orders and rules made under any of those enactments shall, so far as may be, be deemed to have been respectively had, granted, assigned, imposed and made under this Regulation; and

(3) Any enactment or document referring to any of those enactments shall, so far as may be, be construed to refer to this Regulation or to the corresponding portion thereof.

Definitions.

3. In this Regulation, unless there is something repugnant in the subject or context,—

(1) "minor" means a person who has not completed the age of eighteen years:

(2) "guardian" means a person having the care of the person of a minor or of his property, or of both his person and property:

(3) "ward" means a minor for whose person or property, or both, there is a guardian:

(4) "District Court," subject to the provisions of section 4 of this Regulation, and to the provisions of section 12 of the Mysore Chief Court Regulation, 1884, and of any other like enactment for the time being in force, means a Court presided over by a District Judge.

(5) "the Court" means the District Court having jurisdiction to entertain an application under this Regulation for an order appointing or declaring a person to be a guardian; and, where a guardian has been appointed or declared in pursuance of any such application, it means the Court which appointed or declared the guardian, or, in any matter relating to the person of the ward, the District Court having jurisdiction in the place where the ward for the time being ordinarily resides:

(6) "Deputy Commissioner" means the chief officer in charge of the revenue-administration of a district, and includes any officer whom the Government, by notification in the official Gazette, may by name or in virtue of his office, appoint to be a Deputy Commissioner in any local area, or with respect to any class of persons, for all or any of the purposes of this Regulation:

(7) "European British subject" means an European British subject as defined in the Code of Criminal Procedure, and includes any Christian of European descent: and

(8) "prescribed" means prescribed by rules made by the Chief Court under this Regulation.

Investiture of inferior Courts with jurisdiction of District Court for purposes of this Regulation.

4. (1) The Government may, by notification in the official Gazette, invest any Court inferior in grade to a District Court with the functions of a District Court under this Regulation, and may cancel or vary any such notification.

(2) Any inferior Court so invested shall, within the local limits of its jurisdiction, have concurrent jurisdiction with the District Court in the exercise of all the powers conferred by this Regulation upon the District Court, and the provisions of this Regulation relating to the District Court shall apply to such an inferior Court as if it were a District Court:

Provided that an appeal from any such order of an inferior Court as is mentioned in section 47 shall lie to the District Court, and not to the Chief Court.

(3) An order of a District Court on an appeal from an order of an inferior Court under the last foregoing sub-section shall, subject to the provisions of Chapters XLVI and XLVII of the Code of Civil Procedure as applied by section 647 of that Code, be final.

(4) The District Court may withdraw any proceedings under this Regulation from an inferior Court and may either itself dispose of them or transfer them to another such Court established within the local limits of the jurisdiction of the District Court and having authority to dispose of the proceedings.

(5) A notification under sub-section (1) may specify any inferior Court specially or any class of such Courts in any local area.

(6) Any Civil Court which for any of the purposes of any enactment is subordinate to, or subject to the control of, a District Court, shall for the purposes of this section be deemed to be a Court inferior in grade to a District Court.

CHAPTER II.

APPOINTMENT AND DECLARATION OF GUARDIANS.

Power of parents to appoint in case of European British subjects.

5. (1) Where a minor is an European British subject, a guardian or guardians of his person or property, or both, may be appointed by will or other instrument to take effect on the death of the person appointing,—

(a) by the father of the minor, or,

(b) if the father is dead or incapable of acting, by the mother.

(2) Where guardians have been appointed under sub-section (1) by both parents, they shall act jointly.

Saving of power to appoint in other cases.

6. In the case of a minor who is not an European British subject, nothing in this Regulation shall be construed to take away or derogate from any power to appoint a guardian of his person or property, or both, which is valid by the law to which the minor is subject.

Power of the Court to make order as to guardianship.

7. (1) Where the Court is satisfied that it is for the welfare of a minor that an order should be made—

(a) appointing a guardian of his person or property, or both, or;

(b) declaring a person to be such a guardian, the Court may make an order accordingly.

(2) An order under this section shall imply the removal of any guardian who has not been appointed by will or other instrument or appointed or declared by the Court.

(3) Where a guardian has been appointed by will or other instrument or appointed or declared by the Court, an order under this section appointing or declaring another person to be guardian in his stead shall not be made until the powers of the guardian appointed or declared as aforesaid have ceased under the provisions of this Regulation.

Persons entitled to apply for order.

8. An order shall not be made under the last foregoing section except on the application of—

(a) the person desirous of being, or claiming to be, the guardian of the minor, or

(b) any relative or friend of the minor, or

(c) the Deputy Commissioner of the district or other local area within which the minor ordinarily resides or in which he has property, or

(d) the Deputy Commissioner having authority with respect to the class to which the minor belongs.

Court having jurisdiction to entertain application.

9. (1) If the application is with respect to the guardianship of the person of the minor, it shall be made to the District Court having jurisdiction in the place where the minor ordinarily resides.

(2) If the application is with respect to the guardianship of the property of the minor, it may be made either to the District Court having jurisdiction in the place where the minor ordinarily resides or to a District Court having jurisdiction in a place where he has property.

(3) If an application with respect to the guardianship of the property of a minor is made to a District Court other than that having jurisdiction in the place where the minor ordinarily resides, the Court may return the application if in its opinion the application would be disposed of more justly or conveniently by any other District Court having jurisdiction.

Form of application.

10. (1) If the application is not made by the Deputy Commissioner, it shall be by petition signed and verified in manner prescribed by the Code of Civil Procedure for the signing and verification of a plaint, and stating, so far as can be ascertained,—

(a) the name, sex, religion, date of birth and ordinary residence of the minor;

(b) where the minor is a female, whether she is married, and, if so, the name and age of her husband;

(c) the nature, situation and approximate value of the property, if any, of the minor;

(d) the name and residence of the person having the custody or possession of the person or property of the minor;

(e) what near relations the minor has, and where they reside;

(f) whether a guardian of the person or property, or both, of the minor has been appointed by any person entitled or claiming to be entitled by the law to which the minor is subject to make such an appointment;

(g) whether an application has at any time been made to the Court or to any other Court with respect to the guardianship of the person or property, or both, of the minor, and, if so, when, to what Court and with what result;

(h) whether the application is for the appointment or declaration of a guardian of the person of the minor, or of his property, or of both;

(i) where the application is to appoint a guardian, the qualifications of the proposed guardian;

(j) where the application is to declare a person to be a guardian, the grounds on which that person claims;

(k) the causes which have led to the making of the application; and

(l) such other particulars, if any, as may be prescribed or as the nature of the application renders it necessary to state.

(2) If the application is made by the Deputy Commissioner, it shall be by letter addressed to the Court and forwarded by post or in such other manner as may be found convenient, and shall state as far as possible the particulars mentioned in sub-section (1).

(3) The application must be accompanied by a declaration of the willingness of the proposed guardian to act, and the declaration must be signed by him and attested by at least two witnesses.

Procedure on admission of application.

11. If the Court is satisfied that there is ground for proceeding on the application, it shall fix a day for the hearing thereof, and cause notice of the application and of the date fixed for the hearing—

(a) to be served in the manner directed in the Code of Civil Procedure on—

(i) the parents of the minor if they are residing in Mysore,

(ii) the person, if any, named in the petition or letter as having the custody or possession of the person or property of the minor,

(iii) the person proposed in the application or letter to be appointed or declared guardian, unless that person is himself the applicant, and

(iv) any other person to whom, in the opinion of the Court, special notice of the application should be given; and

(b) to be posted on some conspicuous part of the Court-house, and of the residence of the minor, and otherwise publish in such manner as the Court, subject to any rules made by the Chief Court under this Regulation, thinks fit.

Power to make interlocutory order for production of minor and interim protection of person and property.

12. (1) The Court may direct that the person, if any, having the custody of the minor shall produce him or cause him to be produced at such place and time and before such person as it appoints, and may make such order for the temporary custody and protection of the person or property of the minor as it thinks proper.

(2) If the minor is a female who ought not to be compelled to appear in public, the direction under sub-section (1) for her production shall require her to be produced in accordance with the customs and manners of the country.

(3) Nothing in this section shall authorise—

(a) the Court to place a female minor in the temporary custody of a person claiming to be her guardian on the ground of his being her husband, unless she is already in his custody with the consent of her parents, if any, or

(b) any person to whom the temporary custody and protection of the property of a minor is entrusted to dispossess otherwise than by due course of law any person in possession of any of the property.

Hearing of evidence before making of order.

13. On the day fixed for the hearing of the application, or as soon afterwards as may be, the Court shall hear such evidence as may be adduced in support of or in opposition to the application.

Simultaneous proceedings in different Courts.

14. If proceedings for the appointment or declaration of a guardian of a minor are taken in more Courts than one, each of those Courts shall, on being apprised of the proceedings in the other Court or Courts, stay the proceedings before itself, and shall report the case to the Chief Court, and the Chief Court shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had.

Appointment or declaration of several guardians.

15. (1) If the law to which the minor is subject admits of his having two or more joint guardians of his person or property, or both, the Court may, if it thinks fit, appoint or declare them.

(2) On the death of a father, being an European British subject, who has, by will or other instrument to take effect on his death, appointed a guardian of his minor child, the Court may appoint the mother to be guardian of the child jointly with the guardian appointed by the father.

(3) On the death of a mother, being an European British subject, who during the incapacity of the father of her minor child has, by will or other instrument to take effect on

her death, appointed a guardian of the child, the Court may, if the father becomes capable of acting, appoint him to be sole guardian of the child or guardian of the child jointly with the guardian appointed by the mother, as it thinks fit.

(4) Separate guardians may be appointed or declared of the person and of the property of a minor.

(5) If a minor has several properties, the Court may, if it thinks fit, appoint or declare a separate guardian for any one or more of the properties.

Appointment or declaration of guardian for property beyond jurisdiction of the Court.

16. If the Court appoints or declares a guardian for any property situate beyond the local limits of its jurisdiction, the Court having jurisdiction in the place where the property is situate shall, on production of a certified copy of the order appointing or declaring the guardian, accept him as duly appointed or declared and give effect to the order.

Matters to be considered by the Court in appointing guardian.

17. (1) In appointing or declaring the guardian of a minor, the Court shall, subject to the provisions of this section, be guided by what, consistently with the law to which the minor is subject, appears in the circumstances to be for the welfare of the minor.

(2) In considering what will be for the welfare of the minor, the Court shall have regard to the age, sex and religion of the minor, the character and capacity of the proposed guardian and his nearness of kin to the minor, the wishes, if any, of a deceased parent, and any existing or previous relations of the proposed guardian with the minor or his property.

(3) If the minor is old enough to form an intelligent preference, the Court may consider that preference.

(4) As between parents who are European British subjects adversely claiming the guardianship of the person, neither parent is entitled to it as of right, but, other things being equal, if the minor is a male of tender years or a female, the minor should be given to the mother, and if the minor is a male of an age to require education and preparation for labour and business, then to the father.

(5) The Court shall not appoint or declare any person to be a guardian against his will.

Appointment or declaration of Deputy Commissioner in virtue of office.

18. Where a Deputy Commissioner is appointed or declared by the Court in virtue of his office to be guardian of the person or property, or both, of a minor, the order appointing or declaring him shall be deemed to authorise and require the person for the time being holding the office to act as guardian of the minor with respect to his person or property, or both, as the case may be.

Guardian not to be appointed by the Court in certain cases.

19. Nothing in this Chapter shall authorise the Court to appoint or declare a guardian of the person—

(a) of a minor who is a married female and whose husband is not, in the opinion of the Court, unfit to be guardian of her person, or,

(b) subject to the provisions of this Regulation with respect to European British subjects, of a minor whose father is living and is not, in the opinion of the Court, unfit to be guardian of the person of the minor.

CHAPTER III.

DUTIES, RIGHTS AND LIABILITIES OF GUARDIANS.

General.

Fiduciary relation of guardian to ward.

20. (1) A guardian stands in a fiduciary relation to his ward, and, save as provided by the will or other instrument, if any, by which he was appointed, or by this Regulation, he must not make any profit out of his office.

(2) The fiduciary relation of a guardian to his ward extends to and affects purchases by the guardian of the property of the ward, and by the ward of the property of the guardian, immediately or soon after the ward has ceased to be a minor, and generally all transactions between them while the influence of the guardian still lasts or is recent.

Capacity of minors to act as guardians.

21. A minor is incompetent to act as guardian of any minor except his own wife or child or, where he is the managing member of an undivided Hindu family, the wife or child of another minor member of that family.

Remuneration of guardian.

22. (1) A guardian appointed or declared by the Court shall be entitled to such allowance, if any, as the Court thinks fit for his care and pains in the execution of his duties.

(2) When an officer of the Government, as such officer, is so appointed or declared to be guardian, such fees shall be paid to the Government out of the property of the ward as the Government, by general or special order, directs.

23. A Deputy Commissioner appointed or declared by the Court to be guardian of the person or property, or both, of a minor shall, in all matter connected with the guardianship of his ward, be subject to the control of the Government or of such authority as the Government, by notification in the official Gazette, appoints in this behalf.

Control of Deputy Commissioner as guardian.

Guardian of the Person.

24. A guardian of the person of a ward is charged with the custody of the ward and must look to his support, health and education, and such other matters as the law to which the ward is subject requires.

Duties of guardian of the person.

25. (1) If a ward leaves or is removed from the custdoy of a guardian of his person, the Court, if it is of opinion that it will be for the welfare of the ward to return to the custody of his guardian, may make an order for his return, and for the purpose of enforcing the order may, cause the ward to be arrested and to be delivered into the custody of the guardian.

Title of guardian to custody of ward.

(2) For the purpose of arresting the ward, the Court may exercise the power conferred on a Magistrate of the first class by section 100 of the Code of Criminal Procedure.

(3) The residence of a ward against the will of his guardian with a person who is not his guardian does not of itself terminate the guardianship.

26. (1) A guardian of the person appointed or declared by the Court, unless he is the Deputy Commissioner or is a guardian appointed by will or other instrument, shall not, without the leave of the Court by which he was appointed or declared, remove the ward from the limits of its jurisdiction except for such purposes as may be prescribed.

Removal of ward from jurisdiction

(2) The leave granted by the Court under sub-section (1) may be special or general, and may be defined by the order granting it.

Guardian of Property.

27. A guardian of the property of a ward is bound to deal therewith as carefully as a man of ordinary prudence would deal with it if it were his own, and, subject to the provisions of this Chapter, he may do all acts which are reasonable and proper for the realisation, protection or benefit of the property.

Duties of guardian of property.

28. Where a guardian has been appointed by will or other instrument, his power to mortgage or charge, or transfer by sale, gift, exchange or otherwise, immoveable property belonging to his ward is subject to any restriction which may be imposed by the instrument, unless he has under this Regulation been declared guardian and the Court which made the declaration permits him by an order in writing, notwithstanding the restriction, to dispose of any immoveable property specified in the order in a manner permitted by the order.

Powers of testamentary guardian.

29. Where a person other than a Deputy Commissioner, or than a guardian appointed by will or other instrument, has been appointed or declared by the Court to be guardian of the property of a ward, he shall not, without the previous permission of the Court,—

Limitation of powers of guardian of property appointed or declared by the Court.

(*a*) mortgage or charge, or transfer by sale, gift, exchange or otherwise, any part of the immoveable property of his ward, or

(*b*) lease any part of that property for a term exceeding five years or for any term extending more than one year beyond the date on which the ward will cease to be a minor.

30. A disposal of immoveable property by a guardian in contravention of either of the two last foregoing sections is voidable at the instance of any other person affected thereby.

Voidability of transfers made in contravention of section 28 or section 29.

31. (1) Permission to the guardian to do any of the acts mentioned in section 29 shall not be granted by the Court except in case of necessity or for an evident advantage to the ward.

Practice with respect to permitting transfers under section 29

(2) The order granting the permission shall recite the necessity or advantage, as the case may be, describe the property with respect to which the act permitted is to be done, and specify such conditions, if any, as the Court may see fit to attach to the permission; and it shall be recorded, dated and signed by the Judge of the Court with his own hand, or, when from any cause he is prevented from recording the order with his own hand, shall be taken down in writing from his dictation and be dated and signed by him.

(3) The Court may in its discretion attach to the permission the following among other conditions, namely:—

(a) that a sale shall not be completed without the sanction of the Court;

(b) that a sale shall be made to the highest bidder by public auction, before the Court or some person specially appointed by the Court for that purpose, at a time and place to be specified by the Court, after such proclamation of the intended sale as the Court, subject to any rules made under this Regulation by the Chief Court, directs;

(c) that a lease shall not be made in consideration of a premium or shall be made for such term of years and subject to such rents and covenants as the Court directs;

(d) that the whole or any part of the proceeds of the act permitted shall be paid into the Court by the guardian, to be disbursed therefrom or to be invested by the Court on prescribed securities or to be otherwise disposed of as the Court directs.

(4) Before granting permission to a guardian to do an act mentioned in section 29, the Court may cause notice of the application for the permission to be given to any relative or friend of the ward who should, in its opinion, receive notice thereof, and shall hear and record the statement of any person who appears in opposition to the application.

Variation of powers of guardian of property appointed or declared by the Court.

32. Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Deputy Commissioner, the Court may, from time to time, by order, define, restrict or extend his powers with respect to the property of the ward in such manner and to such extent as it may consider to be for the advantage of the ward and consistent with the law to which the ward is subject.

Right of guardian so appointed or declared to apply to the Court for opinion in management of property of ward.

33. (1) A guardian appointed or declared by the Court may apply by petition to the Court which appointed or declared him for its opinion, advice or direction on any present question respecting the management or administration of the property of his ward.

(2) If the Court considers the question to be proper for summary disposal, it shall cause a copy of the petition to be served on, and the hearing thereof may be attended by, such of the persons interested in the application as the Court thinks fit.

(3) The guardian stating in good faith the facts in the petition and acting upon the opinion, advice or direction given by the Court shall be deemed, so far as regards his own responsibility, to have performed his duty as guardian in the subject-matter of the application.

Obligations on Guardian of property appointed or declared by the Court.

34. Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Deputy Commissioner, he shall,—

(a) if so required by the Court, give a bond as nearly as may be in the prescribed form to the Judge of the Court, to enure for the benefit of the Judge for the time being, with or without sureties, as may be prescribed, engaging duly to account for what he may receive in respect of the property of the ward;

(b) if so required by the Court, deliver to the Court, within six months from the date of his appointment or declaration by the Court or within such other time as the Court directs, a statement of the immoveable property belonging to the ward, of the money and other moveable property which he has received on behalf of the ward up to the date of delivering the statement, and of the debts due on that date to or from the ward;

(c) if so required by the Court, exhibit his accounts in the Court at such times and in such form as the Court from time to time directs;

(d) if so required by the Court, pay into the Court at such time as the Court directs the balance due from him on those accounts, or so much thereof as the Court directs; and

(e) apply for the maintenance, education and advancement of the ward and of such persons as are dependent on him, and for the celebration of ceremonies to which the ward or any of those persons may be a party, such portion of the income of the property of the ward, as the Court from time to time directs, and, if the Court so directs, the whole or any part of that property.

Suit against guardian where administration bond was taken.

35. Where a guardian appointed or declared by the Court has given a bond duly to account for what he may receive in respect of the property of his ward, the Court may, on application made by petition and on being satisfied that the engagement of the bond has not been kept, and upon such terms as to security, or providing that any money received be paid into the Court, or otherwise as the Court thinks fit, assign the bond to some proper person, who shall thereupon be entitled to sue on the bond in his own name as if the bond had been originally given to him instead of to the Judge of the Court, and shall be entitled to recover thereon as trustee for the ward, in respect of any breach thereof.

Suit against guardian where administration bond was not taken.

36. (1) Where a guardian appointed or declared by the Court has not given a bond as aforesaid, any person, with the leave of the Court, may, as next friend, at any time during the continuance of the minority of the ward, and upon such terms as aforesaid, institute a suit against the guardian, or, in case of his death, against his representative, for an account of

what the guardian has received in respect of the property of the ward, and may recover in the suit, as trustee for the ward, such amount as may be found to be payable by the guardian or his representative, as the case may be.

(2) The provisions of sub-section (1) shall, so far as they relate to a suit against a guardian, be subject to the provisions of section 440 of the Code of Civil Procedure as amended by this Regulation.

General liability of guardian as trustee.

37. Nothing in either of the two last foregoing sections shall be construed to deprive a ward or his representative of any remedy against his guardian, or the representative of the guardian, which, not being expressly provided in either of those sections, any other beneficiary or his representative would have against his trustee or the representative of the trustee.

Termination of Guardianship.

Right of survivorship among joint guardians.

38. On the death of one of two or more joint guardians, the guardianship continues to the servivor or survivors until a further appointment is made by the Court.

Removal of guardian.

39. The Court may, on the application of any person interested or of its own motion, remove a guardian appointed or declared by the Court, or a guardian appointed by will or other instrument, for any of the following causes, namely :—

(*a*) for abuse of his trust ;

(*b*) for continued failure to perform the duties of his trust ;

(*c*) for incapacity to perform the duties of his trust ;

(*d*) for ill-treatment, or neglect to take proper care, of his ward ;

(*e*) for contumacious disregard of any provision of this Regulation or of any order of the Court ;

(*f*) for conviction of an offence implying, in the opinion of the Court, a defect of character which unfits him to be the guardian of his ward ;

(*g*) for having an interest adverse to the faithful performance of his duties ;

(*h*) for ceasing to reside within the local limits of the jurisdiction of the Court ;

(*i*) in the case of a guardian of the property, for bankruptcy or insolvency ;

(*j*) by reason of the guardianship of the guardian ceasing or being liable to cease, under the law to which the minor is subject :

Provided that a guardian appointed by will or other instrument, whether he has been declared under this Regulation or not, shall not be removed—

(*a*) for the cause mentioned in clause (*g*) unless the adverse interest accrued after the death of the person who appointed him, or it is shown that that person made and maintained the appointment in ignorance of the existence of the adverse interest, or

(*b*) for the cause mentioned in clause (*h*) unless such guardian has taken up such a residence as, in the opinion of the Court, renders it impracticable for him to discharge the functions of guardian.

Discharge of guardian.

40. (1) If a guardian appointed or declared by the Court desires to resign his office, he may apply to the Court to be discharged.

(2) If the Court finds that there is sufficient reason for the application, it shall discharge him, and, if the guardian making the application is the Deputy Commissioner and the Government approves of his applying to be discharged, the Court shall in any case discharge him.

Cessation of authority of guardian.

41. (1) The powers of a guardian of the person cease—

(*a*) by his death, removal or discharge ;

(*b*) by the ward ceasing to be a minor ;

(*c*) in the case of a female ward, by her marriage to a husband who is not unfit to be guardian of her person, or, if the guardian was appointed or declared by the Court, by her marriage to a husband who is not, in the opinion of the Court, so unfit ; or

(*d*) in the case of a ward whose father was unfit to be guardian of the person of the ward, by the father ceasing to be so, or, if the father was deemed by the Court to be so unfit, by his ceasing to be so in the opinion of the Court.

(2) The powers of a guardian of the property cease—

(*a*) by his death, removal or discharge ;

(*b*) by the ward ceasing to be a minor.

(3) When for any cause the powers of a guardian cease, the Court may require him or, if he is dead, his representative to deliver as it directs any property in his possession or control belonging to the ward or any accounts in his possession or control relating to any past or present property of the ward.

(4) When he has delivered the property or accounts as required by the Court, the Court may declare him to be discharged from his liabilities save as regards any fraud which may subsequently be discovered.

Appointment of successor to guardian dead, discharged or removed.

42. When a guardian appointed or declared by the Court is discharged, or, under the law to which the ward is subject, ceases to be entitled to act, or when any such guardian or a guardian appointed by will or other instrument is removed or dies, the Court, of its own motion or on application under Chapter II, may, if the ward is still a minor, appoint or declare another guardian of his person or property, or both, as the case may be.

CHAPTER IV.

SUPPLEMENTAL PROVISIONS.

Orders for regulating conduct or proceedings of guardians, and enforcement of those orders.

43. (1) The Court may, on the application of any person interested or of its own motion, make an order regulating the conduct or proceedings of any guardian appointed or declared by the Court.

(2) Where there are more guardians than one of a ward, and they are unable to agree upon a question affecting his welfare, any of them may apply to the Court for its direction, and the Court may make such order respecting the matter in difference as it thinks fit.

(3) Except where it appears that the object of making an order under sub-section (1) or sub-section (2) would be defeated by the delay, the Court shall, before making the order, direct notice of the application therefor or of the intention of the Court to make it, as the case may be, to be given, in a case under sub-section (1), to the guardian or, in a case under sub-section (2), to the guardian who has not made the application.

(4) In case of disobedience to an order made under sub-section (1) or sub-section (2), the order may be enforced in the same manner as an injunction granted under section 492 or section 493 of the Code of Civil Procedure, in a case under sub-section (1), as if the ward were the plaintiff and the guardian were the defendant or, in a case under sub-section (2), as if the guardian who made the application were the plaintiff and the other guardian were the defendant.

(5) Except in a case under sub-section (2), nothing in this section shall apply to a Deputy Commissioner who is, as such, a guardian.

Penalty for removal of ward from jurisdiction.

44. If, for the purpose or with the effect of preventing the Court from exercising its authority with respect to a ward, a guardian appointed or declared by the Court removes the ward from the limits of the jurisdiction of the Court in contravention of the provisions of section 26, he shall be liable, by order of the Court, to fine not exceeding one thousand rupees, or to imprisonment in the civil jail for a term which may extend to six months.

Penalty for contumacy.

45. (1) In the following cases, namely:—

(a) if a person having the custody of a minor fails to produce him or cause him to be produced in compliance with a direction under section 12, sub-section (1), or to do his utmost to compel the minor to return to the custody of his guardian in obedience to an order under section 25, sub-section (1), or

(b) if a guardian appointed or declared by the Court fails to deliver to the Court, within the time allowed by or under clause (b) of section 34, a statement required under that clause, or to exhibit accounts in compliance with a requisition under clause (c) of that section, or to pay into the Court the balance due from him on those accounts in compliance with a requisition under clause (d) of that section, or

(c) if a person who has ceased to be a guardian, or the representative of such a person, fails to deliver any property or accounts in compliance with a requisition under section 41, sub-section (3),

the person, guardian or representative, as the case may be, shall be liable, by order of the Court, to fine not exceeding one hundred rupees, and in case of recusancy to further fine not exceeding ten rupees for each day after the first during which the default continues, and not exceeding five hundred rupees in the aggregate, and to detention in the civil jail until he undertakes to produce the minor or cause him to be produced, or to compel his return, or to deliver the statement or to exhibit the accounts, or to pay the balance, or to deliver the property or accounts, as the case may be.

(2) If a person who has been released from detention on giving an undertaking under sub-section (1) fails to carry out the undertaking within the time allowed by the Court, the Court may cause him to be arrested and re-committed to the civil jail.

Reports by Deputy Commissioner and subordinate Courts.

46. (1) The Court may call upon the Deputy Commissioner, or upon any Court subordinate to the Court, for a report on any matter arising in any proceeding under this Regulation and treat the report as evidence.

(2) For the purpose of preparing the report the Deputy Commissioner or the Judge of the subordinate Court, as the case may be, shall make such inquiry as he deems necessary, and may for the purposes of the inquiry exercise any power of compelling the attendance of a witness to give evidence or produce a document which is conferred on a Court by the Code of Civil Procedure.

Orders appealable.

47. An appeal shall lie to the Chief Court from an order made by a District Court,—

(a) under section 7, appointing or declaring or refusing to appoint or declare a guardian; or,

(b) under section 9, sub-section (3), returning an application; or

(c) under section 25, making or refusing to make an order for the return of a ward to the custody of his guardian; or,

(d) under section 26, refusing leave for the removal of a ward from the limits of the jurisdiction of the Court, or imposing conditions with respect thereto; or,

(e) under section 28 or section 29, refusing permission to a guardian to do an act referred to in the section; or

(f) under section 32, defining, restricting or extending the powers of a guardian; or,

(g) under section 39, removing a guardian; or,

(h) under section 40, refusing to discharge a guardian; or,

(i) under section 43, regulating the conduct or proceedings of a guardian or settling a matter in difference between joint guardians, or enforcing the order; or,

(j) under section 44 or section 45, imposing a penalty.

Finality of other orders.

48. Save as provided by the last foregoing section and by section 622 of the Code of Civil Procedure, an order made under this Regulation shall be final, and shall not be liable to be contested by suit or otherwise.

Costs.

49. The costs of any proceedings under this Regulation including the costs of maintaining a guardian or other person in the civil jail, shall, subject to any rules made by the Chief Court under this Regulation, be in the discretion of the Court in which the proceeding is had.

Power of Chief Court to make rules.

50. (1) In addition to any other power to make rules conferred expressly or impliedly by this Regulation, the Chief Court may from time to time make rules consistent with this Regulation,—

(a) as to the matters respecting which, and the time at which, reports should be called for from Deputy Commissioners and subordinate Courts;

(b) as to the allowances to be granted to, and the security to be required from, guardians, and the cases in which such allowances should be granted;

(c) as to the procedure to be followed with respect to applications of guardians for permission to do acts referred to in sections 28 and 29;

(d) as to the circumstances in which such requisitions as are mentioned in clauses (a) (b), (c) and (d) of section 34 should be made;

(e) as to the preservation of statements and accounts delivered and exhibited by guardians;

(f) as to the inspection of those statements and accounts by persons interested;

(g) as to the custody of money, and securities for money, belonging to wards;

(h) as to the securities on which money belonging to wards may be invested;

(i) as to the education of wards for whom guardians, not being Deputy Commissioners, have been appointed or declared by the Court; and,

(j) generally, for the guidance of the Courts in carrying out the purposes of this Regulation.

(2) Rules under clauses (a) and (i) of sub-section (1) shall not have effect until they have been approved by the Government, nor shall any rule under this section have effect until it has been published in the official Gazette.

Applicability of Regulation to guardians already appointed by Court.

51. A guardian appointed by or holding a certificate of administration from a Civil Court under any enactment repealed by this Regulation shall, save as may be prescribed, be subject to the provisions of this Regulation, and of the rules made under it, as if he had been appointed or declared by the Court under Chapter II.

Amendment of Chapter XXXI of the Code of Civil Procedure.

52. Chapter XXXI of the Code of Civil Procedure shall be amended as follows, namely:—

A.—To section 440 of the said Code the following shall be added, namely:—

"If a minor has a guardian appointed or declared by an authority competent in this behalf, a suit shall not be instituted on behalf of the minor by any person other than such guardian except with the leave of the Court granted after notice to such guardian and after

hearing any objections which he may desire to make with respect to the institution of the suit, and the Court shall not grant such leave unless it is of opinion that it is for the welfare of the minor that the person proposing to institute the suit in the name of the minor should be permitted to do so."

B.—To section 443 of the said Code the following shall be added, namely :—

"Where an authority competent in this behalf has appointed or declared a guardian or guardians of the person or property, or both, of the minor, the Court shall appoint him or one of them, as the case may be, to be the guardian for the suit under this section, unless it considers, for reasons to be recorded by it, that some other person ought to be so appointed."

C.—After section 446 of the said Code the following shall be added, namely :—

"If the next friend is not a guardian appointed or declared by an authority competent in this behalf, and an application is made by a guardian so appointed or declared who desires to be himself appointed in the place of the next friend, the Court shall remove the next friend unless it considers, for reasons to be recorded by it, that the guardian ought not to be appointed the next friend of the minor."

D.—For section 461 of the said Code the following shall be substituted, namely :—

"461. (1) A next friend or guardian for the suit shall not, without the leave of the Court, receive any money or other moveable property on behalf of a minor, either—

Receipt by next friend or guardian *ad litem* of property under decree for minor.

(*a*) by way of compromise before decree or order, or

(*b*) under a decree or order in favour of the minor.

"(2) Where the next friend or guardian for the suit has not been appointed or declared by competent authority to be guardian of the property of the minor, or, having been so appointed or declared, is under any disability known to the Court to receive the money or other moveable property, the Court shall, if it grants him leave to receive the property, require such security and give such directions as will, in its opinion, sufficiently protect the property from waste and ensure its proper application."

THE SCHEDULE.

ENACTMENTS REPEALED.

(See section 2)

Description, number and year.	Title or subject.	Extent of repeal.
Notification by the Government of India, Foreign Department No. 75 J., dated the 25th April 1872.	Rules relative to the Custody and Guardianship of Minors, Idiots and other disqualified persons in the Province of Mysore.	The whole, except Rule 22 and so much of Rule 23 as relates to orders passed under Rule 22, and except so far as may be necessary to give effect to Rule 22.
Act XIV of 1882 as in force in Mysore.	Code of Civil Procedure ...	The second paragraph of section 443, and section 464.
Regulation III of 1900 ...	The Mysore Court Fees Regulation 1900.	Section 28, and Article 9 of Schedule I.

STATEMENT OF OBJECTS AND REASONS.

The law at present in force in regard to the custody and guardianship of minors consists of the Rules sanctioned by the Government of India (Foreign Department) in Notification No. 75 J. dated the 25th April 1872 (with the exception of Rule 22, which applies to lunatics, idiots and other individuals incapacitated by natural infirmity, the provisions relating to minors). These Rules proceed more or less on the lines of (and were probably based on) Acts XL of 1858 and XX of 1864 relating to minors in Bengal and Bombay respectively. These and a number of other local and special Acts were finally repealed in 1890 by Act VIII of 1890, which provided a law of Guardian and Ward applicable as far as possible to all classes of Her Majesty's subjects in British India, to whatever creeds or races they might belong.

The Rules of 1872 being found defective in several respects, it is proposed to replace them, so far as they relate to the guardianship of minors, by a Regulation based on the Indian Act VIII of 1890, which is more comprehensive than the Rules aforesaid and comprises many matters not provided for by them.

The subject of the adjudgment of persons to be lunatics, and of the appointment of guardians of their persons and managers of their estates, is one which, it is found, cannot conveniently be dealt with as part of a Regulation concerning the guardianship of minors, and is therefore reserved for separate consideration. In the meantime, so much of the Rules of 1872 as relates to lunatics has to be expressly saved, and this is done in the Schedule.

2. Most of the changes made in the provisions of Act VIII of 1890 in the process of adaptation are verbal alterations that are obviously required. The few that need explanation are referred to below.

References to Courts of Wards and Chartered High Courts have been omitted throughout.

Section 3, clause (1).—The definition of "minor" here given differs from the corresponding definition in the Indian Act, a definition based on the Indian Majority Act which is not in force in Mysore; but adheres to the provisions of the existing law under which every person is to be "held to be a minor who has not completed the age of 18 years." The Government do not consider that there is anything to be gained by departing from the existing provision of law, and making a distinction (as in the Indian Majority Act) between the age of majority for a minor of whose person or property a guardian has been appointed by a Court of Justice before the minor has attained the age of 18 years, and the age of majority for all other persons. Compare also the definition in section 3 of the Indian Succession Act, and in section 3 of the Mysore Registration Regulation, 1903.

Vide Rule 2 of the Rules of 1872.

Section 3, clause (4).—The definition of "District Court" given in this clause is taken from the Succession Certificate Regulation, VII of 1901.

So also is *section 4*, which provides for Courts inferior to a District Court being invested with the functions of a District Court under the present Regulation. The existing Rules, it may be remarked, allow of a Subordinate Judge being empowered to receive and dispose of applications for the appointment of guardians. (*Vide* proviso to Rule 5).

Section 52 of the corresponding Indian Act has been omitted as relating to the Indian Majority Act.

Section 53, *Clause* (*e*) of Act VIII of 1890 has likewise been omitted, as section 464 of the Civil Procedure Code as amended by it is inapplicable for the reasons, firstly, that Chapter XXVIII of the Code (relating to suits by or against Foreign and Native Rulers) had been omitted when the Code was applied to Mysore in 1884, and secondly, that there are no *local* laws in force relating to suits by or against minors or persons of unsound mind. The original section 464 of the Code is also inapplicable in view of the fact that the present Regulation does contemplate the applicability of Chapter XXVIII to "Wards of Court;" and hence is included in the Schedule for repeal along with the second part of section 443.

Notification No. 77—Legis. 23-03, dated Bangalore the 21st December 1903.

The following draft of a Regulation to consolidate and amend the law relating to Lunacy and Lunatics' Estates in Mysore,—which is under the consideration of Government,—is published for general information, together with a Statement of Objects and Reasons.

By Order,
K. S. CHANDRASEKHARA AIYAR,
for Secretary to Government.

REGULATION No. OF 190 .

(DRAFT.)

A Regulation to consolidate and amend the law relating to Lunacy and Lunatics' estates in Mysore.

Preamble.

Whereas it is expedient to consolidate and amend the law relating to Lunacy and Lunatics' estates in Mysore; His Highness the Maharaja is pleased to enact as follows :—

CHAPTER I.—PRELIMINARY.

Short title, extent and commencement.

1. (1) This Regulation may be called the "Mysore Lunacy Regulation, 190 ."

(2) It extends to the whole of Mysore; and

(3) It shall come into force on the first day of 190 .

Repeal.

2. So much of the "Rules relative to the custody and guardianship of minors, idiots and other disqualified persons in the Province of Mysore," published with the Notification of the Government of India, Foreign Department, No. 75 J., dated the 25th April 1872, as has not been repealed by the Guardians and Wards Regulation, 190 , is hereby repealed.

Definitions.

3. In this Regulation, unless there is something repugnant in the subject or context,—

"Lunatic."

(1) "Lunatic" means a person found by due course of law to be of unsound mind and incapable of managing his affairs.

"District Court."

(2) "District Court" means the principal Civil Court of original jurisdiction in a District.

CHAPTER II.—ENQUIRY INTO LUNACY.

District Court on application may institute enquiry when a person possessed of property is alleged to be a lunatic.

4. Whenever any person who is possessed of property is alleged to be a lunatic, the District Court within those jurisdiction such person is residing may, upon such application as is hereinafter mentioned, institute an enquiry for the purpose of ascertaining whether such person is or is not of unsound mind and incapable of managing his affairs.

Application by whom to be made.

5. Application for such enquiry may be made by any relative of the alleged lunatic, or by the Government Advocate or a Public Prosecutor, or if the property of the alleged lunatic consist in whole or in part of land or any interest in land, by the Deputy Commissioner of the District in which it is situate.

Notice of enquiry to be given to lunatic.

6. (1) When a District Court is about to institute any such enquiry as aforesaid, it shall cause notice to be given to the alleged lunatic of the time and place at which it is proposed to hold the enquiry.

Service of notice.

(2) If it shall appear that the alleged lunatic is in such a state that personal notice on him would be ineffectual, the District Court may direct such substituted service of the notice as it shall think proper.

(3) The District Court may also direct a copy of such notice to be served upon any relative of the alleged lunatic.

Power to require attendance for examination of lunatic.

7. (1) The District Court may require the alleged lunatic to attend at such convenient time and place as it may appoint for the purpose of being personally examined by the Court or by any person from whom the Court may desire to have a report of the mental capacity and condition of such alleged lunatic. The District Court may likewise make an order authorising any person or persons therein named to have access to the alleged lunatic for the purpose of a personal examination.

(2) The attendance and examination of the alleged lunatic under the provisions of sub-section (1) shall, if the alleged lunatic be a woman who, according to the manners and customs of the country, ought not to be compelled to appear in public, be regulated by the rules in force for the examination of such persons in other cases.

Appointment of assessors.

8. The District Court, if it thinks fit, may appoint two or more persons to act as assessors to the Court in the said enquiry.

Order of Court.

9. Upon the completion of the enquiry, the District Court shall determine whether the alleged lunatic is or is not of unsound mind, and may make such order as to the payment of the costs of the enquiry by the person upon whose application it was made, or out of the estate of the alleged lunatic if he be adjudged to be of unsound mind, or otherwise, as it may think proper.

Issue of commission to a subordinate Court.

10. (1) If the alleged lunatic resides at a distance of more than fifty miles from the place where the District Court to which the application shall have been made is held, the said Court may issue a commission to any Court subordinate to it, to make the enquiry, and thereupon the said subordinate Court shall conduct the enquiry in the manner hereinbefore provided.

Report of subordinate Court.

Order of District Court.

(2) On the completion of the enquiry the subordinate Court shall report its proceedings with the opinions of the assessors, if assessors have been appointed, and its own opinion on the case; and thereupon the District Court shall make such order in the case as it may think fit.

Management of lunatic's estate.

11. (1) When a person has been adjudged to be of unsound mind and incapable of managing his affairs, the District Court shall, except as otherwise hereinafter provided, appoint a manager of the estate.

Who may be appointed manager.

(2) Any near relative of the lunatic, or any other suitable person, may be appointed manager.

Appointment of guardian by District Court.

12. Whenever a manager of the estate of a lunatic is appointed by the District Court, the Court shall appoint a fit person to be guardian of the person of the lunatic. The manager may be appointed guardian.

Provided always that the legal heir of the lunatic shall not in any case be appointed guardian of his person.

Court may direct Deputy Commissioner to take charge of lunatic's estate if consisting of land.

13. (1) If the estate consist in whole or in part of land or any interest in land, the District Court, instead of appointing a manager, may direct the Deputy Commissioner to take charge of the estate, and thereupon the Deputy Commissioner shall appoint a manager of the property and a guardian of the person of the lunatic.

Proceedings of Deputy Commissioner subject to control of Revenue authorities.

(2) All the proceedings of the Deputy Commissioner in the charge of estates under this Regulation shall be subject to the control of the superior Revenue authorities.

Remuneration of managers and guardians.

14. If the person appointed to be manager of the estate of a lunatic, or the person appointed to be guardian of a lunatic's person, shall be unwilling to discharge the trust gratuitously, the District Court or the Deputy Commissioner, as the case may be, may fix such allowance or allowances to be paid out of the estate of the lunatic, as, under the circumstances of the case, may be thought suitable.

Duties of guardian.

15. (1) The person appointed to be guardian of a lunatic's person shall have the care of his person and maintenance.

Allowance for maintenance.

(2) When a distinct guardian is appointed, the manager shall pay to the guardian such allowance as shall be fixed by the District Court or the Deputy Commissioner, as the case may be, for the maintenance of the lunatic and of his family.

Powers of managers.

16. Every manager of the estate of a lunatic appointed as aforesaid may exercise the same powers in the management of the estate as might have been exercised by the proprietor if not a lunatic: and may collect and pay all just claims, debts, and liabilities due to or by the estate of the lunatic. But no such manager shall have power to sell or mortgage the estate or any part thereof, or to grant a lease of any immoveable property for any period exceeding five years, without an order of the District Court previously obtained.

Managers to furnish inventory and annual accounts.

17. (1) Every person appointed by the District Court or by the Deputy Commissioner to be manager of the estate of a lunatic shall, within six months from the date of his appointment, deliver to the District Court or to the Deputy Commissioner, as the case may be, an inventory of the landed property belonging to the lunatic and of all such sums of money, goods, and effects, as he shall receive on account of the estate, together with a statement of all debts due by or to the same. And every such manager shall furnish to the District Court or

to the Deputy Commissioner annually, within three months of the close of the official year, an account of the property in his charge, exhibiting the sums received and disbursed on account of the estate and the balance remaining in his hands.

Procedure where accuracy of inventory or accounts is impugned.

(2) If any relative of any lunatic, or any public officer, by petition to the District Court, shall impugn the accuracy of the said inventory and statement, or of any annual account, the Court may summon the manager and enquire summarily into the matter and make such order thereon as it shall think proper; or the Court, at its discretion, may refer any such petition to any Court subordinate to it or to the Deputy Commissioner if the manager was appointed by the Deputy Commissioner.

Manager to pay proceeds of estates into public Treasury.

18. All sums received by a manager on account of any estate in excess of what may be required for the current expenses of the lunatic or of the estate, shall be paid into the public Treasury on account of the estate, and may be invested from time to time in the public securities.

Relative may sue for an account.

19. It shall be lawful for any relative of a lunatic to sue for an account from any manager appointed under this Regulation, or from any such person after his removal from office or trust, or from his personal representative in case of his death, in respect of any estate then or formerly under his care or management or of any sums of money or other property received by him on account of such estate.

Removal of manager or guardian by District Court.

20. (1) The District Court, for any sufficient cause, may remove any manager appointed by the Court, and may appoint any fit person in his room, and may compel the person so removed to make over the property in his hands to his successor, and to account to such successor for all moneys received or disbursed by him.

(2) The District Court may also, for any sufficient cause, remove any guardian appointed by the Court.

Removal by Deputy Commissioner.

(3) In like manner the Deputy Commissioner, for any sufficient cause, may remove any manager or guardian appointed by the Deputy Commissioner; and the District Court, on the application of the Deputy Commissioner, shall compel any manager to deliver his accounts and the property in his hands.

Power to punish manager refusing to furnish accounts.

21. The District Court may impose a fine not exceeding five hundred rupees on any manager of the estate of a lunatic who wilfully neglects or refuses to deliver his accounts or any property in his hands within the prescribed time or a time fixed by the Court, and may realise such fine by attachment and sale of his property under the rules in force for the execution of decrees of Court, and may also commit the recusant to close custody until he shall deliver such accounts or property.

District Court may in certain cases apply property for lunatic's maintenance without appointing any manager.

22. If it appears to the District Court, having regard to the situation and condition in life of the lunatic and his family, and the amount and description of his property, to be unnecessary to appoint a manager of the estate as hereinbefore provided, the Court may, instead of appointing such manager, order that the property if money or if of any other description the produce thereof, when realised, be paid to such person as the Court may think fit to be applied for the maintenance of the lunatic or his family.

District Court may institute enquiry to ascertain whether a person has ceased to be of unsound mind,

23. (1) When any person has been adjudged to be of unsound mind and incapable of managing his affairs, if such person or any other person acting on his behalf or having or claiming any interest in respect of his estate, shall represent by petition to the District Court, or if the District Court shall be informed in any other manner, that the unsoundness of mind of such person has ceased, the Court may institute an enquiry for the purpose of ascertaining whether such person is or is not still of unsound mind and incapable of managing his affairs.

and may order estate to be restored.

(2) The enquiry shall be conducted in the manner provided in sections 6 to 10 of this Regulation; and if it be adjudged that such person has ceased to be of unsound mind and incapable of managing his affairs, the Court shall make an order for his estate to be delivered to him, and such order shall be final.

Orders to be open to appeal.

24. Except as otherwise herein provided, all orders made by a District Court or by any Court subordinate to a District Court under this Regulation shall be open to appeal under the rules in force for appeals in miscellaneous cases.

Power of Chief Court to make rules.

25. The Chief Court may from time to time by notification in the official Gazette make rules consistent with this Regulation for the guidance of the Courts in carrying out the provisions of this Regulation.

Amendment of section 463 of the Code of Civil Procedure.

26. In section 463 of the Code of Civil Procedure, for the words and figures "the rules relating to persons of unsound mind, published with the late Chief Commissioner's Notification No. 141, dated 31st July 1874," the words and figures "the Mysore Lunacy Regulation, 190 ," shall be substituted.

THE (DRAFT) MYSORE LUNACY REGULATION.

STATEMENT OF OBJECTS AND REASONS.

The law relating to Lunacy and Lunatics' estates in Mysore is contained in Rule 22 of the Rules published with the Notification of the Government of India, Foreign Department, No. 75—J., dated the 25th April 1872. This Rule provides in effect that, for the purpose of enquiring into and ascertaining the state of mind of persons alleged to be lunatics, the Courts shall follow the provisions of Act XXXV of 1858; but that matters relating to the custody of the persons of lunatics and the management of their estates shall be governed by the Rules of 1872 relating to Minors.

The Rules last mentioned are about to be replaced by a Regulation based on Act VIII of 1890, relating to Guardian and Ward; the Schedule to which will repeal the whole of the Rules of 1872 "except Rule 22 and so much of Rule 23 as relates to orders passed under Rule 22 and except so far as may be necessary to give effect to Rule 22."

It is now proposed to repeal the excepted provisions also, and to pass a distinct and self contained Regulation on the lines of Act XXXV of 1858, dealing both with the adjudgment of Lunacy and the management of Lunatics' Estates.

2. The only provisions of the Regulation which seem to call for explanation are section (2), and section 26.

Section 3 (2). It is considered inexpedient to empower Courts subordinate to a District Court to exercise lunacy jurisdiction, otherwise, of course, than by being commissioned to make an enquiry under section 10; and hence the example of the corresponding British Indian Act has been adhered to in restricting the term "District Court" to the principal Civil Court of Original jurisdiction in a District.

Section 26. The reference to Act XXXV of 1858 contained in section 463 of the Civil Procedure Code was erroneously altered by section 40 of Regulation II of 1884, to a reference to "the Rules relating to persons of unsound mind, published with the late Chief Commissioner's Notification No. 141, dated the 31st July 1874." These Rules, which correspond to the Indian Lunatic Asylums Act, 1858, are "Rules for the reception and detention of Lunatics in Asylums in the Province of Mysore," and do not provide for the adjudgment as lunatics of persons alleged to be of unsound mind. The erroneous reference is now proposed to be replaced by a reference to the present Regulation.

Notification No. 1648—*J., dated* 13*th February* 1904.

In exercise of the powers conferred by sub-section (2) of section 18 of the Mysore Factories Regulation, 1892 (IV of 1892), and in supersession of the rule published in Notification No. 8627—Legis. 70, dated the 4th January 1901, the Government of His Highness the Maharaja have been pleased to make the following rule :—

Every occupier of a factory shall furnish to the Magistrate of the district the undermentioned returns :—

I. On or before the 15th January of each year, an annual return in the following form :—

Name and situation of factory.	Name of owner or occupier.	Name of manager.	Nature of industry.	Nature and amount of moving power.	Average daily number of operatives employed.				Whether the factory is worked by shifts or stoppages, and in the latter case, the hour and extent of daily stoppage.	Whether there is a general holiday on Sunday or on varying week days, or whether the factory has been exempted from the rule as to Sunday labour under section 5B (1), clause (c), of the Regulation.	Remarks.
					Adults.		Children.				
					Male.	Female.	Male.	Female.			

N. B.—The average daily number of children is to be taken from the Register of children kept in the factory.

II. A return in the following form, regarding measurements and space :—

Name and situation of factory.	Name of occupier.	Measurements and cubical contents of each room in the factory.	Area of the floor-space of any room shown in the preceding column occupied by machinery or other fixtures.	Remarks.

This return shall be submitted for every factory when it is first registered under the Regulation, and thereafter, whenever any alteration is made in the factory which affects the measurements and cubical contents of any room or the area of the floor-space in any room occupied by machinery or other fixtures.

III. Before the end of each calendar month, a return giving notice of all the days on which the factory will be closed during the ensuing month. This return must be submitted whether the factory is or is not working during the calendar month preceding the one to which the return relates.

By Order,

K. S. CHENDRASEKHARA IYER, for *Secretary*.

No. 583—6888, dated 20th February 1904.

Under section 76 (*d*) of the Mysore Forest Regulation (No. XI of 1900), the Government of His Highness the Maharaja of Mysore are pleased to frame the following rule and to direct that it be read as Rule 9 of the Rules issued with Notification No. 458—Ft. F. 15-1900, dated the 21st January 1901 :—

"In cases relating to forest fires, the Conservator of Forests is empowered to sanction rewards up to Rs. 25 in each case to persons or communities who keep forests altogether free from fire, or who render exceptionally good services in suppressing fires or who give information leading to the conviction of a forest incendiary."

By Order,

GEOLOGICAL.

Notification No. C. 21, dated, Camp Bellara Mines, 11th February 1904.

The following amendment and additions are proposed to be made to the Rules under the Mysore Mines Regulation, III of 1897.

2. Amendments and objections forwarded to the Secretary to the Government of His Highness the Maharaja of Mysore in the Geological Department on or before the 15th March 1904 will be duly taken into consideration.

Amendment.

In Rule 12 omit the word "winding."

Additions.

12. (*a*) The following fees shall be paid by each applicant for a certificate under the preceding Rule :—

	Rs.
Engine Driver, 1st Class (entitling the holder to raise and lower persons) ...	15
Engine Driver, 2nd Class (not entitling the holder to raise and lower persons) ...	5
Mestri (surface or underground) ...	6
Surface Mestri (surface only) ...	3
Blaster ...	4
Lander ...	4

12. (*b*) Every applicant shall appear before an Inspector of Mines for examination and after satisfying the latter as to his competency shall be entitled to receive a certificate and a metal check marked with the registered number of the certificate.

Any applicant who fails to obtain a certificate may reappear for examination on payment of half the original fee prescribed by Rule 12 (*a*).

12. (*c*) Every certificate granted under these Rules shall be kept in the possession of the Superintendent of the Mine at which the holder thereof is employed and when the holder ceases to be employed at that mine the certificate shall be returned at once to the Inspector of Mines.

12. (*d*) The metal check given with each certificate shall remain always in the possession of the certificate holder and must not be transferred or disposed of in any way. The possession of these checks by any person other than the holder of the corresponding certificate is strictly prohibited and any person finding one shall return it to the office of the Inspector of Mines without delay.

Notification by the Government of His Highness the Maharaja of Mysore,

Geological.

No. 555 S., dated Bangalore, 2nd March 1904.

In supersession of Government Notifications No. 46-M, dated 13th October 1897 and No. M—99 and No. 100—A, dated 9th December 1897, the following rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the Mysore State are hereby notified:

Rules for the Grant of Exploring and Prospecting Licenses and Mining Leases in the State of Mysore.

I.—EXPLORING LICENSES.

1. A license to explore for minerals within the State of Mysore, hereinafter called an Exploring License, may be obtained on application to the Secretary to Government in the Geological Department, by whom every License granted shall be signed on behalf of the Government.

2. Each application shall be accompanied by a fee of Rs. 10 and shall contain a description of the area to be covered by the License. Government may refuse to grant any License, in which event the fee shall be returned to the applicant, or may at their discretion limit the area to which the license shall apply or specifically exclude any mineral from the License.

3. Such License shall not authorize the Licensee to mine or quarry, but he may turn up the surface of the land to such depth and subject to such conditions as the Deputy Commissioner may direct.

4. No private or occupied lands and no lands over which exclusive mineral rights have been granted to others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

5. Every License shall be in Form No. 1 hereto appended and shall run for one year. Such License shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an Exploring License.

6. The Licensee shall be at liberty, subject to such restrictions as Government may from time to time impose, to remove any specimens or samples found in or upon the land to which the License applies.

II. PROSPECTING LICENSES.

7. Applications for Licenses to prospect for minerals within the territories of Mysore shall be made to the Secretary to Government in the Geological Department in Form No. 2 hereto appended.

8. Each application shall be in respect of a specified block of land which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

9. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

10. Every prospecting License granted under these Rules will be in form No. 3 appended hereto and will be valid for one year, but the Government may at their discretion renew any license from year to year, on payment in advance, of an annual rent which may be determined upon separately for each period of renewal.

11. The fees ordinarily payable in respect of each license shall be:—

(a) A deposit of not less than Rs. 100 or such larger sum as the Government may determine according to the area and character of the land included in the block licensed. This deposit shall be held as security for the due fulfilment of the terms of the license and subject to any deductions in this respect, will be returned to the licensee on termination of the license.

(b) A rent of Rs. 50 for each square mile, or portion of a square mile, of area included in the block.

12. Each application must be accompanied by:—

(a) A sheet or extract of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.

(b) A schedule giving the names of the villages included (either wholly or partly) in the block together with the Taluk and District in which they are situated and stating the area of the block in square miles.

(c) A deposit of Rs. 100 which must be remitted either as a Government Treasury Receipt or as a crossed cheque on the Bangalore Branch of the Madras Bank to the order of the Secretary to Government in the Geological Department.

13. On receipt of any application, Government will, if they decide to grant a license, inform the applicant of the amount of the fees payable therefor and of any special terms which

they may consider desirable to impose. Within such time as may be fixed by Government in each case the applicant shall pay the amount of the fees specified and signify his willingness to abide by any special terms that may be imposed and shall point out the boundaries of the selected block to an officer deputed for that purpose. On completion of the survey and demarcation of the block, two forms of the license and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a fortnight from the date of receiving such communication, tender the license in duplicate signed by himself for the signature of the Secretary to Government in the Geological Department, paying at the same time the cost of the survey and demarcation.

14. Until the license is signed by the Secretary to Government in the Geological Department, the applicant shall not be entitled to exercise any of the privileges of a licensee.

15. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one square mile in area and not more than one mile from end to end in any direction, within the area specified in his license. When such selection has been made, the licensee shall be entitled, under and subject to the Rules for mining leases contained in paras 18 to 29 of this Notification, to obtain a Mining Lease of the selected block.

16. If the applicant shall neglect to carry out any of the preceding provisions, his application shall be cancelled and he shall not be entitled to a refund of the sum of Rs. 100 deposited with the application.

17. If the license is refused under Rule 9 or if the applicant, within a fortnight of being informed of any special conditions under Rule 9, declines to accept them, the said sum of Rs. 100 will be refunded to him.

III. MINING LEASES.

18. Applications for Mining Leases within the territories of Mysore shall be made to the Secretary to the Government in the Geological Department in Form No. 4 appended hereto.

19. Each application shall be in respect of a specified block of land not exceeding one square mile in area and not more than one mile from end to end in any direction; the block shall be as far as possible in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

20. Every mining lease, granted under these Rules, will be for a period not exceeding thirty years and will be in Form No. 5 appended hereto.

21. The applicant for a mining lease must satisfy the Government that he will be able to raise within two years the sum of £10,000 sterling for the purpose of carrying on mining operations in the block of land applied for, and a statement as to the manner in which he proposes to raise this sum must accompany the application.

22. Each application must be accompanied by—

(a) A deposit of Rs. 1,000 as security for the due fulfilment of the terms of the lease which must be remitted as a Government Treasury Receipt or as a crossed cheque on the Bangalore Branch of the Madras Bank to the order of the Secretary to Government in the Geological Department.

(b) A sheet or extract of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.

(c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the Taluk and District in which each is situated.

23. The applicant must point out to an officer deputed for the purpose by the Secretary to Government in the Geological Department the boundaries of the block of land applied for within a fortnight of the date on which he may receive an intimation to that effect, and the officer so deputed shall thereupon survey the block and erect such boundary marks as may be requisite.

24. After the completion of the survey and all necessary enquiries two forms of the lease to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore, the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

25. Failure to comply with the preceding rules will involve cancellation of the application and forfeiture of the sum deposited with it.

26. The applicant's title to the land applied for will not be complete till the lease is actually executed by the Dewan.

27. The lease shall, after execution, be registered under the law for the time being in force for the registration of assurances, and the duplicate copy thereof shall be deposited with the Mysore Government.

28. (i) Every holder of a prospecting license is entitled as of right to a mining lease of one block of land under and subject to the provisions of the preceding rules, and the special terms (if any) imposed by the license.

(ii) In the case of other applications the Government shall be at liberty either—

(a) to grant a lease to the applicant under the preceding rules,

or (b) to impose such special terms as they may in their absolute discretion think desirable,

or (c) to reject the application without assigning a reason.

29. The Government reserve to themselves the right to invite tenders for the purchase of mining leases for any land other than a block selected under a prospecting license without binding themselves to accept any or the highest tender.

IV. GENERAL.

30. As an ordinary rule, not more than one application for a prospecting license or mining lease will be entertained from the same person, but in special cases, two or more applications from the same applicant may be taken into consideration, if there are no other eligible applicants and no other objection exists, and the Government are satisfied that the application is made for the purpose of *bona-fide* work and not for the purpose of mere speculation in mining land.

31. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease providing for the proper prospecting or mining of the land comprised therein.

By Order,

W. F. SMEETH,
Secretary to Government,
Geological Department.

Form No. 1.

EXPLORING LICENSE.

Exploring license granted this day of 190 , by the Government of His Highness the Maharaja of Mysore to hereinafter called the licensee.

Whereas the licensee has applied in accordance with the rules published under Notification No. dated for a license to explore for minerals in the area described in the Schedule hereto and has paid the prescribed fee of Rs. 10—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the Licensee subject to the restrictions, conditions and provisos hereinafter contained, exclusive license and liberty to enter upon the lands within the area aforesaid and to explore and search the surface of the same for minerals, stones or rocks for a period of one calendar year from the date hereof and subject to the restrictions hereinafter contained or such other restrictions as the Government may from time to time impose, to remove any specimen or samples thereof found by the licensee upon the said lands during the term of the license.

2. This license does not authorize the licensee to enter upon or commence exploring in any State forest or land under special protection included in the land described in the schedule hereto, nor without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may in his absolute discretion prescribe.

3. This license is subject to any vested interests and to any rights and liberties which have been granted by Government in the said area or in the minerals, stones or rocks therein contained prior to the date of the grant of this license.

4. This license shall not authorize the licensee to mine or quarry within the boundaries of the land specified in the schedule, but the licensee shall be at liberty to turn up the surface to such depth and subject to such conditions as the Deputy Commissioner may authorize.

5. In the course of exploring operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

6. The licensee shall abstain from all interference with the free use of any tanks, water-courses, sacred groves, burial grounds, village sites for houses, or grazing lands which may now exist in the said area, and in no way obstruct any road, path or by-way, of any kind whatsoever, in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages or houses or other private property whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

9. This license shall not be assigned nor any right or interest hereunder transferred without the consent in writing of the Government.

10. The licensee may remove any minerals found by him in or upon the said land in the course of his exploring operations under this license in reasonable quantities for the purpose of sampling or testing but not for the purpose of sale without the sanction of Government.

11. The licensee shall within ten days of the discovery by him, his servants, workmen or agents, of any and all precious stone or stones upon the said lands report the discovery to the Secretary to Government in the Geological Department and shall produce the stones when called upon to do so and shall pay to Government by way of Royalty fifteen per cent of the value of the stones so found.

12. This license shall not confer upon the licensee any exclusive or preferential rights of any kind and if there be any breach by the licensee of the terms of this license, Government may forthwith cancel this license and thereupon all rights conferred thereby or enjoyed thereunder shall absolutely cease and determine.

9. AND YIELDING AND PAYING such dead rent not exceeding a rate of rupees five per annum per acre of the whole of the mining block as the lessors may, in the event of their being not satisfied with the operations conducted under the lease or with the results thereof, decide to levy for any particular years of the said term after the expiration of the first two years of it.

A dead rent.

And it is hereby declared that the expression "the liabilities under this lease" shall hereafter include all the cesses, taxes, rates, royalties, rents, compensation, indemnities and other payments in this lease reserved and made payable by the lessee.

10. AND THE LESSEE HEREBY COVENANTS WITH THE LESSORS THAT THE LESSEE WILL, within the space of one year from the commencement of this lease, start mining operations throughout the mining block to the reasonable satisfaction of the lessors ;

Covenants by lessee. To start mining operations within one year.

11. AND WILL, at all times during the said term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search for and mine and raise all minerals on or in the mining block and obtain or prepare therefrom intermediate or finished products of a saleable nature ;

To prosecute operations without intermission.

12. AND WILL, throughout the said term, keep all mines, buildings, pits, shafts, ladders, plats, sollars, timber, ropes, water-courses, airgates, engines, machines, and other mining and metallurgical plant on or in the mining block in good repair, working order and condition ;

To keep all mines, buildings, machinery, etc., in good order.

13. AND WILL, within two years from the date of this lease, provide, by the formation of a working company or otherwise, a sum (which shall in no case be less than ten thousand pounds sterling) sufficient for efficiently carrying on mining operations upon the mining block ; but the lessors may at their discretion and if satisfied with the work done by the lessee extend the time allowed for the provision of such sum beyond the period of two years herein specified ;

To raise £ 10,000 in two years for working.

14. AND WILL, if required and before the sale thereof, deliver to or permit to be taken by the lessors, or their agents, a sample or samples of all minerals found or mined and raised and all intermediate and finished products sold or intended for sale, all such samples so taken when of intrinsic value to be paid for by the lessors at the current market rate ;

To deliver to or permit to be taken by lessors samples of minerals and products.

15. AND WILL, immediately after any sale of minerals or intermediate or finished products, give to the lessors or their agents a return of the prices for which the same, respectively, shall have been sold, and, if required, the names of the purchasers thereof ;

To make return of prices to lessors.

16. AND WILL, within ninety days after any such sale or within one year from the time when any intermediate or finished products of a saleable nature may have been obtained or prepared, whichever shall first happen, pay to the lessors, the royalties hereinbefore reserved ; provided that any royalty calculated upon net profits as hereinbefore and in schedule B hereto provided shall be payable at the close of each calendar year and shall be paid within ninety days from the date upon which such net profits shall have been ascertained ;

To pay royalties within 90 days after sale or one year after preparation for sale.

17. AND WILL pay all other liabilities under this lease as and when they respectively become payable ;

To pay other liabilities under lease.

18. AND WILL afford to the lessors every information concerning the mines and buildings and mining and metallurgical plant in or on the mining block, the mode in which operations are carried on, the minerals found or mined and raised on or in the mining block, the intermediate or finished products obtained or prepared therefrom, the persons employed by the lessee, and all other information connected with the mining block or the provisions of this lease as the lessors may require ;

To afford every information connected with the mining block or the provisions of this lease.

19. AND WILL furnish, in such manner and to such persons as the lessors may, from time to time, direct, samples of all stones and rocks met with on or in the mining block with full details as to the locality and mode in which the same respectively were discovered and the dates of discovery ;

To furnish samples of rocks, etc., met with in the mining block, with details as to mode or occurrence, etc.

20. AND WILL not assign or under-let or part with the possession of all or any of the rights, liberties, licenses and premises by these presents demised and granted, or any interest or share therein without the consent, in writing, previously obtained, of the lessors;

Not to assign without previous consent of lessors.

21. AND WILL deliver to the lessors a copy of every assignment or under-lease of all or any of the rights, liberties, licenses and premises by these presents demised and granted or any interest or share therein within two calendar months after the date of such assignment or under-lease;

To deliver to lessors copies of all assignments.

22. AND WILL, throughout the said term, make and keep in some convenient place on the mining block and so that the lessors or their agents can have, at all times, free access thereto, proper books of accounts in such form as the lessors may approve, giving full and accurate particulars of the working and yield of all mines and mining and metallurgical plant in or on the mining block and the costs thereof and of the disposal of the minerals and intermediate and finished products found, mined, raised, obtained or prepared on, in or from the mining block with all particulars of quantities, dates and other facts and circumstances necessary or proper for ascertaining the exact value of such finished products and the finished products which can be obtained or prepared from such minerals and intermediate products and also correct maps, plans and sections of the mining block and of the mines and mining and metallurgical plant therein or thereon upon such scale or scales and in such manner as the lessors may from time to time direct showing as well the pits, shafts, drives, crosscuts, winzes, rises, stopes and other excavations, operations and works which have been carried on, as also all beds and veins and all faults and other disturbances which have been observed and encountered therein;

To keep proper books of accounts, plans, etc.

23. AND WILL, at his own cost, when required by the lessors or their agents, give to them copies of all or any entries in the said books and of every such map, plan and section as aforesaid;

To give copies thereof.

24. AND WILL, at his own cost, when required by the lessors or their agents, furnish to them true and correct abstracts of all or any such accounts as aforesaid;

To furnish abstracts thereof.

25. AND WILL, at all reasonable times, allow such officers and persons as the lessors may in that behalf appoint to enter into and have free access to the place or places where the said books, maps, plans and sections may be kept in order to examine and inspect them, take copies thereof and make extracts therefrom;

To allow free access to places where such books, plans, etc., may be kept.

26. AND WILL, at the end or sooner determination of the said term, give up to the lessors the said books, maps, plans and sections in good and perfect condition;

And give up to lessors books and plans at end of term.

27. AND WILL, at his own expense, forthwith erect and at all times maintain and keep in repair such boundary marks and pillars as the lessors may require;

To erect boundary marks.

28. AND WILL well and properly secure and keep open with timber or other durable means all pits and shafts to be sunk or made in the mining block and make and maintain sufficient fences round every such pit or shaft;

To secure pits and shafts.

29. AND WILL NOT, until the license, in writing, of the lessors or their agents be obtained, wilfully close, fill up or choke any mine or shaft;

Not to fill up shafts or mines.

30. AND WILL, throughout the said term, duly enforce in every part of the mining block such sanitary rules for the health and well-being of all persons employed by the lessee or who may be on the mining block or in its neighbourhood, as the lessors may, from time to time, prescribe;

To enforce sanitary rules.

31. AND WILL, at any time or times when required by the lessors so to do, set apart and appropriate for free use by the lessors such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for sites for villages, tanks, wells and other works for water supply, hospitals, sanitary works, Government offices, Police stations and other buildings or works of public utility which are in the opinion of the lessors required for or in connection with the persons employed by the lessee or in work under or in connection with any contract made by the lessee or who are engaged in supplying the wants of those so employed and the families and dependents of such persons or in connection with the inspection of the mines or the prevention of crime; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee, and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon;

To set apart land for public purposes.

32. AND WILL permit the lessors and their agents, servants and workmen, throughout the said term, to enter upon any part of the mining block above or below ground and inspect and examine the state and condition thereof and of the mines and buildings and mining and metallurgical plant therein or thereon and the mode in which operations are carried on and will further, with proper persons employed by the lessee, and acquainted with mining and metallurgical operations and with the engines, machinery and apparatus and other mining and metallurgical plant upon or within the mining block, effectually assist in the conduct of every such inspection and examination, affording all information required therefor;

To permit lessors to inspect mines, etc.

33. AND WILL from time to time, and at all times during the said term hereby granted conform to and observe all orders and regulations which the lessors, or their agents, duly authorized in this behalf may, from time to time, see fit to issue and prescribe for the proper carrying on of all mining work and other operations within the mining block or in the interests of the health, well-being and safety of persons employed by the lessee or who may be on the mining block or in its neighbourhood, and also will without delay send to such officers as may be named for this purpose by the lessors, a report of any accident which may at any time occur in connection with any mining or metallurgical operations in or on the mining block;

To conform to mining regulations and report accidents.

34. AND WILL in the exercise of the license and liberties hereby granted, abstain from entering upon the surface of any occupied Government land or of any Inam land comprised within the mining block without previously purchasing the rights or obtaining the consent of the occupant, holder or tenant of such land, by an instrument, in writing, duly registered, and if any damage or injury be caused to the surface of any such land by any operations carried on under this lease, will duly compensate the occupant, holder or tenant thereof, for all such damage or injury;

To abstain from entering occupied land and compensate for injury to surface.

35. AND WILL keep open and in no way obstruct any road, path or by-way of any kind whatsoever now existing or which may hereafter be made on the mining block;

Not to obstruct roads, etc.

36. AND WILL permit the lessors or other persons authorized by them in that behalf to enter into and upon the mining block and to make upon, over or through the same such roads, tramways and railways as may in the opinion of the lessors be necessary or expedient for any purposes and to obtain from and out of the lands such stone, earth and other materials as may be necessary or requisite for making, repairing or maintaining such roads, tramways and railways and to pass and to re-pass at all times over and along such roads, tramways and railways for all purposes and as occasion shall require;

To permit lessors to make roads, tramways, railways, etc.

37. AND WILL abstain from all interference with and allow to the public and the lessors the free use of any tanks, water-courses, places of worship, sacred groves, burial grounds or village sites for houses, which may now exist or may hereafter be set apart or appropriated as herein before provided on the mining block;

To allow free use of tanks, water-courses, etc., to the public and the lessors.

38. AND WILL NOT cultivate any of the lands comprised within the mining block or in any way use the said lands save for the purposes of the rights, licenses and liberties hereby granted;

Not to use the land for other purposes.

39. AND WILL NOT without the express sanction of the Deputy Commissioner for the time being of the District, cut down or injure any trees or timber on the mining block other than brushwood or undergrowth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted;

Not to cut trees, etc.

40. AND WILL NOT without obtaining the sanction in writing of the District Forest Officer upon such conditions as that officer may in his absolute discretion prescribe enter upon or commence any mining operations in any State Forest or land under special protection comprised in the Mining Block.

41. AND WILL NOT so far as may be consistent with the due exercise of the rights, licenses and liberties granted under this lease, interfere with or hinder the enjoyment of grazing rights lawfully granted by the lessors to village communities or to individuals in any part of the mining block;

Not to interfere with grazing rights.

42. AND WILL from time to time, and at all times hereafter, effectually keep indemnified the lessors from and against all claims, demands and expenses whatsoever, by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising directly or indirectly in carrying on mining or metallurgical operations on the mining block or otherwise in the exercise of the rights, licenses and liberties hereby granted;

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

43. AND WILL NOT without the express sanction of the Deputy Commissioner for the time being of the District, and then subject to the provisions for compensation and indemnity herein contained, use, collect or impound water in or on the mining block in such a manner

To respect water-right and not injure adjoining property.

as to deprive any adjoining land, villages, houses or watering places for cattle of a reasonable quantity of water as heretofore accustomed and will not in any manner foul, impregnate or otherwise deteriorate any springs or streams of water so as to render them unfit to be used as heretofore, and will not in any other way do anything to injure adjoining lands, villages or houses;

To deliver to lessors mines, buildings, etc., on expiration of term.

44. AND WILL at the expiration or sooner determination of the said term, deliver to the lessors in good order, repair and condition and fit for future working and use, and in all respects in such state and condition as shall be consistent with the due performance and observance of the several covenants and agreements by the lessee herein contained, the mining block and all mines and buildings and all pits, shafts, ladders, plats, sollars, timber, ropes, water courses, air-gates, engines, machines, and other mining and metallurgical plant below and above ground which are in the nature of fixtures or necessary or desirable for the proper working of the said mines and the raising of minerals from the mining block or for the obtaining or preparing of intermediate or finished products from such minerals, except any pits, shafts or other works which shall have been abandoned or disused in the ordinary and fair course of working of the said mines and premises, but so that the lessors shall pay to the lessee a fair price for all engines and machinery of any description in or on the mining block, based on the amount the same could be sold for on the mining block if the lessee had power to authorize the purchasers to remove them, unless the lessors shall have given notice in writing to the lessee that they the lessors do not intend to take over any of such buildings, engines and machinery plant and other things in which case the lessee shall be at liberty to remove the same, but without injuring any other property in or on the mining block;

To have an Agent on the mining block.

45. AND WILL, at all times, have at the mining block a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the lessors may be made, the lessors being at liberty, should there at any time be no such agent on the mining block, to treat any other person there as such agent and to serve all notices and other documents upon the said agent or in his absence upon any such other person as aforesaid or in the case of there being no such other person as aforesaid, then by affixing such notices or other documents upon some conspicuous portion of the mining block;

Distraint for liabilities under lease.

46. PROVIDED ALWAYS that, if and whenever any part of the liabilities under this lease shall be in arrear for the space of sixty days after the expiration of the time prescribed by these presents for payment thereof, the lessors shall be at liberty to seize all minerals and intermediate and finished products in or about the mines or pits opened, worked or carried on by the lessee in the mining block, and any engines, machinery or other property found in the mining block, and the lessors may sell or otherwise dispose of and deal with the property thus seized and from the monies produced thereby may deduct and retain all liabilities under this lease and all expenses incurred in or about any such seizure and sale;

Re-entry on non-payment of liabilities under lease or on breach of covenant.

47. PROVIDED ALSO, and these presents are upon this express condition, that if and whenever any part of the liabilities under this lease shall be in arrear for the space of six calendar months next after any the days whereon the same ought to be paid as herein provided, whether the same have been legally demanded or not, or, if the lessee, or the lessee workmen shall cause any obstruction or annoyance to the officers of the lessors or to the people of the country or if the lessee shall cease to carry on the regular working of the mines or shall refuse to afford information to the lessors, or shall fail to provide within two years of the date of these presents a sum (which shall in no case be less than ten thousand pounds) sufficient for efficiently carrying on mining operations upon the mining block or if there shall be any other breach of any of the covenants and agreements herein contained and on the part of the lessee to be performed and observed, then and in any such case it shall be lawful for the lessors or their agents duly empowered in that behalf, although they may not have taken advantage of some previous default of a like nature, to re-enter upon any part of the mining block or of the mines, buildings or mining or metallurgical plant or other operations or works in or on the mining block in the name of the whole and thereupon the said term of the thirty years shall absolutely determine and the said deposit of Rs. 1,000 hereinbefore referred to shall be retained by the lessors as and for their own property;

Determining the lease at the option of the lessee at the end of any year.

48. PROVIDED ALSO, and it is hereby agreed and declared, that if the lessee shall be desirous of determining the said term of thirty years hereby granted at the expiration of any year of the said term and of such desire shall give to the lessors six calendar months' previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of such year, then and in such case upon the expiration of such year the term hereby granted shall absolutely cease and determine;

Renewal of lease.

49. PROVIDED ALSO, and it is hereby agreed and declared, that if the said term of thirty years hereby granted shall not, prior to the termination thereof by lapse of time, have been determined under the

provisions hereinbefore contained, and if the lessee shall be desirous of obtaining a renewed lease of the licenses, rights and liberties hereby granted for a further term of thirty years from the expiration of the term hereby granted and of such desire shall give to the lessors one year's previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of the term hereby granted, then and in such case the lessors will, upon the request and at the expense of the lessee, execute and deliver to the lessee a renewed lease of the said premises for a further term of thirty years in such form and subject to such royalty and other payments and such covenants, agreements and conditions, as the lessors may prescribe and the lessee shall at the same time execute and deliver to the lessors a counterpart of such renewed lease.

In witness whereof the Dewan of Mysore, acting for and on behalf of the lessors, and the lessee have hereunto and to a duplicate hereof set their respective hands and seals the day and year first above written.

FINANCIAL DEPARTMENT.

INSPECTION OF TALUK TREASURIES.

To—The Deputy Commissioners, Treasury Department, of all Districts.

No. 2040, *dated* 20*th*—22*nd February* 1904.

I. Adverting to para 62 of Government Order No. 1150-1192—18-1901-2, dated 7th February 1903, the Comptroller has the honor to impress upon all Deputy Commissioners the fact that the responsibility for the proper management and efficient working of all the Treasuries in their respective Districts rests entirely with them. Government Order No. 8547-55—R. F. 213-92, dated 11th December 1892, requires that every Sub-Treasury in a District should be inspected by the Deputy Commissioner or by one of his Assistants once at least every six months and the result of each examination reported to this office. One of these half-yearly inspections at least has, as recently required by Government, to be technical and as such should be conducted by the District Treasury Officer himself and reported to this Office through the Deputy Commissioner.

II. Deputy Commissioners are therefore requested to be so good as to arrange for the requisite systematic inspection of all the Sub-Treasuries in their Districts. In special cases where further examination by an expert is found necessary, a qualified officer from this office will be deputed for the work.

III. Revised printed forms of inspection report will be sent on receipt from the Press. Till then the existing report forms may be used.

Circular No. 2041—*Rec.* 252, *dated* 7*th March* 1904.

To—The Deputy Commissioners, Treasury Department, of all Districts.

It has been observed that since the introduction of four anna deferred telegrams the cost of such telegrams has been unnecessarily on the increase, owing to the addresses not being carefully worded so as to bring the number of words in each to the limit allowed by the telegraph rules. Most of the Treasuries address their telegrams to the undersigned as "Offg. Comptroller, Government of Mysore," "Offg. Comptroller, Mysore Government"; "Comptroller, Government of Mysore"; or "Comptroller, Mysore Government"; thus making the address unnecessarily long by three to four words, when a single word "Comptroller" will answer the purpose. There is no other Comptroller in Bangalore and consequently no chance of any message being misdelivered. The sender's address is also unnecessarily long. As the name of the office of origin is always given by the Telegraph Department itself and allowed free, there is no necessity to repeat it in the address. The sender's name may conveniently be reduced in the case of District Treasuries to "Deputy Commissioner, Treasury" or in the case of Sub-Treasuries simply "Amildar."

The number of words in the message proper may also be reduced as much as possible consistent with clearly expressing the intended meaning. As for example, in the case of remittance, the message need only be "remitted $\frac{\text{Specie}}{\text{or notes}}$ one lakh" or "remitted $\frac{\text{Specie}}{\text{or notes}}$ 50,000 or 5,00,000" and so on, it being always understood that in the case of remittances wired to this office the remittances are made to the State Huzur Treasury.

It is requested that Deputy Commissioners, Treasury Department, of Districts will kindly issue needful instructions to the District and Taluk Treasuries under their charges.

VILLAGE SCHOOL FEES.

Circular No. 2042—*Rec.* 248, *dated 28th Feb.—7th March* 1904.

The Government of His Highness the Maharaja of Mysore having in Proceedings No. G. 3357-67, dated 9th January 1904, sanctioned the levying of fees in Village Schools and directing that the Shekdars should receive the fee collections for payment into Taluk Treasuries, the Comptroller has the honor to request that Deputy Commissioners, Treasury Department, will be so good as to instruct the Amildars of Taluks to receive the Village School fees tendered to their Treasuries by Shekdars and credit the same to a new head of account under Village Schools to be styled "Schooling Fees." Care should be taken that the payments made are accompanied with chellans prepared in the prescribed printed form in which sufficient details are entered to enable the Treasury to credit the amount to its proper head of account. A subsidiary statement giving details of the Schools and the amount of fee paid by each should accompany the District Treasury account submitted to the Comptroller monthly in support of the total credit brought to book therein.

When Postage labels are sent in payment of subscription, &c., one anna extra per rupee, should be added.

No. 1—10-9-1901.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges must be paid *in advance* to the Compiler of the *Mysore Gazette*.

No. 2—10-9-1901.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 3—10-9-1901.—It is notified that as all Taluk Treasuries are authorized to receive subscriptions for the Gazette, money orders sent to this office will not be received, except from outside the Province.

No. 4—10-9-1901.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5—1-10-1901.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6—1-10-1901.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7—15-10-1901.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8—15-10-1901.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays when such matter can without inconvenience be held over for the next week's Gazette.

No. 9—15-10-1901.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10—15-10-1901.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

Explanatory Memorandum on the Annual Agricultural Statistical Returns A to E and instructions for compiling them.—(Vide Government Proceedings No. 3473-80—R. 1100, dated 6th October 1897, No. 8108-15—R. 2657 dated 3rd March 1898, No. 7601-615—R. F. 46-97-98, dated 24th April 1899, and No. 4574-83—R. 1451, dated 22nd December 1899.)

These Statistical Tables are based upon returns compiled in the forms annexed talukwar for the whole District, in each District Office from data furnished by Amildars in their annual Jamabandi and other accounts.

2. They relate to the Revenue year ending on 30th June, and are submitted by each Deputy Commissioner on or before the 15th August following.

3. *Table A.*—Table A consists of four sections. Section 1 gives the total area of each taluk, the areas for which statistics are and those for which they are not available being distinguished.

4. (*Table A, Section* 1).—Column 1 shows the gross area as ascertained by the Revenue Survey Department. The figures were communicated to Deputy Commissioners in Government Proceedings of 28th January and 4th and 28th December 1896 and are subject to correction of course according as errors are discovered in re-surveys of tracts.

Column 2 shows the survey areas of alienated tracts (such as jahgir, jodi, sarvamanyam and kayamgutta villages) for which the statistics required for the other sections of the table are not at present forthcoming, in whole or in part. As surveys extend and the organization of village statistical establishments develops, the area in this column is reduced and that in Column 3 correspondingly increased.

Column 3 gives the remainder which is dealt with in the other sections of the Table A and includes the area of State Forests and Plantations.

5. *Table A, Section* 2.—The first part of this section deals with the classification of the area shown in the last column of Section 1 and gives the areas—

(*a*) withdrawn from cultivation by inclusion in forests or for some other reason (Columns 1 and 2),

(*b*) cultivable but not yet taken up (Column 3),

(*c*) land occupied but not under crop during the year (Column 4), and

(*d*) the net area under crops (Column 5), *i. e.*, after deduction of the area cropped more than once in the year.

The total of these 5 columns will of course equal the figure shown in Column 3 of A 1.

Column 1, "Forest" means any land classified or administered as forest under the Forest Rules, and includes District Forests and State Forests and Plantations separately mapped. Details of these should be invariably noted at foot of the return.

Column 2 includes land absolutely unfit for cultivation, land reserved as pasture (gomal nds and kavals of sorts), public topes and Government plantations, and also all lands covered y buildings, roads, water, &c., or otherwise devoted to uses other than agriculture. When ith due sanction any of these areas are made available for cultivation, they should of course transferred from this column to Columns 4 and 5. The extent of "Pot Kharab" forming art of survey numbers should be included under this column, the same being excluded from olumns 3, 4 and 5.

Column 3 shows the area of assessed unoccupied land.

Columns 4 and 5 show the areas of assessed occupied land not cultivated ("Kabulibanjar") nd cultivated, as will appear in the abstract at foot of the Pahani Account (Village Account orm No. 7). Minor Inams in Government villages are included herein. In Mysore there is system of fallows properly so called. Column 4 will therefore show land in occupation ept uncultivated from whatever cause.

Column 6 and sub-heads show only the actual area of irrigated land, areas (if any) cropped more than once being reckoned but once.

Column 7 and sub-heads should contain the actual area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

6. *Table A, Section* 3.—The 3rd Section of Table A which is based entirely on the Pahani Account (Village Account Form No. 7) shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in Column 32. The area dealt with is that shown in Column 5 of Section A—2. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate should be made by the shanbhog either on his own judgment or according to formulæ which may be hereafter prescribed by Government. The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should effect not its area but its outturn. Where fields owing to the failure of the first sowings have been devoted to other crops, the area sown by the first sowings should be omitted.

The crops to be selected for inclusion in certain heads of this table are as follows :—

8. *Gram* (pulse) should include horse-gram, Bengal-gram, green and black grams.

9. *Other food grains including pulses.*- Same, haraka, navane, avare or ballar, tuvar or togari, tadagani or alasandi, &c.

12. *Others* (*Oil-seeds*).—Castor oil-seeds, inferior sessamum (hutchellu), ground-nut or nelakadalekayi, hongè, ippe, &c.

13. *Condiments and spices.*—Pepper, cardamom, chillies, cummin seeds, coriander seeds, ginger, mustards, turmeric, onions, garlic, mentya, &c.

18. *Others* (*Fibres*).—Pundi, Sanabu, &c.

20. *Others* (*Dyes*).—Rangumale, &c.

22. *Coffee* should be both malnad and maidan. The area covered by both mature and immature plants should be entered.

28. *Fodder crops.*—Kaki jola, &c.

29. *Orchards and garden produce.*—Mango, apple, figs, plantain, oranges, pomegranate, &c. The area of cocoanut, areca and betel-leaf gardens should also be included.

30. *Miscellaneous food crops.*—Vegetable gardens, potatoes, &c.

Miscellaneous Non-food crops.—Mulberry, &c.

7. *Table A, Section* 4.—This table deals with agricultural stock and is based upon the Khaneshumari Account (Village Account Form No. 1). It should include live stock in Municipalities for which the Khaneshumari Account should be written up by the shanbhog or a Municipal official. Oxen and buffaloes not old enough for work or to produce young should be treated as "Young stock" in this return.

8. Stock in Municipalities is included since 1896-97.

9. Until 1898-99, Statistics of Live-Stock were collected every year by the shanbhog and patel of each village by inquiry and inspection, as a part of the year's Jamabandy routine. It was decided by the Government Order of the 24th April 1899 to take a quinquennial census and to repeat the figures of such census as statistics for the ensuing four years. There, it was also ordered that results of the first such census taken in June 1899 as nearly as possible simultaneously throughout the State should be adopted for the table of 1898-99. In the returns for that year however, these results were adopted in some districts, while in other districts the old system was pursued entirely in some and partially (*i. e.*, for some taluks only) in the rest. In the present compilation, for purposes of correct comparison the results for the special census of June 1899 are printed in antique type to distinguish them from the figures derived by the annual routine. Thus in the District Summaries at pages 12 and 13, the figures by the special Census are alone shown, while in the Talukwar Statements at pages 106-131, the routine statistics are shown wherever available in addition to the special Census figures.

10. *Table* B.*—This is a statement showing the average for the year of the prices current of certain articles, reports of which are now furnished twice a month.

* Not printed in the present collection.

Section 1 relates to Wholesale prices and Section 2 relates to Retail prices in all the districts of the State.

11. *Section* 1.—As to Section 1 (Wholesale prices)—

(*a*) It should cover the same articles and the prices should be collected fortnightly on the same days and by the same staff as for Section 2 (Retail prices).

(*b*) It need not quote a price for an article which is not a staple article of local trade.

(*c*) It need not quote a price for an article in which transactions have not actually taken place.

(*d*) The wholesale prices should be rendered in terms of Rs. for a unit of quantity. They should be those paid for quantities of ten maunds of food stuffs, seeds, grass and straw for a score of sheep, and for a pair of bullocks, the maund being taken to be the equivalent of 82⅔ lbs.

12. *Section* 2.—As to Section 2 (Retail prices)—

(*a*) The remarks *a*, *b* and *c*, above made in regard to Section 1 are applicable to Section 2 also.

(*b*) The prices quoted should in one column be in terms of seers and chattaks available per rupee (one seer=16 chattaks=80 tolas), and in another column the equivalent value of one seer in annas and pies.

13. *Table C.*—This table indicates the relation between area, population and land revenue or in other words the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table (for the Mysore State) relates is entirely raiyatwari and the words "area fully assessed" in columns 3 and 4 mean area on which the "survey kamal or standard assessment" is leviable in full except that the area of minor inams will not be included in the figures to be entered in column 3 (*a*) inasmuch as a proportionate deduction cannot be made in the corresponding population.

Column 3 (*a*) represents the area of alienated villages plus the area of unoccupied assessed waste land in sirkar villages (head 3 of Table A—2).

Column 3 (*b*) represents the area withdrawn from cultivation and should therefore exhibit the total of the areas shown against headings 1 and 2 of Table A—2.

Column 4 (*a*) exhibits the area of occupied lands (sirkar and minor inam) in Government villages and should therefore equal "Heading 4+Heading 5" of table A—2 (current fallows+net area cropped during the year).

Column 4 (*b*) exhibits the area actually cultivated. The figure under heading 5 of Table A—2 will therefore be repeated here.

Column 5 should exhibit the total realisable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after excluding arrears for past years. The figure to be entered here will therefore be that which represents the fixed demand under these heads plus Miscellaneous Land Revenue and minus remissions under defined rules, and minus also irrigation cess merged in the assessment as shown in the list appended to Government Proceedings R. 212, dated 30th July 1894.

Columns 6 *and* 11.—The population according to the most recent decennial census will here be entered until further orders (see Proceedings No. 331-9, dated 6th April 1892) subject of course to such alteration as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages, or other causes.

Column 7 to be Column 5 divided by Column 6.

Column 8 to be as in Column 5, but Miscellaneous Land Revenue and Land Revenue on alienated villages to be excluded.

Column 9 to be Column 8 divided by Column 4 (*a*).

Column 10 to be Column 8 divided by Column 4 (*b*).

Column 12 to be Column 8 divided by Column 11.

14. *Table D.*—The form prescribed by the Government of India is intended to show the principal varieties of tenure held direct from Government. For Mysore (where the prevailing tenure is raiyatwari and the accounts are kept villagewar) the first four Classes and Classes 7

and 8 will be left blank; all raiyatwari holdings will be included in Class 5, the heading thereof being altered from "Peasant proprietors paying separately" to "Small holdings held separate and direct from Government (raiyatwari tenure)" and all inams (Jahgirs, whose inam and kayamgutta villages and minor inams in sirkar villages) will be entered in Class 6. Lease-holders of gold mines will be shown under class 9 "Others."

Column 2 (No. of estates) represents practically the number of separate pattas issued or khates recorded in the Land Revenue Register. Two or more estates belonging to the same proprietor, if they are separately recorded in the Revenue Ledgers and form the subjects of separate pattas, will be separately reckoned for this return.

Column 3 (No. of villages) will show the total number of villages, (primary of course) populated and unpopulated, *i.e.*, the areas constituted as villages by the Survey and Settlement Department.

Column 4.—One proprietor may be reckoned twice or oftener as the owner of two or more estates separately recorded according to the number of pattas held by him.

Column 5½.—Between Columns 5 and 6 of the Government of India form, a column numbered 5½ should be opened to show "gross assessment." This, in the case of raiyatwari lands, will be the survey assessment and water-tax, and in the case of alienated lands it will be the combined quit-rent and water-rate (if any) payable to Government; in both cases without deducting remissions and other deductions, if any.

15. *Table E.*—This table is intended to show the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift. Transfers by inheritance are not to be taken into account, nor non-permanent transfers such as leases, mortgages, &c. Only permanent transfers (for instance by sale or gift) should be included when the parties concerned apply for and obtain transfer of "Revenue Registry." These voluntary transfers will be entered in Columns 3 and 5 (Private contract or gift). On the other hand under heading "By order of Court" (Columns 2 and 4) are included—

(*a*) changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors, and

(*b*) all cases in which lands are sold for arrears of revenue due to Government and purchased by private parties. Cases in which lands sold for arrears of revenue due to Government or bought in by Government will be excluded from this table.

The particulars contained in Columns 2 to 5 should be entered for each taluk opposite to two details under Column 1 "Class of tenure," *viz.*, (*a*) Revenue paying and (*b*) wholly or partially revenue free.

The information contained in Table E will be entirely based upon that *furnished for each village* in Village Account Form No. 9 (Statement of Increase and Decrease) and its enclosure. In Column 48 of the said village account, "Private transfers" and "Transfers by decrees of Civil Courts" are mixed up. But for the purposes of this return and pending revision of the Village Account forms, these details should be obtained separately by special arrangement.

16. *Appendix I.*—This is intended to contain a brief notice of remarkable variations or discrepancies which require explanation between the figures of the year of report and those of the previous year. All differences in excess of ten per cent should (except in cases of ordinary fluctuations in cultivation) be explained. Where general causes sufficiently account for the differences, detailed explanations need not be given.

17. *Appendix II.*—Shows the effect of changes in taluk boundaries and calls for no remarks.

M. MUTHANNAH,

Offg. Secy. to Govt., Forest Dept.

Notification by the Government of His Highness the Maharaja of Mysore, Geological.

No. 555 S., dated Bangalore, 2nd March 1904.

In supersession of Government Notifications No. 46-M, dated 13th October 1897 and No. M—99 and No. 100—A, dated 9th December 1897, the following rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the Mysore State are hereby notified.

Rules for the Grant of Exploring and Prospecting Licenses and Mining Leases in the State of Mysore.

I.—EXPLORING LICENSES.

1. A license to explore for minerals within the State of Mysore, hereinafter called an Exploring License, may be obtained on application to the Secretary to Government in the Geological Department, by whom every License granted shall be signed on behalf of the Government.

2. Each application shall be accompanied by a fee of Rs. 10 and shall contain a description of the area to be covered by the License. Government may refuse to grant any License, in which event the fee shall be returned to the applicant, or may at their discretion limit the area to which the license shall apply or specifically exclude any mineral from the License.

3. Such License shall not authorize the Licensee to mine or quarry, but he may turn up the surface of the land to such depth and subject to such conditions as the Deputy Commissioner may direct.

4. No private or occupied lands and no lands over which exclusive mineral rights have been granted to others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

5. Every License shall be in Form No. 1 hereto appended and shall run for one year. Such License shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an Exploring License.

6. The Licensee shall be at liberty, subject to such restrictions as Government may from time to time impose, to remove any specimens or samples found in or upon the land to which the License applies.

II.—PROSPECTING LICENSES.

7. Applications for Licenses to prospect for minerals within the territories of Mysore shall be made to the Secretary to Government in the Geological Department in Form No. 2 hereto appended.

8. Each application shall be in respect of a specified block of land which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

9. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

10. Every prospecting License granted under these Rules will be in form No. 3 appended hereto and will be valid for one year, but the Government may at their discretion renew any license from year to year, on payment in advance, of an annual rent which may be determined upon separately for each period of renewal.

11. The fees ordinarily payable in respect of each license shall be :—

(a) A deposit of not less than Rs. 100 or such larger sum as the Government may determine according to the area and character of the land included in the block licensed. This deposit shall be held as security for the due fulfilment of the terms of the license and subject to any deductions in this respect, will be returned to the licensee on termination of the license.

(b) A rent of Rs. 50 for each square mile, or portion of a square mile, of area included in the block.

12. Each application must be accompanied by :—

(a) A sheet or extract of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.

(b) A schedule giving the names of the villages included (either wholly or partly) in the block together with the Taluk and District in which they are situated and stating the area of the block in square miles.

(c) A deposit of Rs. 100 which must be remitted either as a Government Treasury Receipt or as a crossed cheque on the Bangalore Branch of the Madras Bank to the order of the Secretary to Government in the Geological Department.

13. On receipt of any application, Government will, if they decide to grant a license, inform the applicant of the amount of the fees payable therefor and of any special terms which

they may consider desirable to impose. Within such time as may be fixed by Government in each case the applicant shall pay the amount of the fees specified and signify his willingness to abide by any special terms that may be imposed and shall point out the boundaries of the selected block to an officer deputed for that purpose. On completion of the survey and demarcation of the block, two forms of the license and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a fortnight from the date of receiving such communication, tender the license in duplicate signed by himself for the signature of the Secretary to Government in the Geological Department, paying at the same time the cost of the survey and demarcation.

14. Until the license is signed by the Secretary to Government in the Geological Department, the applicant shall not be entitled to exercise any of the privileges of a licensee.

15. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one square mile in area and not more than one mile from end to end in any direction, within the area specified in his license. When such selection has been made, the licensee shall be entitled, under and subject to the Rules for mining leases contained in paras 18 to 29 of this Notification, to obtain a Mining Lease of the selected block.

16. If the applicant shall neglect to carry out any of the preceding provisions, his application shall be cancelled and he shall not be entitled to a refund of the sum of Rs. 100 deposited with the application.

17. If the license is refused under Rule 9 or if the applicant, within a fortnight of being informed of any special conditions under Rule 9, declines to accept them, the said sum of Rs. 100 will be refunded to him.

III. MINING LEASES.

18. Applications for Mining Leases within the territories of Mysore shall be made to the Secretary to the Government in the Geological Department in Form No. 4 appended hereto.

19. Each application shall be in respect of a specified block of land not exceeding one square mile in area and not more than one mile from end to end in any direction; the block shall be as far as possible in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

20. Every mining lease, granted under these Rules, will be for a period not exceeding thirty years and will be in Form No. 5 appended hereto.

21. The applicant for a mining lease must satisfy the Government that he will be able to raise within two years the sum of £10,000 sterling for the purpose of carrying on mining operations in the block of land applied for, and a statement as to the manner in which he proposes to raise this sum must accompany the application.

22. Each application must be accompanied by—

(a) A deposit of Rs. 1,000 as security for the due fulfilment of the terms of the lease which must be remitted as a Government Treasury Receipt or as a crossed cheque on the Bangalore Branch of the Madras Bank to the order of the Secretary to Government in the Geological Department.

(b) A sheet or extract of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.

(c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the Taluk and District in which each is situated.

23. The applicant must point out to an officer deputed for the purpose by the Secretary to Government in the Geological Department the boundaries of the block of land applied for within a fortnight of the date on which he may receive an intimation to that effect, and the officer so deputed shall thereupon survey the block and erect such boundary marks as may be requisite.

24. After the completion of the survey and all necessary enquiries two forms of the lease to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore, the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

25. Failure to comply with the preceding rules will involve cancellation of the application and forfeiture of the sum deposited with it.

26. The applicant's title to the land applied for will not be complete until the lease is actually executed by the Dewan.

27. The lease shall, after execution, be registered under the law for the time being in force for the registration of assurances, and the duplicate copy thereof shall be deposited with the Mysore Government.

28. (i) Every holder of a prospecting license is entitled as of right to a mining lease of one block of land under and subject to the provisions of the preceding rules, and the special terms (if any) imposed by the license.

(ii) In the case of other applications the Government shall be at liberty either—

(a) to grant a lease to the applicant under the preceding rules,

or (b) to impose such special terms as they may in their absolute discretion think desirable,

or (c) to reject the application without assigning a reason.

29. The Government reserve to themselves the right to invite tenders for the purchase of mining leases for any land other than a block selected under a prospecting license without binding themselves to accept any or the highest tender.

IV. GENERAL.

30. As an ordinary rule, not more than one application for a prospecting license or mining lease will be entertained from the same person, but in special cases, two or more applications from the same applicant may be taken into consideration, if there are no other eligible applicants and no other objection exists, and the Government are satisfied that the application is made for the purpose of *bona-fide* work and not for the purpose of mere speculation in mining land.

31. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease providing for the proper prospecting or mining of the land comprised therein.

By Order,

W. F. SMEETH,
Secretary to Government,
Geological Department.

Form No. 1.

EXPLORING LICENSE.

Exploring license granted this day of 190 , by the Government of His Highness the Maharaja of Mysore to hereinafter called the licensee.

Whereas the licensee has applied in accordance with the rules published under Notification (Geol.) No. 555 S., dated the 2nd March 1904, for a license to explore for minerals in the area described in the Schedule hereto and has paid the prescribed fee of Rs. 10—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the Licensee subject to the restrictions, conditions and provisos hereinafter contained, license and liberty to enter upon the lands within the area aforesaid and to explore and search the surface of the same for minerals, stones or rocks for a period of one calendar year from the date hereof and subject to the restrictions hereinafter contained or such other restrictions as the Government may from time to time impose, to remove any specimen or samples thereof found by the licensee upon the said lands during the term of the license.

2. This license does not authorize the licensee to enter upon or commence exploring in any State forest or land under special protection included in the land described in the schedule hereto, without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may in his absolute discretion prescribe.

3. This license is subject to any vested interests and to any rights and liberties which have been granted by Government in the said area or in the minerals, stones or rocks therein contained prior to the date of the grant of this license.

4. This license shall not authorize the licensee to mine or quarry within the boundaries of the land specified in the schedule, but the licensee shall be at liberty to turn up the surface to such depth and subject to such conditions as the Deputy Commissioner may authorize.

5. In the course of exploring operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

6. The licensee shall abstain from all interference with the free use of any tanks, water-courses, sacred groves, burial grounds, village sites for houses, or grazing lands which may now exist in the said area, and in no way obstruct any road, path or by-way, of any kind whatsoever, in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages or houses or other private property whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

9. This license shall not be assigned nor any right or interest hereunder transferred without the consent in writing of the Government.

10. The licensee may remove any minerals found by him in or upon the said land in the course of his exploring operations under this license in reasonable quantities for the purpose of sampling or testing but not for the purpose of sale without the sanction of Government.

11. The licensee shall within ten days of the discovery by him, his servants, workmen or agents, of any and all precious stone or stones upon the said lands report the discovery to the Secretary to Government in the Geological Department and shall produce the stones when called upon to do so and shall pay to Government by way of Royalty fifteen per cent of the value of the stones so found.

12. This license shall not confer upon the licensee any exclusive or preferential rights of any kind and if there be any breach by the licensee of the terms of this license, Government may forthwith cancel this license and thereupon all rights conferred thereby or enjoyed thereunder shall absolutely cease and determine.

extent as the Deputy Commissioner may require, and shall to the like extent restore the surface of the land and all buildings thereon which he may have damaged in the course of prospecting: Provided that this clause shall not apply to any land held under a mining lease.

6. The licensee shall keep proper accounts and plans and furnish to the Government full and correct information as to all minerals, stones and rocks found or mined and raised in the course of operations under this license and the treatment, preparation and disposal of the same and shall pay a royalty at the following rates on the gross value of the gold, metals, precious stones and other valuable products in a finished, completed or refined state, obtained or prepared (whether by the licensee or others) from the minerals, stones and rocks aforesaid without any deduction for the cost of the processes employed or any other deduction whatsoever, that is to say:—On gold and silver, five per cent; on copper, tin, lead, zinc, bismuth, aluminium, mercury and mica, two and a half per cent; on iron one per cent; on precious stones * per cent and on all other finished products, five per cent.

7. The licensee shall afford any other information in connection with the said area and the works carried on there, and furnish any samples which the Government may ask for. The licensee shall give every facility to the Government in inspecting the work carried on in the said area and in taking samples of minerals, stones and rocks found, mined, raised or being in or on the same area and any products obtained or prepared therefrom. The Government will pay a fair price for any samples of intrinsic value.

8. In the course of prospecting operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

9. The licensee shall not, without obtaining the sanction in writing of the District Forest Officer upon such conditions as that officer may in his absolute discretion prescribe, enter upon or commence prospecting in any State Forest or land under special protection comprised in the said area.

10. The licensee shall abstain from all interference with the free use of any tanks, water-courses, sacred groves, burial grounds, village sites for houses or grazing lands which may now exist in the said area, and in no way obstruct any road path or by-way, of any kind whatsoever, in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages, houses or other private property whether in the said area or adjoining thereto.

11. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

12. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

13. This license shall not be assigned, nor any right or interest hereunder transferred without the consent in writing of the Government.

14. If prospecting work is not commenced within 6 calendar months from the date hereof and carried on to the reasonable satisfaction of Government or if there shall be any other breach by the licensee of any provision in this license contained, the license may be summarily revoked by Government and thereupon all rights conferred hereby or enjoyed hereunder shall cease.

15. The licensee shall be at liberty at any time during the term of this license to select for mining purposes a block of land not exceeding one square mile in area and not more than one mile from end to end in any direction within the area to which this license applies and shall be entitled to the grant of a mining lease in respect of the block so selected in accordance with the Rules for the grant of mining leases published under Notification No. 555 S., dated 2nd March 1904.

A dead rent.

And it is hereby declared that the expression "the liabilities under this lease" shall hereafter include all the cesses, taxes, rates, royalties, rents, compensation, indemnities and other payments in this lease reserved and made payable by the lessee.

10. AND THE LESSEE HEREBY COVENANTS WITH THE LESSORS THAT THE LESSEE WILL, within the space of one year from the commencement of this lease, start mining operations throughout the mining block to the reasonable satisfaction of the lessors ;

Covenants by lessee.
To start mining operations within one year.

11. AND WILL, at all times during the said term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search for and mine and raise all minerals on or in the mining block and obtain or prepare therefrom intermediate or finished products of a saleable nature ;

To prosecute operations without intermission.

12. AND WILL, throughout the said term, keep all mines, buildings, pits, shafts, ladders, plats, sollars, timber, ropes, water-courses, air-gates, engines, machines, and other mining and metallurgical plant on or in the mining block in good repair, working order and condition ;

To keep all mines, buildings, machinery, etc., in good order.

13. AND WILL, within two years from the date of this lease, provide, by the formation of a working company or otherwise, a sum (which shall in no case be less than ten thousand pounds sterling) sufficient for efficiently carrying on mining operations upon the mining block ; but the lessors may at their discretion and if satisfied with the work done by the lessee extend the time allowed for the provision of such sum beyond the period of two years herein specified ;

To raise £10,000 in two years for working.

14. AND WILL, if required and before the sale thereof, deliver to or permit to be taken by the lessors, or their agents, a sample or samples of all minerals found or mined and raised and all intermediate and finished products sold or intended for sale, all such samples so taken when of intrinsic value to be paid for by the lessors at the current market rate ;

To deliver to, or permit to be taken by, lessors samples of minerals and products.

15. AND WILL, immediately after any sale of minerals or intermediate or finished products, give to the lessors or their agents a return of the prices for which the same, respectively, shall have been sold, and, if required, the names of the purchasers thereof ;

To make return of prices to lessors.

16. AND WILL, within ninety days after any such sale or within one year from the time when any intermediate or finished products of a saleable nature may have been obtained or prepared, whichever shall first happen, pay to the lessors, the royalties hereinbefore reserved ; provided that any royalty calculated upon net profits as hereinbefore and in schedule B hereto provided shall be payable at the close of each calendar year and shall be paid within ninety days from the date upon which such net profits shall have been ascertained ;

To pay royalties within 90 days after sale or one year after preparation for sale.

17. AND WILL pay all other liabilities under this lease as and when they respectively become payable ;

To pay other liabilities under lease.

18. AND WILL afford to the lessors every information concerning the mines and buildings and mining and metallurgical plant in or on the mining block, the mode in which operations are carried on, the minerals found or mined and raised on or in the mining block, the intermediate or finished products obtained or prepared therefrom, the persons employed by the lessee, and all other information connected with the mining block or the provisions of this lease as the lessors may require ;

To afford every information connected with the mining block or the provisions of this lease.

19. AND WILL furnish, in such manner and to such persons as the lessors may, from time to time, direct, samples of all stones and rocks met with on or in the mining block with full details as to the locality and mode in which the same respectively were discovered and the dates of discovery ;

To furnish samples of rocks, etc., met with in the mining block, with details as to mode of occurrence, etc.

Not to assign without previous consent of lessors.

20. AND WILL not assign or under-let or part with the possession of all or any of the rights, liberties, licenses and premises by these presents demised and granted, or any interest or share therein without the consent, in writing, previously obtained, of the lessors;

To deliver to lessors copies of all assignments.

21. AND WILL deliver to the lessors a copy of every assignment or under-lease of all or any of the rights, liberties, licenses and premises by these presents demised and granted or any interest or share therein within two calendar months after the date of such assignment or under-lease;

To keep proper books of accounts, plans, etc.

22. AND WILL, throughout the said term, make and keep in some convenient place on the mining block and so that the lessors or their agents can have, at all times, free access thereto, proper books of accounts in such form as the lessors may approve, giving full and accurate particulars of the working and yield of all mines and mining and metallurgical plant in or on the mining block and the costs thereof and of the disposal of the minerals and intermediate and finished products found, mined, raised, obtained or prepared on, in or from the mining block with all particulars of quantities, dates and other facts and circumstances necessary or proper for ascertaining the exact value of such finished products and the finished products which can be obtained or prepared from such minerals and intermediate products and also correct maps, plans and sections of the mining block and of the mines and mining and metallurgical plant therein or thereon upon such scale or scales and in such manner as the lessors may from time to time direct showing as well the pits, shafts, drives, crosscuts, winzes, rises, stopes and other excavations, operations and works which have been carried on, as also all beds and veins and all faults and other disturbances which have been observed and encountered therein;

To give copies thereof.

23. AND WILL, at his own cost, when required by the lessors or their agents, give to them copies of all or any entries in the said books and of every such map, plan and section as aforesaid;

To furnish abstracts thereof.

24. AND WILL, at his own cost, when required by the lessors or their agents, furnish to them true and correct abstracts of all or any such accounts as aforesaid;

To allow free access to places where such books, plans, etc., may be kept.

25. AND WILL, at all reasonable times, allow such officers and persons as the lessors may in that behalf appoint to enter into and have free access to the place or places where the said books, maps, plans and sections may be kept in order to examine and inspect them, take copies thereof and make extracts therefrom;

And give up to lessors books and plans at end of term.

26. AND WILL, at the end or sooner determination of the said term, give up to the lessors the said books, maps, plans and sections in good and perfect condition;

To erect boundary marks.

27. AND WILL, at his own expense, forthwith erect and at all times maintain and keep in repair such boundary marks and pillars as the lessors may require;

To secure pits and shafts.

28. AND WILL well and properly secure and keep open with timber or other durable means all pits and shafts to be sunk or made in the mining block and make and maintain sufficient fences round every such pit or shaft;

Not to fill up shafts or mines.

29. AND WILL NOT, until the license, in writing, of the lessors or their agents be obtained, wilfully close, fill up or choke any mine or shaft;

To enforce sanitary rules.

30. AND WILL, throughout the said term, duly enforce in every part of the mining block such sanitary rules for the health and well-being of all persons employed by the lessee or who may be on the mining block or in its neighbourhood, as the lessors may, from time to time, prescribe;

To set apart land for public purposes.

31. AND WILL, at any time or times when required by the lessors so to do, set apart and appropriate for free use by the lessors such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for sites for villages, tanks, wells and other works for water-supply, hospitals, sanitary works, Government offices, Police stations and other buildings or works of public utility which are in the opinion of the lessors required for or in connection with the persons employed by the lessee or in work under or in connection with any contract m[illegible] by the lessee or who are engaged in supplying the wants of those so employed and the fam[illegible] dependents of such persons or in connection with the inspection of the mines or the pre[illegible] of crime; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee, and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon;

32. AND WILL permit the lessors and their agents, servants and workmen, throughout the said term, to enter upon any part of the mining block above or below ground and inspect and examine the state and condition thereof and of the mines and buildings and mining and metallurgical plant therein or thereon and the mode in which operations are carried on and will further, with proper persons employed by the lessee, and acquainted with mining and metallurgical operations and with the engines, machinery and apparatus and other mining and metallurgical plant upon or within the mining block, effectually assist in the conduct of every such inspection and examination, affording all information required therefor;

To permit lessors to inspect mines, etc.

33. AND WILL from time to time, and at all times during the said term hereby granted conform to and observe all orders and regulations which the lessors, or their agents, duly authorized in this behalf may, from time to time, see fit to issue and prescribe for the proper carrying on of all mining work and other operations within the mining block or in the interests of the health, well-being and safety of persons employed by the lessee or who may be on the mining block or in its neighbourhood, and also will without delay send to such officers as may be named for this purpose by the lessors, a report of any accident which may at any time occur in connection with any mining or metallurgical operations in or on the mining block;

To conform to mining regulations and report accidents.

34. AND WILL in the exercise of the license and liberties hereby granted, abstain from entering upon the surface of any occupied Government land or of any Inam land comprised within the mining block without previously purchasing the rights or obtaining the consent of the occupant, holder or tenant of such land, by an instrument, in writing, duly registered, and if any damage or injury be caused to the surface of any such land by any operations carried on under this lease, will duly compensate the occupant, holder or tenant thereof, for all such damage or injury;

To abstain from entering occupied land and compensate for injury to surface.

35. AND WILL keep open and in no way obstruct any road, path or by-way of any kind whatsoever now existing or which may hereafter be made on the mining block;

Not to obstruct roads, etc.

36. AND WILL permit the lessors or other persons authorized by them in that behalf to enter into and upon the mining block and to make upon, over or through the same such roads, tramways and railways as may in the opinion of the lessors be necessary or expedient for any purposes and to obtain from and out of the lands such stone, earth and other materials as may be necessary or requisite for making, repairing or maintaining such roads, tramways and railways and to pass and to re-pass at all times over and along such roads, tramways and railways for all purposes and as occasion shall require;

To permit lessors to make roads, tramways, railways, etc.

37. AND WILL abstain from all interference with and allow to the public and the lessors the free use of any tanks, water-courses, places of worship, sacred groves, burial grounds or village sites for houses, which may now exist or may hereafter be set apart or appropriated as herein before provided on the mining block;

To allow free use of tanks, water-courses, etc., to the public and the lessors.

38. AND WILL NOT cultivate any of the lands comprised within the mining block or in any way use the said lands save for the purposes of the rights, licenses and liberties hereby granted;

Not to use the land for other purposes.

39. AND WILL NOT without the express sanction of the Deputy Commissioner for the time being of the District, cut down or injure any trees or timber on the mining block other than brushwood or undergrowth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted;

Not to cut trees, etc.

40. AND WILL NOT without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may in his absolute discretion prescribe, enter upon or commence any mining operations in any State Forest or land under special protection comprised in the mining block.

Not to enter upon or commence operations in State Forests, etc.

41. AND WILL NOT so far as may be consistent with the due exercise of the rights, licenses and liberties granted under this lease, interfere with or hinder the enjoyment of grazing rights lawfully granted by the lessors to village communities or to individuals in any part of the mining block;

Not to interfere with grazing rights.

42. AND WILL from time to time, and at all times hereafter, effectually keep indemnified the lessors from and against all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising directly or indirectly in carrying on mining or metallurgical operations on the mining block or otherwise in the exercise of the rights, licenses and liberties hereby granted;

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

43. AND WILL NOT without the express sanction of the Deputy Commissioner for the time being of the District, and then subject to the provisions for compensation and indemnity herein contained, use, collect or impound water in or on the mining block in such a manner

To respect water-right and not injure adjoining property.

as to deprive any adjoining land, villages, houses or watering places for cattle of a reasonable quantity of water as heretofore accustomed and will not in any manner foul, impregnate or otherwise deteriorate any springs or streams of water so as to render them unfit to be used as heretofore, and will not in any other way do anything to injure adjoining lands, villages or houses;

To deliver to lessors mines, buildings, etc., on expiration of term.

44. AND WILL at the expiration or sooner determination of the said term, deliver to the lessors in good order, repair and condition and fit for future working and use, and in all respects in such state and condition as shall be consistent with the due performance and observance of the several covenants and agreements by the lessee herein contained, the mining block and all mines and buildings and all pits, shafts, ladders, plats, sollars, timber, ropes, water courses, air-gates, engines, machines, and other mining and metallurgical plant below and above ground which are in the nature of fixtures or necessary or desirable for the proper working of the said mines and the raising of minerals from the mining block or for the obtaining or preparing of intermediate or finished products from such minerals, except any pits, shafts or other works which shall have been abandoned or disused in the ordinary and fair course of working of the said mines and premises, but so that the lessors shall pay to the lessee a fair price for all engines and machinery of any description in or on the mining block, based on the amount the same could be sold for on the mining block if the lessee had power to authorize the purchasers to remove them, unless the lessors shall have given notice in writing to the lessee that they the lessors do not intend to take over any of such buildings, engines and machinery plant and other things in which case the lessee shall be at liberty to remove the same, but without injuring any other property in or on the mining block;

To have an Agent on the mining block

45. AND WILL, at all times, have at the mining block a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the lessors may be made, the lessors being at liberty, should there at any time be no such agent on the mining block, to treat any other person there as such agent and to serve all notices and other documents upon the said agent or in his absence upon any such other person as aforesaid or in the case of there being no such other person as aforesaid, then by affixing such notices or other documents upon some conspicuous portion of the mining block;

Distraint for liabilities under lease.

46. PROVIDED ALWAYS that, if and whenever any part of the liabilities under this lease shall be in arrear for the space of sixty days after the expiration of the time prescribed by these presents for payment thereof, the lessors shall be at liberty to seize all minerals and intermediate and finished products in or about the mines or pits opened, worked or carried on by the lessee in the mining block; and any engines, machinery or other property found in the mining block; and the lessors may sell or otherwise dispose of and deal with the property thus seized and from the monies produced thereby may deduct and retain all liabilities under this lease and all expenses incurred in or about any such seizure and sale;

Re-entry on non-payment of liabilities under lease or on breach of covenant.

47. PROVIDED ALSO, and these presents are upon this express condition, that if and whenever any part of the liabilities under this lease shall be in arrear for the space of six calendar months next after any of the days whereon the same ought to be paid as herein provided, whether the same have been legally demanded or not, or if the lessee, or the lessee's workmen shall cause any obstruction or annoyance to the officers of the lessors or to the people of the country or if the lessee shall cease to carry on the regular working of the mines or shall refuse to afford information to the lessors, or shall fail to provide within two years of the date of these presents a sum (which shall in no case be less than ten thousand pounds) sufficient for efficiently carrying on mining operations upon the mining block or if there shall be any other breach of any of the covenants and agreements herein contained and on the part of the lessee to be performed and observed, then and in any such case it shall be lawful for the lessors or their agents duly empowered in that behalf, although they may not have taken advantage of some previous default of a like nature, to re-enter upon any part of the mining block or of the mines, buildings or mining or metallurgical plant or other operations or works in or on the mining block in the name of the whole and thereupon the said term of the thirty years shall absolutely determine and the said deposit of Rs. 1,000 hereinbefore referred to shall be retained by the lessors as and for their own property;

Determining the lease at the option of the lessee at the end of any year.

48. PROVIDED ALSO, and it is hereby agreed and declared, that if the lessee shall be desirous of determining the said term of thirty years hereby granted at the expiration of any year of the said term and of such desire shall give to the lessors six calendar months' previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of such year, then and in such case upon the expiration of such year the term hereby granted shall absolutely cease and determine;

ewal of lease.

49. PROVIDED ALSO, and it is hereby agreed and declared, that if the said term of thirty years hereby granted shall not, prior to the termination thereof by lapse of time, have been determined under the

provisions hereinbefore contained, and if the lessee shall be desirous of obtaining a renewed lease of the licenses, rights and liberties hereby granted for a further term of thirty years from the expiration of the term hereby granted and of such desire shall give to the lessors one year's previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of the term hereby granted, then and in such case the lessors will, upon the request and at the expense of the lessee, execute and deliver to the lessee a renewed lease of the said premises for a further term of thirty years in such form and subject to such royalty and other payments and such covenants, agreements and conditions, as the lessors may prescribe and the lessee shall at the same time execute and deliver to the lessors a counterpart of such renewed lease.

In witness whereof . the Dewan of Mysore, acting for and on behalf of the lessors, and the lessee have hereunto and to a duplicate hereof set their respective hands and seals the day and year first above written.

The Chief Court directs that appeals, petitions and other papers filed in the Chief Court and in the Civil Courts subordinate to it, shall be dated by the parties filing them, and when copies of such papers are granted, such dates as also the dates of receipt in Court as endorsed on the papers shall be copied by the copyists.

V. A. RAJARATNA MUDALIAR, *Registrar.*

FINANCIAL DEPARTMENT.

Circular No. 2041—Rec. 252, dated 7th March 1904.

To—The Deputy Commissioners, Treasury Department, of all Districts.

It has been observed that since the introduction of four anna deferred telegrams the cost of such telegrams has been unnecessarily on the increase owing to the addresses not being carefully worded so as to bring the number of words in each to the limit allowed by the telegraph rules. Most of the Treasuries address their telegrams to the undersigned as "Offg. Comptroller, Government of Mysore," "Offg. Comptroller, Mysore Government"; "Comptroller, Government of Mysore"; or "Comptroller, Mysore Government"; thus making the address unnecessarily long by three to four words when a single word "Comptroller" will answer the purpose. There is no other Comptroller in Bangalore and consequently no chance of any message being misdelivered. The sender's address is also unnecessarily long. As the name of the office of origin is always given by the Telegraph Department itself and allowed free, there is no necessity to repeat it in the address. The sender's name may conveniently be reduced in the case of District Treasuries to "Deputy Commissioner, Treasury" or in the case of Sub-Treasuries simply "Amildar."

The number of words in the message proper may also be reduced as much as possible consistent with clearly expressing the intended meaning. As for example, in the case of remittance, the message need only be "remitted $\frac{\text{Specie}}{\text{or notes}}$ one lakh" or "remitted $\frac{\text{Specie}}{\text{or notes}}$ 50,000 or 5,00,000" and so on, it being always understood that in the case of remittances wired to this office the remittances are made to the State Huzur Treasury.

It is requested that Deputy Commissioners, Treasury Department, of Districts will kindly issue needful instructions to the District and Taluk Treasuries under their charges.

VILLAGE SCHOOL FEES.

Circular No. 2042—*Rec.* 248, *dated* 28*th Feb.*—7*th March* 1904.

The Government of His Highness the Maharaja of Mysore having, in Proceedings No. G. 3357-67, dated 9th January 1904, sanctioned the levying of fees in Village Schools and directing that the Shekdars should receive the fee collections for payment into Taluk Treasuries, the Comptroller has the honor to request that Deputy Commissioners, Treasury Department, will be so good as to instruct the Amildars of Taluks to receive the Village School fees tendered to their Treasuries by Shekdars and credit the same to a new head of account under Village Schools to be styled "Schooling Fees." Care should be taken that the payments made are accompanied with chellans prepared in the prescribed printed form in which sufficient details are entered to enable the Treasury to credit the amount to its proper head of account. A subsidiary statement giving details of the Schools and the amount of fee paid by each should accompany the District Treasury account submitted to the Comptroller monthly in support of the total credit brought to book therein.

K. MATHAN, for *Dy. Comr.*

Notification dated 10th March 1904.

1. It is hereby notified for public information that the undermentioned Jodi Haralahalli village which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by Subraya, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A.M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit twenty-five per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made nor the remaining purchase money paid up, the land shall be re-sold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case, to deposit a written authority signed by their principals; otherwise, their bids may be rejected.

6. The sale shall be stayed, if the defaulters, or any other persons acting on their behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7 The sale of the property will not become absolute until the sale has been confirmed by the Deputy Commissioner.

8. Purchasers having completed the payment of the purchase money, will, as soon as the sale has been confirmed by the Deputy Commissioner, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to Government within ninety days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

2. Read docket No. 2432—L. F. 92-96, dated the 23rd December 1903, from the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, enquiring whether the Board are prepared to forego the revenue on kandayam lands in the Kankanapalya village in the event of its being re-transferred to the Bangalore Taluk as proposed by them.

Resolved that the Board is willing to forego the revenue on kandayam lands in the Kankanapalya village in the event of its being re-transferred to the Bangalore Taluk.

3. Read proposal to enforce some alteration in the construction of jatkas and all circular-roofed carts by providing them with apertures on either side about the level of the driver's head, through which the driver can see carriages crossing his own and avoid the present danger of collision.

It was proposed by Mr. Bronson and seconded by Mr. M. G. Krishnaswami Rao that the jatkas to be newly licensed must provide apertures on either side to allow drivers to see carriages crossing them, but the present licensed jatkas may be allowed to remain as they are unless the owners are prepared to adopt the new plan.

An amendment was proposed by Mr. Venkatachar and seconded by Mr. Aga Abdulla Saheb that two years' time may be given for the construction of new pattern jatkas providing with apertures on either side.

The amendment was put to the vote and was lost. Then the original proposition was put to the vote and was carried.

4. Read docket No. 1455—L. F. 210-93, dated the 17th October 1903, from the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, enquiring if the Board are willing to refund to the Madras Railway Company whatever has been recovered from them hitherto as lighting-tax on their buildings in the City Station, as the tax has been levied without the previous sanction of the Government of India.

Resolution.—Deferred.

5. Read Sub-Committee's report regarding the revision of the Langarkhana.

Proposed by Mr. Ramachandra Mudaliar and seconded by Mr. Appajiah that lists of recipients of money-doles residing in each Division may be circulated among the members of that Division with a request to report if these men in their Divisions deserve the charitable help of the Municipality.

Resolution.—Carried.

6. Read Sub-Committee's report regarding the remission of taxes applied for by the merchants of the old Taragupete.

Resolved that a full remission for the year 1899-1900, and half remission for the years 1898-99 and 1901-02 of the mohatarfa tax be granted to the merchants of the old Taragupete.

7. Read two notices from Mr. K. Ramaswamy Iyengar, Advocate, stating that his client Chintalaiya, owner of demolished shop sites Nos. 6, 8 and 9 in the cross lane between Doddapete and Ragipete, would take legal steps unless the Municipality pay him the full compensation demanded by him for the entire extent of the sites, *viz.*, Rs. 2,558-5-5 including damages, or grant him licenses to build on the whole extent.

Proposed by Mr. Venkatachar and seconded by Mr. D. Venkataramaiya that the whole of the demolished shop sites Nos. 6, 8 and 9 may be acquired and the compensation settled by the Deputy Commissioner under the Land Acquisition Act.

Resolution.—Carried.

8. Read Sub-Committee's report regarding the levy of water cess on shops on which mohatarfa is levied.

Resolved that the Sub-Committee's report, recommending non-imposition of water cess on mohatarfa-paying shops, be accepted.

9. Read docket No. 2627—L. F. 84-03, dated the 19th January 1904, from the Secretary to Government, General and Revenue Departments, calling for the opinion of the Board regarding the necessity for a type-writing machine for the City Municipal Office.

Resolved that a type-writing machine be purchased for the use of the office, the cost to be met from the source pointed out.

10. Read letter No. 404—155, dated the 21st January 1904, from the Executive Engineer, Bangalore Division, forwarding for the opinion of the Board a scheme for the watering of the most frequented and important roads in the City during the hot weather.

Resolved that Rs. 1,000 be allotted this year and an amount not exceeding Rs. 2,000 provided hereafter in the budgets for the watering of the most frequented and important roads in the City.

11. Read Docket No. 306—116, dated the 19th January 1904, from the Executive Engineer, Bangalore Division, stating that the estimated cost of Rs. 223 for certain petty repairs of the Fort Palace is a fair charge on the Municipality as the building is used for the Municipal Schools.

Proposed by Mr. D. Venkataramaiya and seconded by Mr. D. B. Ramachandra Mudaliar, that as the old Palace is one of the buildings that has to be preserved according to the order of the Government of India whether it is occupied or not, the repairs of the building will be a fair charge on the Provincial Funds as was hitherto the case, especially as the grant of Rs. 70,000 from the Government for the construction of the Municipal School has not as yet been sanctioned.

Resolution—Carried.

12. Read letter dated 25th January 1904, from the Vice-President of Young Men's Christian Association, Bangalore, requesting the lease of the plot of ground known as "Public square" in the Basavangudi Extension for a nominal yearly rental as an athletic ground for the members of the Fort Branch.

Resolved—That the lease prayed for should not be granted.

13. Read Sub-Committee's report regarding the claim of Ramaswamappa of Mavalli, claiming payment of compensation for a well in front of his house which was closed by the Municipality in widening a lane or a stand-pipe being erected at the spot as originally promised.

Resolution—Deferred to the next meeting.

14. Read draft budget estimates for the year 1904-05.

Resolved—That a special meeting be called for, soon after the Sub-Committee's report is ready.

15. Read Sub-Committee's report regarding the accumulation of arrears of Municipal revenue.

Resolution—Deferred.

Audit Report for January 1904.

Voucher No. 88 relates to the payment of Rs. 1,937-1-7, as allowances to the acting Vice-President beginning from September 1900. This amount had not been budgetted for. In the correspondence between the Senior Surgeon and the Government, and the President and the Government, the latter asked, from what sources the increased expenditure was proposed to be met. The President, in reply, stated to Government that there were savings under some other items in the budget. The procedure of the President was opposed, in this instance, to the prevailing practice, and to the express order of Government as laid down in Proceedings No. 5127-5207—L. 635, dated 21st January 1892. In pursuance of this Proceedings, the appropriation from one head of the budget to the other head had first to be sanctioned by the Board, before submission to Government for approval. If this procedure is not strictly adhered to, budgetted items may be expended for other purposes without the knowledge and consent of the Board. This irregularity is pointed out for future guidance as in this instance money has already been paid after getting Government sanction without placing the preliminary Government Order for consideration before the Board. The other items call for no remarks.

M. CHENGIAH CHETTY, *President.*

Notice dated 10th March 1904.

The following business will be transacted at an Ordinary Meeting of the Municipal Commissioners for the City of Bangalore to be held at their office premises, at 7-30 A.M., on Thursday the 24th March 1904 :—

PRESENT.

Chairman.—Mr. D. Sitaram Rao.

Trustees.—Mr. E. Maconochie, I.C.S., Private Secretary to H. H. the Maharaja of Mysore.
Dr. P. S. Achyuta Rao, Civil Surgeon.
Mr. K. Srinivasa Rao, Vice-President.
" Mahomed Jaffer Saheb, Police Superintendent.
" Anantharajiah, Merchant and Municipal Commissioner.
" M. Venkatakrishnaiya, Municipal Commissioner.
" M. C. Ranga Iyengar, Municipal Commissioner.

Subjects for consideration.	*Resolutions.*
I. The procedure to be adopted in the case of applications received from the owners of property, who are willing to part with their property, in the areas of the City not immediately proposed to be dealt with by the Trust Board— (i) when such property is intended to be acquired under the proposals made by the Mysore City Improvement Committee; (ii) when it is not so proposed to be acquired. In this connection Mr. K. Subba Rao's application for a "building license" on a site proposed to be acquired, to be disposed of.	I. Resolved that a reference may be made to the Chairman, Bombay Trust, for information as to how the question was treated in that City.
II. Reference from the Government No. 2967—L. F. 69-03, dated 12th February 1904, about certain sites intended to be acquired and granted to Rev., Mr. Sawday, for the construction of a "Female Dispensary" at the Idga extension. Deputy Commissioner's No. 1487, dated 1st February 1904, regarding permission for building on Revenue Survey Nos. 172 and 173, purchased by Rev. Mr. Sawday, which are intended to be acquired by the Board at the Idga extension.	II. That the Board see no objection to the site to the right of the continuation of the Sayajee Rao road being handed over to Rev. Mr. Sawday, on payment by him of the cost of acquisition of the ground not already in the hands of the Board. As regards the site to the left of the road, the Board will be prepared to allot a certain portion for the purposes of the dispensary on Rev. Mr. Sawday satisfying them that it is absolutely required for those purposes. The Board intend to retain a 60-feet road between the two sites. The Chairman be authorized to arrange with Rev. Mr. Sawday for the acquisition of the Survey Nos. 172 and 173 purchased by him and grant to him, at proportionate rates including the cost of construction of roads, etc., as many bungalow sites in those numbers, as are actually required by him, for his immediate purposes.
III. Disposal of applications received for the grant of sites for— (i) building bungalows, (ii) building ordinary dwelling houses.	III. Proper maps to be prepared of all available sites at the Idga and Vontikoppal areas and the Chairman be requested to place before the Board as soon as possible, the proposals, for the allotment of sites for bungalows and houses for various castes, and classes, to be displaced by the operations of the Trust in the City.
IV. Correspondence ending with President of Mysore City Municipality's No. 395, dated 6th February 1904, regarding the acquisition of Chamundi Joi's house in Devaparthiva street in the Fort of Mysore.	IV. The President may be informed in reply to his communication that the house concerned is amongst those marked by the Improvement Committee for acquisition when the improvement of the Fort is taken up. The Trust is not in a position to say, when the Fort will be dealt with by it, in the meantime the Municipality must deal with such cases on their merits and in the ordinary course of business under the Regulation.
V. Resolution No. 4 of the Board, dated 27th January 1904, about drafting bye-laws.	V. The Chairman may be requested to draft the bye-laws and place them before the Board for consideration.
VI. Any other subject to be placed by the Trustees giving due notice in time.	VI. *Resolved* that the sites as shown on the tracing may be acquired from the Catholic Mission.

PART III.

Legislative Measures and Rules thereunder.

LEGISLATIVE DEPARTMENT.

Notification No. 147—Legis. 5-03, dated Bangalore, the 7th March 1904.

The following draft of Rules proposed to be issued under the Mysore Weights and Measures Regulation, III of 1902, is published for general information. The draft will be taken into consideration after the expiry of two months from the date of such publication. Criticisms and suggestions from persons interested, sent in within this interval, will be duly considered.

K. S. CHANDRASEKHARA AIYAR,
for *Secretary.*

Draft Rules proposed to be issued under the Mysore Weights and Measures Regulation.

In exercise of the powers conferred by Regulation III of 1902, and of all other powers enabling them in this behalf, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following Rules for regulating the use of weights and measures of capacity in all parts of the State from and after the first day of.....1904.

Nothing in these Rules is intended to have application to, or to interfere with the use of, the British or Metric systems of weights and measures, or any other recognised system not based on a weight or measure called the "seer," or any sub-division or multiple thereof, as a unit.

1. (1) The standard of weight shall be the "seer" weight, which is a mass of metal in the possession of Government equal to the weight of twenty-four rupees (of 180 grains Troy each) of the British Indian currency.

(2) The standard of measure of capacity shall be the "seer" measure, which is a hollow bronze cylinder in the possession of Government, capable, when filled to the brim, of holding just eighty rupees weight of distilled water at its maximum density and under the normal atmospheric pressure.

2. (1) The standard seer weight and seer measure aforementioned shall be carefully secured in the State Huzur Treasury in the personal custody of the Officer in charge of the Treasury.

(2) A duplicate copy of the standard seer weight and a duplicate copy of the standard seer measure shall be kept in the Bangalore Central Jail in the personal custody of the Superintendent of the Jail; and the same shall be compared not less often than once in ten years with the standards preserved in the State Huzur Treasury.

3. The use of the following weights and measures of capacity is hereby recognised :—

(A) *Weights* :—

Tola (=180 grains) equal to one-twenty-fourth of a seer as defined in Rule 2 (1);
Half-tola; quarter-tola; and smaller sub-divisions of a tola;
Multiples of a tola to be described as so many tolas.
Seer, equal to the standard seer weight as defined in Rule 2 (1);
Half-seer (*Achcheru*), equal to 12 tolas;
Quarter-seer (*Pavu*), equal to 6 tolas;
One-eighth seer (*Arapavu*) equal to 3 tolas.
Maund (*Mana*), equal to 40 seers;
Lower multiples of a seer, to be described as so many seers (with or without fractional parts); or as such fraction of a maund, *e.g.*, 5 seers (*Panchcheru*); 10 seers (*Dhadiah*); ½-maund; ¼ maund, etc.
Multiples of a maund, to be described as so many maunds (with or without fractional parts); *e.g.*, 2 maunds; 2½ maunds, etc.
Imperial seer (*Dodda seru*), equal to 80 tolas;
Imperial maund (*Dodda mana*) equal to 40 imperial seers of 80 tolas each;
Multiples of the imperial seer and imperial maund, to be described as so many imperial seers or imperial maunds.

(B) *Measures* :—

Seer, equal to the standard seer measure as defined in Rule 2 (2).
Sub-divisions of a seer as follows—
Half-seer (*Achcheru*); quarter-seer (*Pavu*); one-eighth seer (*Arapavu*); one-sixteenth seer (*Chatahu*);
Kolaga, equal to eight seers;
Lower multiples of a seer, to be described as so many seers (with or without fractional parts), or such fraction of a Kolaga;
Palla, equal to 12½ kolagas, or 100 seers;
Kandi, equal to 20 kolagas or 160 seers.
Lower multiples of a kolaga to be described as so many kolagas (with or without fractional parts), or such fraction of a palla or kandi.

4. The Superintendent of the Bangalore Central Jail shall cause to be manufactured copies of the more commonly used weights and measures, which, after being carefully verified and stamped with the stamp of verification, shall be available for sale at prices not exceeding the cost price *plus* a reasonable percentage for cost of establishment.

5. Correct copies of the standards of weight and measure, and also of the more commonly used weights and measures, shall be supplied by the Superintendent of the Central Jail, Bangalore, to the offices mentioned in Section 3 of the Regulation, as well as to every Taluk Cutcherry and Police-Station. These shall be verified not less often than once in ten years, by the Superintendent of the Central Jail, and shall be replaced whenever necessary.

6. In the absence of usage or an express or implied understanding to the contrary, it is assumed that in measuring an article by any of the recognised measures of capacity, the measure is not heaped, but either is stricken with a round stick or roller, straight and of the same diameter from end to end, or, if the article sold cannot from its size or shape be conveniently stricken, is filled in all parts as nearly to the level of the brim as the size and shape of the article will admit.

7. A weight or measure which does not differ from the proper value of weights or measures of the same denomination by more than the margin or error allowed as per table hereunder, shall not, by reason merely of such difference, be deemed to be a false weight or measure :—

Table showing the margin of error allowed for different weights and measures :—

8. Nothing in these rules shall be deemed to render illegal the sale of an article in any vessel where such vessel is not represented as containing any amount of the standard seer measure; or

to prohibit parties from agreeing to determine the quantity of any article either by weighing or by measuring or partly by one mode and partly by the other.

9. Weights and measures of capacity shall be made of metal: provided that measures below a seer in capacity may be made either of metal or of wood or of bamboo.

10. The shape of weights, except where handles or depressions for lifting occur, shall as far as possible be such that both the upper and under surfaces shall be flat and the horizontal sections circular or rectangular.

Measures shall be hollow cylinders, with plane base, and internal diameter equal to half the depth.

11. Every weight, except where the small size of the weight renders it impracticable, shall have the denomination of such weight stamped on the top or side thereof in legible figures and letters.

Every measure of capacity shall have the denomination thereof stamped on the outside of such measure in legible figures and letters.

A weight or measure not in conformity with this rule shall not be stamped with a stamp of verification under these rules.

12. Every weight, except where the small size of the weight renders it impracticable, and every measure of capacity, shall be verified and stamped with a stamp of verification in the form given below, and shall thereafter be produced for verification not less often than once in every five years.

Form of stamp.—The Royal Arms of Mysore, and circumscribing the same, the word "Mysore" and the figures denoting the year of stamping, as in the accompanying model.

13. (1) For every district there shall be appointed an Inspector of Weights and Measures, and such other establishment as may be necessary, the whole to be under the control of the Deputy Commissioner.

(2) The Inspector shall travel throughout the district and deal with all applications referred to him under Rule 14 for the verification and stamping of weights and measures.

(3) He shall enter in a book to be kept by him, minutes of every verification, and give, if required, a certificate under his hand of every stamping effected by him.

(4) The inspection of weights and measures and weighing instruments in use shall also be part of his duties; and for this purpose and for the purpose of Section 153 of the Code of Criminal Procedure, he shall be deemed, in regard to the whole of the local area under his jurisdiction, to have been appointed an officer in charge of a Police Station. Accordingly he may, without a warrant, enter any place within his jurisdiction for the purpose of inspecting or searching for any weights or measures or instruments for weighing used or kept therein, whenever he has reason to believe that there are in such places any weights, measures or instruments for weighing which are false. If he finds in such place any weights, measures or instruments for weighing which are false, he may seize the same, and shall forthwith give information of such seizure to a Magistrate having jurisdiction.

14. (1) Every application for the verification and stamping of weights and measures shall be addressed to the local Amildar or Deputy Amildar, and shall be accompanied by a fee of one anna for each weight or measure to be dealt with.

(2) The fee shall be sent to the Treasury and credited towards the cost of the special establishment entertained for stamping under Rule 13.

(3) The application shall be referred to the Inspector of Weights and Measures for disposal in accordance with the instructions given in the schedule appended to these rules.

15. (1) In conducting the actual operation of testing, the Inspector of Weights and Measures will cause to be carried out free of extra charge any slight adjustment that may be found necessary to make the weights and measures perfectly accurate.

(2) The Inspector of Weights and Measures is empowered to deface, or render incapable of use, or refuse to verify, correct or stamp, any weight or measure brought to him for verification or correction, which appears to him unfit for verification or correction by reason of its not being in conformity with these rules.

SCHEDULE.

[*See Rule* 14 (3)].

I. TESTING OF WEIGHTS.

Sensibility of Balance.—When weights have to be verified by standard weights and only common scales or balances are available, the first thing to be done is to try the balance as to its degree of sensibility, apart from the question of equilibrium. Suppose a maund weight of 40 seers is received for verification. Put a standard maund weight in the right hand scale and exactly counterbalance it by weights in the left. If 40 grains weight will make a difference when placed in either scale, the balance may be considered good enough for the verification of a common maund weight of commerce. If a beam does not turn with $\frac{1}{800}$ part of the weight that may be in one scale, it cannot be used for very accurate purposes.

Verification of Weights.—The maund weight received for verification should be examined thus:—

Place the standard maund weight in the right hand scale and exactly counterbalance it; then take it out and put in its place the weight to be verified. If the beam shows an equipoise, the weight is correct. It is of no consequence whether the arms of the beam are equal or not, or in other words, whether the scales are or are not correct.

Equipoise of Balance.—To ascertain if the balance is in equipoise, put a standard maund weight into the right hand scale and exactly counterbalance it in the left hand scale. Then take it out and put in other weights into the right hand scale and produce exact equipoise, this time in the right hand scale, not the left hand. It is now evident that the two weights weighed in the right hand scale are equal to one another: remove the weight from the left hand scale and put therein the weight taken from the right hand scale, and if the beam shows a true equipoise, the balance is correct; if not the beam or the scales can only be adjusted by a competent workman. The same remark holds good with reference to all other balances, large or small.

II. TESTING OF GRAIN AND LIQUID MEASURES.

Diameter of Grain Measures.—When a grain measure is received for being stamped, the first thing to be done is to measure the diameter carefully. If the diameter of the measure is exactly the same as that of the standard measure, the measure may be accepted for testing. If not the measure should be rejected. (*Note.*—If a measure is not quite round, a mean between the longest and shortest diameters should be taken.)

Method of Test employed.—The only system of test to be employed in testing measures brought to be stamped is that by volume of water, for the proper performance of which the stamping officer is provided with either a specifically constructed set of standardized testing vessels or with two test glasses, a twenty-ounce glass equivalent to a quart and a five-ounce glass graduated to quarters of an ounce. This test is very trustworthy and easily applied.

Preliminaries to Testing.—The following preliminaries must be attended to before the actual process of testing can be commenced. The best drinking water available should be obtained, as it is the clearest. The measure to be tested should be well washed out, and if it is of wood, water should be allowed to stand in it for a quarter of an hour before testing, so as to guard against absorption during the testing, whereby the result would be falsified. If the measure is found to be leaky, the leaks should be caulked on the outside only with pitch or sealing-wax.

Process of Testing.—The test should then be applied in the following manner:—The rim of the measure should be moistened, as otherwise water may stand without spilling quite a-sixteenth of an inch above it; and in a measure of five inches diameter this will represent 1·39 tolas of rice. The measure should then be filled with water. This is done by pouring water into it from the test glass, either the large 20 oz. glass or the small 5 oz., one or both being used according to the size of the measure under examination. In pouring water from the test glass into the measure, care should be taken to prevent the water from overtopping the rim of the measure. The surface of the water must be exactly level with the rim. From the number of times water was poured into the measure from the test glasses and from the quantity remaining in them, it can be ascertained how many ounces of water have been used

to fill the measure. The quantity of water, if any, found to have been spilt should be deducted from the total quantity poured out from the test glass. If it be found impossible to staunch a leaky measure, reliable results may be obtained by catching the water which escapes by leakage, measuring it, and deducting the quantity from that poured into the measure from the test glass. The remainder represents the exact capacity of the measure in ounces of water. If this is equal to the proper capacity of the measure, calculated at 41 ounces for the standard seer measure, the measure may be taken to be correct and stamped accordingly; otherwise it should be rejected. The "correct copies" of measures themselves should on no account be used in the application of the test, as it is almost impossible to pour out the liquid from such measures filled to the brim without spilling. If, however, special vessels of standard capacities are made with a narrow neck and board lip for pouring, similar in shape to the gallon pot used in the Excise Department, and standardized to fluid ounces, there is no objection to such measures being used for the purpose of testing. The use of ounce glasses will then be only required in the primary test of capacity of such special measures.

III. PROCESS OF STAMPING.

Directions for Stamping.—The following are the directions for conducting the actual process of stamping weights and measures:—

(1) The large metallic weights should be stamped on the top, close to the handle on either side; the smaller weights on any part (the handles excepted) having sufficient even surface to receive the impression equally. Flat weights should be marked either on the top or underneath.

(2) Measures of iron or other metal should be stamped below the rim, to effect which it will be necessary to inroduce the beak of an anvil, or beak iron, into the vessel, (held horizontally for the purpose); the part to be marked should be held closely and firmly down on the beak by one person, whilst another applies the die on the upper surface, and a third party strikes steadily with a sledge, or a heavy hand-hammer, until the required impression has been produced.

(3) Measures may also be marked on the bottom by being inverted on an iron stake with flat top somewhat larger than the die.

(4) In applying the large die whether on brass or iron, the sledge hammer must be used; for the small die the heavy hand-hammer will be sufficient.

(5) The operation will be best performed by a smith, hammer-man and bellows-boy.

(6) For weights and measures of irregular shapes, in use by bazaarmen and merchants, no uniform system can be laid down; but as a general rule, they should be marked on a part on which the die can be applied equally.

(7) If there is a joining at the side of a measure, an impression should be made across it.

(8) Where wooden or bamboo measures have to be stamped, the impression stamp specified in Rule 12 should be stamped by means of a steel die at the very top of the measure to prevent its being cut down.

IV. SUPERVISION AND REPORT.

Supervision.—The work of testing and stamping should be done invariably under proper official supervision. Deputy Commissioners and their Assistants should inspect each party of stamping establishments as often as possible, and ascertain whether the men understand their work, and whether they levy any unauthorised fees from the merchants. They should also note their remarks in an inspection book.

Annual Report.—An annual return of stamping operations should be submitted by Deputy Commissioners to Government in the prescribed form on or before the 1st November of each year.

8. Market well supplied.

9. Standing crops are reported to be in good condition, except in parts of the Hiriyur Taluk, where Bengal gram is still being damaged by rats. Castor, paddy, Bengal gram and sugar-cane in the Chitaldrug Taluk; Bengal gram in the Hiriyur and Hosdurga Taluks and white jola and Bengal gram in the Harihar Sub-Taluk are being harvested.

10. Prospects of the season good. Food stocks are abundant.

11. Public health generally good. Fever still prevails in the Challakere, and Hiriyur Taluks.

12. Cattle healthy except in parts of the Hiriyur Taluk, where they are still suffering from foot and mouth disease. Fodder and water are reported to be sufficient.

BANGALORE,

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

COMMERCIAL EXHIBITIONS.

Calcutta, the 28th January 1904.

RESOLUTION.

The *Gazette of India* of the 12th of June 1903 contained a Notification regarding the Universal and International Exhibition which will be held at Liege in 1905. The Government of India have now received a translation of the general rules which have been drawn up by the Central Administration of the Exhibition for the guidance of intending exhibitors; the following extracts from which are published for general information. All enquiries regarding the Exhibition should be addressed to the Consul General for Belgium, Calcutta.

"LIEGE UNIVERSAL AND INTERNATIONAL EXHIBITION OF 1905.

ARTICLE 1.

The Exhibition will include chiefly art works (Painting, Sculpture, Engraving and Architecture), scientific works and the industrial and agricultural plant and productions of all nations.

It will further include old art, military art and Colonial Exhibitions; a portion of the latter will be specially set aside for the Congo Section.

Machinery of every description will, as far as practicable, operate under the eyes of the public for the purpose of showing visitors the mode of working same and initiating them into the different lines of manufacture.

Special temporary shows and exhibits of agricultural machines in operation, live stock, plants, flowers, fuits, vegetables, etc., are contemplated and those will be regulated by independent rules.

* * * * * *

ARTICLE 3.

The Exhibition will be inaugurated end of April 1905, and remain open for a period of at least six months, with the option of the Executive Committee to prolong it until the 15th November inclusive.

* * * * * *

ARTICLE 11.

The necessary measures will be taken by the Government for protecting in Belgium patentable inventions, industrial designs and models, as well as manufacturing or trade marks appearing at the Exhibition. It will be strictly forbidden to take copies, drawings, measurements, photos, cards or models of any objects exhibited unless with the exhibitor's consent; the closest watch will be kept to enforce this rule. Nevertheless neither the Board of Directors nor the Executive Committee will incur any responsibility on account of infractions of this provision, dereliction of duty on the part of the guardians or violation of orders given by them.

The Executive Committee reserve to themselves the right of allowing general views to be taken without the exhibitors' consent being required.

* * * * * *

ARTICLE 13.

No exhibits may be removed before the close of the Exhibition, except with the Executive Committee's special consent in writing.

* * * * * *

ARTICLE 20.

Exhibitors whether singly or collectively will have to bear the entire expense of their installations, such as special decoration, superstructure and consolidation of floors, partition framework and coating, ceilings, drapery, supply of furniture, arrangement ornamentation, laying out, preservation and cleaning of goods, foundations, fixing up, motive powers, steam, water, gas, electricity, taking down, storage of empties; insurance, plantings and special levellings; customs or excise duties; license dues on excisable commodities, etc., etc., all measures in this connection to be approved by the Executive Committee and the Commissioner-General of the Exhibition. Exhibitors will be held responsible for any damages caused by their installations to floorings, partitions, etc., in their use, and for such dilapidations as might be considered due to misuse.

No exhibitor shall be allowed to set up his installation in such a way as to deprive another exhibitor from light, or to cause him any inconvenience or prejudice whatsoever.

No exhibit shall be removed until the exhibitor has settled the charges for space, selling dues, damages (if any), etc.

* * * * * *

ARTICLE 28.

Exhibits must be completed and all work connected therewith terminated before April 15, 1905.

Machinery and appliances which can only be fixed or mounted by passing over the space of other exhibitors shall be completely set up six months prior to the opening of the Exhibition or even earlier, should the Executive Committee deem necessary in certain cases.

All machinery foundation work must be terminated at least four months beforehand.

Should the exhibitor fail to comply with above dates, he will *ipso facto* lose all claim to his space, the admission certificate will be deemed cancelled and the space rent paid will be forfeited to the Exhibition Company, without any legal or other proceedings being required. In such case, the Executive Committee will be entitled to remove unfinished installations or to have the same completed at exhibitor's expense and risk."

The Chief Court directs that all Civil Courts in the Province be closed on Monday the 27th June 1904, on account of the birthday of His Majesty the King-Emperor.

V. A. RAJARATNA MUDALIAR, *Registrar.*

FINANCIAL DEPARTMENT.

Circular No. 2041—*Rec.* 252, *dated 7th March* 1904.

To—The Deputy Commissioners, Treasury Department, of all Districts.

It has been observed that since the introduction of four anna deferred telegrams the cost of such telegrams has been unnecessarily on the increase owing to the addresses not being carefully worded so as to bring the number of words in each to the limit allowed by the telegraph rules. Most of the Treasuries address their telegrams to the undersigned as "Offg. Comptroller, Government of Mysore," "Offg. Comptroller, Mysore Government"; "Comptroller, Government of Mysore"; or "Comptroller, Mysore Government"; thus making the address unnecessarily long by three to four words when a single word "Comptroller" will answer the purpose. There is no other Comptroller in Bangalore and consequently no chance of any message being misdelivered. The sender's address is also unnecessarily long. As the name of the office of origin is always given by the Telegraph Department itself and allowed free, there is no necessity to repeat it in the address. The sender's name may conveniently be reduced in the case of District Treasuries to "Deputy Commissioner, Treasury" or in the case of Sub-Treasuries simply "Amildar."

The number of words in the message proper may also be reduced as much as possible consistent with clearly expressing the intended meaning. As for example, in the case of remittance, the message need only be "remitted $\frac{\text{Specie}}{\text{or notes}}$ one lakh" or "remitted $\frac{\text{Specie}}{\text{r notes}}$ 50,000

or 5,00,000" and so on, it being always understood that in the case of remittances wired to this office the remittances are made to the State Huzur Treasury.

It is requested that Deputy Commissioners, Treasury Department, of Districts will kindly issue needful instructions to the District and Taluk Treasuries under their charges.

VILLAGE SCHOOL FEES.

Circular No. 2042—*Rec.* 248, *dated* 28*th Feb.*—7*th March* 1904.

The Government of His Highness the Maharaja of Mysore having, in Proceedings No. G. 3357-67, dated 9th January 1904, sanctioned the levying of fees in Village Schools and directing that the Shekdars should receive the fee collections for payment into Taluk Treasuries, the Comptroller has the honor to request that Deputy Commissioners, Treasury Department, will be so good as to instruct the Amildars of Taluks to receive the Village School fees tendered to their Treasuries by Shekdars and credit the same to a new head of account under Village Schools to be styled "Schooling Fees." Care should be taken that the payments made are accompanied with chellans prepared in the prescribed printed form in which sufficient details are entered to enable the Treasury to credit the amount to its proper head of account. A subsidiary statement giving details of the Schools and the amount of fee paid by each should accompany the District Treasury account submitted to the Comptroller monthly in support of the total credit brought to book therein.

MISCELLANEOUS.

MYSORE DISTRICT.

Dated 15th March 1904.

1. The right to collect tolls at the toll-gates specified in Schedule A, from the 1st July 1904 to the 30th June 1905, will be sold by public auction at the places noted opposite to each by the Deputy Commissioner or any other officer deputed for the purpose, on the dates noted therein.

2. The contractors who purchase the right must collect tolls at the rates mentioned in Schedule B, both on in-coming and out-going traffic and at no higher rates.

3. The Deputy Commissioner reserves to himself the power of refusing or accepting the highest or any bid that may be offered.

4. The contract amount is payable in twelve equal monthly instalments due on or before the 10th of the following month. The contractor shall pay, as soon as the sale is over, a deposit

equal to two monthly instalments for the due performance of the contract. The amount in deposit will, if the conditions of the contract are complied with, be credited towards the instalments due for the last two months of the contract.

5. If the deposit is not made immediately after the close of the sale, the contract will be re-sold at the risk of the approved bidder. If default is made in the payment of the instalments, interest at one pie per rupee per month will be levied till the date of payment, and the unexpired portion of the contract will also be liable to be sold at the discretion of the Deputy Commissioner, and the deficit will be recovered from the contractor, who shall not be entitled to the profits, if any.

6. In addition to the amount bid for, the contractors are, subject to the conditions stated in paras 4 and 5, bound to pay Local cess at one anna per rupee on the contract amount paid into the treasury.

7. The contractors are also bound to keep an account showing the daily collections, and it shall be open to inspection by the taluk and district authorities.

8. They shall also be bound to keep true accounts of traffic passing through the gates as specified in para 7, for which purpose they shall bind themselves to maintain at their own cost a resident mutsaddi at each toll-gate.

9. The contractors will have the use of existing toll-houses and gates and they will be required to keep them in good repair. If any toll-gates or houses are now required, they will be put up at Government expense.

10. The contractor should conform generally to the rules published in the late Chief Commissioner's Notification No. 274, dated 4th November 1876, in the matter of ghat tolls.

11. Carts laden with bone or other substance for use as manure should be treated as carts unladen and tolled on accordingly.

I. Consideration of accounts of receipts and disbursements with the Auditor's report and also vital and other statistics for the month of January 1904.

Resolved that the accounts be passed, that the Auditor's suggestion in regard to the collection of rahadaries issued at Ookads be adopted and that the Pygastees be transferred to some other Department.

II. Consideration of the budget estimates of receipts and expenditure for 1904-05.

The consideration of this proposition is adjourned to 5 o'clock on Saturday evening the 5th proximo.

III. Letter No. 72, dated the 30th January 1904, from the Chairman of the Improvement Trust Board, sending for the consideration of the Commissioners, notifications in regard to improvement scheme of the 1st drainage area of the City, Ittigegud, Nazarbad and Jalapuri and Ediga Extensions.

Resolved that the Chairman of the Trust be approached with a request to kindly depute the Executive Engineer of the Trust to interview the Board on the subject of the proposed scheme at 5 o'clock on Saturday evening the 5th proximo.

IV. Consideration of the extra land given to the Wesleyan Mission in the Jalapuri Extension.

Resolved that Revd. Mr. Sawday be asked to refund the value of the old school site in Erangere and that the new site now given for the school be considered as a free grant.

V. Consideration of Municipal Commissioner Mr. Abbubakar Sait's proposition dated the 2nd February 1904, suggesting the decrease of the Octroi duty on tobacco from Rs. 3 to Re. 1 with a view to avoid smuggling.

Adjourned to the next meeting at the request of the proposer.

VI. President's memo, dated the 18th January 1904, forwarding for the opinion of the Board, copy of Government Proceedings No. L. F. 769-777 of the 13th August 1903, regarding

Hospital Assistants being allowed to occupy the rooms constructed in the Dispensaries for in-patients.

The Board consider that it is unnecessary to express their opinion, as within the City limits there is no possibility of such a contingency arising as is contemplated in the Government Order.

VII. Consideration of the application from Khaje Hakim Mahomed Khan of Devaraj Mohalla, praying for a grant-in-aid for his Unani Dispensary.

Resolved that a grant-in-aid of Rs. 15 per month be sanctioned to this Hakim.

VIII. Correspondence ending with the President's memo, dated the 18th November last, with an estimate for repairing the breaches in the bund of the feeder channel of Kukkarhalli tank.

The estimate is sanctioned.

IX. Government Proceedings No. 2871—L. F. 46-93, dated the 2nd instant, intimating that the suggestion of the Board to amend the definition of the word "building" so as to include walls in it and to empower the President to fix the time within which houses, etc., should be built, have been noted for consideration in connection with the new Municipal Regulation.

Recorded.

X. Consideration of correspondence ending with the memo of the President of the School Committee recommending a grant-in-aid to the Hindustani School in Devaraj Mohalla.

Resolved that a grant-in-aid of Rs. 5 per month be sanctioned to this Hindustani School.

XI. Sayer Daroga's report No. 15, dated the 22nd December 1903, making certain suggestions regarding the levy of Octroi duty on tobacco.

Resolved that Government be moved to pass early orders on the reference made on this subject in the President's letter No. 21, dated the 4th August 1903.

XII. Consideration of correspondence ending with the Vice-President's Memo, dated the 12th February 1904, suggesting that the services of a surveyor can be spared to prepare copies of plans now ready in Mr. D'Cruz's office.

Resolved that a sum of Rs. 30 be sanctioned for the plans of the City to be prepared at the Trust Chairman's Office.

XIII. Consideration of the following propositions made by Messrs. Rangaiengar and Narasimhaswami:—

(1) To make vegetable sellers keep their vegetables, etc., on platforms prepared either of planks or stone similar to those now in the Bangalore Station market.

(2) To construct roofing over these stalls at the Municipal expense.

(3) To force the sellers of sweetmeat, dosse and pacoda, etc., to keep their things in a glass case.

(4) Directing bakers of sweetmeat, pacoda, dosse, etc., not to bake them in thoroughfares as so doing results in offensive smell to the persons on road.

Resolved—(1) and (2) that estimates be prepared and placed before the Board for their consideration;

(3) and (4) that Bye-laws be framed on the subject and placed before the Board for their consideration.

XIV. Government Proceedings No. 2919—L. F. 52-02, dated the 8th February 1904, regarding the disposal of the site bought from Ramanna by the Municipality and left unused in the Gardikere in Lashkar Mohalla.

Resolved that the Government Order be recorded. Instructions in para 2 of the Order to be noted for future guidance. License should be granted to Kempanna to proceed with the construction of the house.

XV. Correspondence ending with Deputy Commissioner's yadi No. 1257, dated the 8th January 1904, enquiring whether the Municipality would accept the proportionate share of pension due to Annaji Rao, late shekdar of Mirle, for the period he has served in the Mysore Municipality.

Resolved that the Board agree to bear the proportionate share of pension.

XVI. Consideration of Municipal Commissioner Mr. Madappah's proposition to put up zinc sheet roofing over the stalls of vegetable sellers both in Mandi and Devaraj markets.

Resolved that estimate be prepared and placed before the Board for their consideration.

XVII. Government Proceedings No. 2963-5—L. F. 71-03, dated the 12th February 1904, sanctioning the purchase of the Railway gate lodge at Mysore for Rs. 419.

Recorded.

XVIII. Consideration of letter from Mr. Sethu Rao (elected Commissioner for the Fort Mohalla) resigning his seat on the Board and the nomination of a successor as required in Government Notification No. 5973-4—L. F. 17996, dated the 24th November 1896.

Resolved that Mr. Sethu Rao's resignation be accepted. Resolved by a majority that Mr. Puttaiyaji Urs be recommended to Government for nomination in the place of Mr. Sethu Rao, resigned.

XIX. The Chief Plague Officer's docket No. 382, dated the 12th February 1904, suggesting the selection of a convenient place for cremation ground.

Resolved that a place be fixed by Mr. Anantharajaiya in consultation with the Chief Plague Officer.

MYSORE GOVERNMENT STATIONERY DEPOT.

TENDERS FOR THE SUPPLY OF EUROPE STATIONERY.

Notice dated 9th March 1904.

As the tenders received for the supply of Europe Stationery requisites required for the Government of Mysore during the official year 1904-05, are unsatisfactory, fresh tenders are again invited and will be received by the Superintendent of Stationery, Mysore Government, at his office at Bangalore up to 4 P.M., on Tuesday the 5th April 1904.

2. Tenders should be superscribed "Tender for sundry Stationery requisites for 1904-05" and should be accompanied by samples and by a deposit of Rs. 250 as earnest money, which will be returned after the disposal of tenders to all unsuccessful tenderers and be liable to be forfeited if the successful tenderers fail to fulfil the conditions of their contract. In cases where tenderers may deposit Government Promissory Notes, they should endorse the same payable to the "Superintendent of Stationery Depot, Mysore Government, Bangalore."

3. Samples of the required articles used by the Government of Mysore can be seen at the Stationery Depot, Mysore Government, Bangalore, any day except Sundays and holidays, between the hours of 11 A. M. and 4 P. M.

4. The successful tenderer or tenderers will be required to deposit a security of 5 per cent on the value of articles for which the tender is accepted, for the due fulfilment of his contract.

5. The quantities specified in the schedule annexed hereunder are only probable requirements. The successful tenderer must be prepared to make deliveries of all sundry articles by the 30th of June 1904, provided that it shall be in the discretion of the Superintendent to extend the time for such delivery, on reasonable cause being shown. All supplies will be subject to examination by the Superintendent of Stationery. Articles not considered up to quality and sample will be rejected and will remain at the risk of the contractor.

6. Payment will be made on bills to be checked by the Superintendent of the Government Stationery, such payments being made after 1st July 1904.

7. Tenders must be submitted on forms which can be had on application to the Superintendent of Stationery, Mysore Government, Bangalore, accompanied by one anna for postage to places outside of Bangalore.

8. Tenders must specify the rate at which the tenderers agree to supply; these rates must include baling, shipping, carriage and all other charges up to delivery at the office of the Stationery Depot, Bangalore.

9. Tenders will be opened by the Superintendent of the Mysore Government Stationery Depot, Bangalore, at 2 P. M. on the 6th April 1904, in the presence of such tenderers as may choose to attend.

10. The Superintendent reserves the right of rejecting any tender in whole or in part without assigning any reason therefor.

PART III.

Legislative Measures and Rules thereunder.

LEGISLATIVE DEPARTMENT.

Notification No. 147—Legis. 5-03, dated Bangalore, the 7th March 1904.

The following draft of Rules proposed to be issued under the Mysore Weights and Measures Regulation, III of 1902, is published for general information. The draft will be taken into consideration after the expiry of two months from the date of such publication. Criticisms and suggestions from persons interested, sent in within this interval, will be duly considered.

K. S. CHANDRASEKHARA AIYAR,
for *Secretary.*

Draft Rules proposed to be issued under the Mysore Weights and Measures Regulation.

In exercise of the powers conferred by Regulation III of 1902, and of all other powers enabling them in this behalf, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following Rules for regulating the use of weights and measures of capacity in all parts of the State from and after the first day of.....1904.

Nothing in these Rules is intended to have application to, or to interfere with the use of, the British or Metric systems of weights and measures, or any other recognised system not based on a weight or measure called the "seer," or any sub-division or multiple thereof, as a unit.

1. (1) The standard of weight shall be the "seer" weight, which is a mass of metal in the possession of Government equal to the weight of twenty-four rupees (of 180 grains Troy each) of the British Indian currency.

(2) The standard of measure of capacity shall be the "seer" measure, which is a hollow bronze cylinder in the possession of Government, capable, when filled to the brim, of holding just eighty rupees weight of distilled water at its maximum density and under the normal atmospheric pressure.

2. (1) The standard seer weight and seer measure aforementioned shall be carefully secured in the State Huzur Treasury in the personal custody of the Officer in charge of the Treasury.

(2) A duplicate copy of the standard seer weight and a duplicate copy of the standard seer measure shall be kept in the Bangalore Central Jail in the personal custody of the Superintendent of the Jail; and the same shall be compared not less often than once in ten years with the standards preserved in the State Huzur Treasury.

3. The use of the following weights and measures of capacity is hereby recognised :—

(A) *Weights* :—

Tola (=180 grains) equal to one-twenty-fourth of a seer as defined in Rule 2 (1) ;
Half-tola ; quarter-tola ; and smaller sub-divisions of a tola ;
Multiples of a tola to be described as so many tolas.
Seer, equal to the standard seer weight as defined in Rule 2 (1) ;
Half-seer (*Achcheru*), equal to 12 tolas ;
Quarter-seer (*Pavu*), equal to 6 tolas ;
One-eighth seer (*Arapavu*) equal to 3 tolas.
Maund (*Mana*), equal to 40 seers ;
Lower multiples of a seer, to be described as so many seers (with or without fractional parts) ; or as such fraction of a maund, *e.g.*, 5 seers (*Panchcheru*) ; 10 seers (*Dhadiah*) ; ½ maund ; ¼ maund, etc.
Multiples of a maund, to be described as so many maunds (with or without fractional parts), *e.g.*, 2 maunds ; 2½ maunds, etc.
Imperial seer (*Dodda seru*), equal to 80 tolas ;
Imperial maund (*Dodda mana*) equal to 40 imperial seers of 80 tolas each ;
Multiples of the imperial seer and imperial maund, to be described as so many imperial seers or imperial maunds.

(B) *Measures* :—

Seer, equal to the standard seer measure as defined in Rule 2 (2).
Sub-divisions of a seer as follows—
Half-seer (*Achcheru*) ; quarter-seer (*Pavu*) ; one-eighth seer (*Arapavu*) ; one-sixteenth seer (*Chatâku*) ;
Kolaga, equal to eight seers ;
Lower multiples of a seer, to be described as so many seers (with or without fractional parts), or such fraction of a Kolaga ;
Palla, equal to 12½ kolagas, or 100 seers ;
Kandi, equal to 20 kolagas or 160 seers.
Lower multiples of a kolaga to be described as so many kolagas (with or without fractional parts), or such fraction of a palla or kandi.

4. The Superintendent of the Bangalore Central Jail shall cause to be manufactured copies of the more commonly used weights and measures, which, after being carefully verified and stamped with the stamp of verification, shall be available for sale at prices not exceeding the cost price *plus* a reasonable percentage for cost of establishment.

5. Correct copies of the standards of weight and measure, and also of the more commonly used weights and measures, shall be supplied by the Superintendent of the Central Jail, Bangalore, to the offices mentioned in Section 3 of the Regulation, as well as to every Taluk Cutcherry and Police-Station. These shall be verified not less often than once in ten years, by the Superintendent of the Central Jail, and shall be replaced whenever necessary.

6. In the absence of usage or an express or implied understanding to the contrary, it is assumed that in measuring an article by any of the recognised measures of capacity, the measure is not heaped, but either is stricken with a round stick or roller, straight and of the same diameter from end to end, or, if the article sold cannot from its size or shape be conveniently stricken, is filled in all parts as nearly to the level of the brim as the size and shape of the article will admit.

7. A weight or measure which does not differ from the proper value of weights or measures of the same denomination by more than the margin or error allowed as per table hereunder, shall not, by reason merely of such difference, be deemed to be a false weight or measure :—

Table showing the margin of error allowed for different weights and measures :—

Below ¼ seer down to ⅛ seer	4 "
Below ⅛ seer	2 "

8. Nothing in these rules shall be deemed to render illegal the sale of an article in any vessel where such vessel is not represented as containing any amount of the standard seer measure; or

to prohibit parties from agreeing to determine the quantity of any article either by weighing or by measuring or partly by one mode and partly by the other.

9. Weights and measures of capacity shall be made of metal: provided that measures below a seer in capacity may be made either of metal or of wood or of bamboo.

10. The shape of weights, except where handles or depressions for lifting occur, shall as far as possible be such that both the upper and under surfaces shall be flat and the horizontal sections circular or rectangular.

Measures shall be hollow cylinders, with plane base, and internal diameter equal to half the depth.

11. Every weight, except where the small size of the weight renders it impracticable, shall have the denomination of such weight stamped on the top or side thereof in legible figures and letters.

Every measure of capacity shall have the denomination thereof stamped on the outside of such measure in legible figures and letters.

A weight or measure not in conformity with this rule shall not be stamped with a stamp of verification under these rules.

12. Every weight, except where the small size of the weight renders it impracticable, and every measure of capacity, shall be verified and stamped, with a stamp of verification in the form given below, and shall thereafter be produced for verification not less often than once in every five years.

Form of stamp.—The Royal Arms of Mysore, and, circumscribing the same, the word "Mysore" and the figures denoting the year of stamping, as in the accompanying model.

13. (1) For every district there shall be appointed an Inspector of Weights and Measures, and such other establishment as may be necessary, the whole to be under the control of the Deputy Commissioner.

(2) The Inspector shall travel throughout the district and deal with all applications referred to him under Rule 14 for the verification and stamping of weights and measures.

(3) He shall enter in a book to be kept by him, minutes of every verification, and give, if required, a certificate under his hand of every stamping effected by him.

(4) The inspection of weights and measures and weighing instruments in use shall also be part of his duties; and for this purpose and for the purpose of Section 153 of the Code of Criminal Procedure, he shall be deemed, in regard to the whole of the local area under his jurisdiction, to have been appointed an officer in charge of a Police Station. Accordingly he may, without a warrant, enter any place within his jurisdiction for the purpose of inspecting or searching for any weights or measures or instruments for weighing used or kept therein, whenever he has reason to believe that there are in such places any weights, measures or instruments for weighing which are false. If he finds in such place any weights, measures or instruments for weighing which are false, he may seize the same, and shall forthwith give information of such seizure to a Magistrate having jurisdiction.

14. (1) Every application for the verification and stamping of weights and measures shall be addressed to the local Amildar or Deputy Amildar, and shall be accompanied by a fee of one anna for each weight or measure to be dealt with.

(2) The fee shall be sent to the Treasury and credited towards the cost of the special establishment entertained for stamping under Rule 13.

(3) The application shall be referred to the Inspector of Weights and Measures for disposal in accordance with the instructions given in the schedule appended to these rules.

15. (1) In conducting the actual operation of testing, the Inspector of Weights and Measures will cause to be carried out free of extra charge any slight adjustment that may be found necessary to make the weights and measures perfectly accurate.

(2) The Inspector of Weights and Measures is empowered to deface, or render incapable of use, or refuse to verify, correct or stamp, any weight or measure brought to him for verification or correction, which appears to him unfit for verification or correction by reason of its not being in conformity with these rules.

SCHEDULE.

[*See Rule* 14 (3)].

I. TESTING OF WEIGHTS.

Sensibility of Balance.—When weights have to be verified by standard weights and only common scales or balances are available, the first thing to be done is to try the balance as to its degree of sensibility, apart from the question of equilibrium. Suppose a maund weight of 40 seers is received for verification. Put a standard maund weight in the right hand scale and exactly counterbalance it by weights in the left. If 40 grains weight will make a difference when placed in either scale, the balance may be considered good enough for the verification of a common maund weight of commerce. If a beam does not turn with $\frac{1}{100}$ part of the weight that may be in one scale, it cannot be used for very accurate purposes.

Verification of Weights.—The maund weight received for verification should be examined thus:—

Place the standard maund weight in the right hand scale and exactly counterbalance it; then take it out and put in its place the weight to be verified. If the beam shows an equipoise, the weight is correct. It is of no consequence whether the arms of the beam are equal or not, or in other words, whether the scales are or are not correct.

Equipoise of Balance.—To ascertain if the balance is in equipoise, put a standard maund weight into the right hand scale and exactly counterbalance it in the left hand scale. Then take it out and put in other weights into the right hand scale and produce exact equipoise, this time in the right hand scale, not the left hand. It is now evident that the two weights weighed in the right hand scale are equal to one another: remove the weight from the left hand scale and put therein the weight taken from the right hand scale, and if the beam shows a true equipoise, the balance is correct; if not the beam or the scales can only be adjusted by a competent workman. The same remark holds good with reference to all other balances, large or small.

II. TESTING OF GRAIN AND LIQUID MEASURES.

Diameter of Grain Measures.—When a grain measure is received for being stamped, the first thing to be done is to measure the diameter carefully. If the diameter of the measure is exactly the same as that of the standard measure, the measure may be accepted for testing. If not the measure should be rejected. (*Note.*—If a measure is not quite round, a mean between the longest and shortest diameters should be taken.)

Method of Test employed.—The only system of test to be employed in testing measures brought to be stamped is that by volume of water, for the proper performance of which the stamping officer is provided with either a specifically constructed set of standardized testing vessels or with two test glasses, a twenty-ounce glass equivalent to a quart and a five-ounce glass graduated to quarters of an ounce. This test is very trustworthy and easily applied.

Preliminaries to Testing.—The following preliminaries must be attended to before the actual process of testing can be commenced. The best drinking water available should be obtained, as it is the clearest. The measure to be tested should be well washed out, and if it is of wood, water should be allowed to stand in it for a quarter of an hour before testing, so as to guard against absorption during the testing, whereby the result would be falsified. If the measure is found to be leaky, the leaks should be caulked on the outside only with pitch or sealing-wax.

Process of Testing.—The test should then be applied in the following manner:—The rim of the measure should be moistened, as otherwise water may stand without spilling quite a sixteenth of an inch above it; and in a measure of five inches diameter this will represent 1·39 tolas of rice. The measure should then be filled with water. This is done by pouring water into it from the test glass, either the large 20 oz. glass or the small 5 oz., one or both being used according to the size of the measure under examination. In pouring water from the test glass into the measure, care should be taken to prevent the water from overtopping the rim of the measure. The surface of the water must be exactly level with the rim. From the number of times water was poured into the measure from the test glasses and from the quantity remaining in them, it can be ascertained how many ounces of water have been used

to fill the measure. The quantity of water, if any, found to have been spilt should be deducted from the total quantity poured out from the test glass. If it be found impossible to staunch a leaky measure, reliable results may be obtained by catching the water which escapes by leakage, measuring it, and deducting the quantity from that poured into the measure from the test glass. The remainder represents the exact capacity of the measure in ounces of water. If this is equal to the proper capacity of the measure, calculated at 41 ounces for the standard seer measure, the measure may be taken to be correct and stamped accordingly; otherwise it should be rejected. The "correct copies" of measures themselves should on no account be used in the application of the test, as it is almost impossible to pour out the liquid from such measures filled to the brim without spilling. If, however, special vessels of standard capacities are made with a narrow neck and board lip for pouring, similar in shape to the gallon pot used in the Excise Department, and standardized to fluid ounces, there is no objection to such measures being used for the purpose of testing. The use of ounce glasses will then be only required in the primary test of capacity of such special measures.

III. PROCESS OF STAMPING.

Directions for Stamping.—The following are the directions for conducting the actual process of stamping weights and measures:—

(1) The large metallic weights should be stamped on the top, close to the handle on either side; the smaller weights on any part (the handles excepted) having sufficient even surface to receive the impression equally. Flat weights should be marked either on the top or underneath.

(2) Measures of iron or other metal should be stamped below the rim, to effect which it will be necessary to inroduce the beak of an anvil, or beak iron, into the vessel (held horizontally for the purpose); the part to be marked should be held closely and firmly down on the beak by one person, whilst another applies the die on the upper surface, and a third party strikes steadily with a sledge, or a heavy hand-hammer, until the required impression has been produced.

(3) Measures may also be marked on the bottom by being inverted on an iron stake with flat top somewhat larger than the die.

(4) In applying the large die whether on brass or iron, the sledge hammer must be used; for the small die the heavy hand-hammer will be sufficient.

(5) The operation will be best performed by a smith, hammer-man and bellows-boy.

(6) For weights and measures of irregular shapes, in use by bazaarmen and merchants, no uniform system can be laid down; but as a general rule, they should be marked on a part on which the die can be applied equally.

(7) If there is a joining at the side of a measure, an impression should be made across it.

(8) Where wooden or bamboo measures have to be stamped, the impression stamp specified in Rule 12 should be stamped by means of a steel die at the very top of the measure to prevent its being cut down.

IV. SUPERVISION AND REPORT.

Supervision.—The work of testing and stamping should be done invariably under proper official supervision. Deputy Commissioners and their Assistants should inspect each party of stamping establishments as often as possible, and ascertain whether the men understand their work, and whether they levy any unauthorised fees from the merchants. They should also note their remarks in an inspection book.

Annual Report.—An annual return of stamping operations should be submitted by Deputy Commissioners to Government in the prescribed form on or before the 1st November of each year.
